Class E airspace designations are published in Paragraph 6005 of FAA Order JO 7400.11F, dated August 10, 2021, and effective September 15, 2021, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order JO 7400.11F, Airspace Designations and Reporting Points, dated August 10, 2021, and effective September 15, 2021. FAA Order JO 7400.11F is publicly available as listed in the ADDRESSES section of this document. FAA Order JO 7400.11F lists Class A, B, C, D, and E airspace areas, air traffic routes, and reporting points.

The Rule

The FAA is amending 14 CFR part 71 by amending the Class E airspace extending upward from 700 feet above the surface at Lake Norman Airpark, Mooresville, NC, by removing Lowe's Mooresville Heliport from the description, as the heliport has closed, and airspace is no longer required. Also, the radius of the Lake Norman Airpark is increased to 9.3 miles (previously 6.3 Miles). In addition, the FAA is removing the unnecessary verbiage in the description referencing Class E airspace in Statesville, NC, and Concord, NC.

FAA Order JO 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when

promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures," paragraph 5–6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Correction

In rule document 2021–17377 at 86 FR 45631 in the issue of August 16, 2021, on page 45637, in the first column, the third full paragraph is corrected to read as follows:

Response: The agency who is the originating office is responsible for curing any omission or error. When LTRO discovers a defect, LTRO sends the documents electronically in real time to the agency for correction. Once LTRO receives the corrected document, the timeframes applicable to recording of any document applies.

The original publication contained a typographical error stating that LTRO would send the documents electronically in real time to the LTRO for correction.
