Title of Collection: Impact Evaluation of Teacher Residency Programs.

OMB Control Number: 1850-0960.

Type of Review: Revision of a currently approved collection.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 637.

Total Estimated Number of Annual Burden Hours: 394.

Abstract: The U.S. Department of Education (ED)'s Institute of Education Sciences (IES) requests clearance for data collection activities to support a study of teacher residency programs. Teacher residency programs aim to better prepare new teachers by combining education coursework with extensive on-the-job training. Program participants complete a full-year apprenticeship, or "residency," under the supervision of an experienced mentor teacher before they become teachers of record. The programs help meet the needs of their partner districts by preparing teachers to fill shortages in high-needs schools and subjects. They offer financial support for residents in exchange for a commitment to teach for at least three to five years in the district, in an effort to improve teacher retention. This financial support may also help expand the pool of teacher candidates by encouraging people to enter the profession who might be deterred by the cost of a traditional teacher preparation program. This second request covers additional data collection activities for the study to examine program outcomes. A prior request (1850-0960, approved 4/26/2021) covered the collection of classroom rosters from schools to support random assignment of students to participating teachers.
