

requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Title of Collection: Student Assistance General Provisions—Non-Title IV Revenue Requirements (90/10).

OMB Control Number: 1845–0096.

Type of Review: A revision of a currently approved collection.

Respondents/Affected Public: Private Sector.

Total Estimated Number of Annual Responses: 10.

Total Estimated Number of Annual Burden Hours: 5.

Abstract: The regulations in 34 CFR 668.28 provide that a proprietary institution must derive at least 10% of its annual revenue from sources other than Title IV, HEA funds, identifies sanctions for failing to meet this requirement, and otherwise implement the statute. An institution discloses in a footnote to its audited financial statements the amounts of Federal and non-Federal revenues, by category, that it used in calculating its 90/10 ratio (see section 487(d) of the HEA).

The publication of final regulations on September 2, 2020, removed section 668.285(b) regarding Net Present Value in the calculation of the 90/10 ratio and reserved this subparagraph as of the effective date of the regulation, July 1, 2021. With the cancellation of the requirement to calculate the Net Present Value, we are revising the current information collection to estimate the burden for the reporting of the sanction to the Department only.

This request is to revise the currently approved information collection package, OMB Control Number 1845–0096, to include burden hours based on section 668.28(c) Sanctions. The information collection requirements in the regulations are necessary to determine eligibility to receive program benefits and to prevent fraud and abuse of program funds.

PRA Coordinator, Strategic Collections and Clearance Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.

Title of Collection: Student Assistance General Provisions—Annual Fire Safety Report.

OMB Control Number: 1845–0097.

Type of Review: An extension without change of a currently approved collection.

Respondents/Affected Public: Private Sector; State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 4,310.

Total Estimated Number of Annual Burden Hours: 4,313.

Abstract: The Department of Education regulations at 34 CFR 668.49 require institutions to collect statistics on fires occurring in on-campus student housing facilities, including the number and cause of each fire, the number of injuries related to each fire that required treatment at a medical facility, the number of deaths related to each fire, and the value of property damage caused by each fire. Institutions must also publish an annual fire safety report containing the institution's policies regarding fire safety and the fire statistics information. Further institutions are required to maintain a fire log that records the date, time, nature, and general location of each fire in on-campus student housing facilities. Due to the effects of the COVID–9 pandemic, the Department lacks sufficient data to allow for more

accurate updates to the usage of these regulations. This request is for an extension without change to the reporting requirements contained in the regulations. The collection requirements in the regulations are necessary to meet institutional information reporting to students and staff as well as for reporting to Congress through the Secretary.
