

previously approved ICR to 34 in the current ICR. Estimated annual burden hours for Form M decreased by 78 hours [306 proposed hours – 384 currently approved hours = – 78 hours].

Estimated annual respondents for Form MP–1 stayed the same. The previously approved ICR had 0 annual hours. The current ICR has 0 annual hours. This estimate is based on the number of Form M and Form MP–1 submissions received by the Agency between 2018 and 2020, which results in these estimates of annual respondents/responses for the upcoming information collection period.

Labor costs to industry have decreased by \$2,276, annually [\$14,494 in proposed costs – \$16,770 currently approved costs = – \$2,276]. This is due to the decreased estimates of annual respondents/responses. Other annual costs to respondents (*i.e.*, associated with mailing completed forms to FMCSA) have decreased by \$9 [(\$34 in proposed mailing costs for Form M + \$0 in proposed mailing costs for Form MP–1) – (\$43 in previously approved mailing costs for Form M + \$0 in previously approved mailing costs for Form MP–1) = \$ – 9]. This change is also due to the decreased estimates of annual respondents/responses.

For the Federal Government, annual costs have increased by \$6 [\$79 in proposed costs – \$73 in previously approved costs = \$6]. This increase is due to a revision in the federal government employee load rate, which was revised to be consistent with other FMCSA ICRs.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for FMCSA to perform its functions; (2) the accuracy of the estimated burden; (3) ways for the FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information.

Issued under the authority delegated in 49 CFR 1.87.

SUPPLEMENTARY INFORMATION: The OCC is requesting comment on the following revision to an approved information collection:

Title: Company-Run Annual Stress Test Reporting Template and Documentation for Covered Institutions with Total Consolidated Assets of \$250 Billion or More under the Dodd-Frank

Wall Street Reform and Consumer Protection Act.

OMB Control No.: 1557–0319.

Description: Section 165(i)(2) of the Dodd-Frank Wall Street Reform and Consumer Protection Act¹ (Dodd-Frank Act) requires certain financial companies, including national banks and federal savings associations, to conduct annual stress tests² and requires the primary financial regulatory agency³ of those financial companies to issue regulations implementing the stress test requirements.⁴ Under section 165(i)(2), a covered institution is required to submit to the Board of Governors of the Federal Reserve System (Board) and to its primary financial regulatory agency a report at such time, in such form, and containing such information as the primary financial regulatory agency may require.⁵

On October 9, 2012, the OCC published in the **Federal Register** a final rule implementing the section 165(i)(2) annual stress test requirement.⁶ This rule describes the reports and information collections required to meet the reporting requirements under section 165(i)(2). These information collections will be treated as confidential (to the extent permitted by law.⁷

In 2012, the OCC first implemented the reporting templates referenced in the final rule.⁸ The OCC uses the data collected to assess the reasonableness of the stress test results of covered institutions and to provide forward-looking information to the OCC regarding a covered institution's capital adequacy. The OCC also may use the results of the stress tests to determine whether additional analytical techniques and exercises could be appropriate to identify, measure, and monitor risks at the covered institution. The stress test results are expected to support ongoing improvement in a covered institution's stress testing practices with respect to its internal assessments of capital adequacy and overall capital planning.

The OCC recognizes that many covered institutions with total consolidated assets of \$250 billion or more are required to submit reports using Comprehensive Capital Analysis

and Review (CCAR) reporting form FR Y–14A.⁹ The OCC also recognizes the Board has made modifications to the FR Y–14A and, to the extent practical, the OCC will keep its reporting requirements consistent with the Board's FR Y–14A in order to minimize burden on covered institutions.¹⁰

The OCC's proposed changes include only limited updates to reflect the changes made by the Board, and the proposed OCC reporting forms will substantially resemble the forms used by the OCC last year. Some of the changes made by the Board are inapplicable to OCC-regulated institutions and involve new items that would not be collected by the OCC under the proposed changes. For example, the OCC's, Board's, and Federal Deposit Insurance Corporation's January 6, 2021 final rule revising risk-based capital requirements included new items on the FR Y–14A that are inapplicable at the depository institution level (for example, "outstanding eligible long-term debt") and will therefore not be collected under the OCC's proposed revisions. Similarly, in 2021 the OCC's reporting forms did not collect other items collected on the 2021 FR Y–14A (for example, line items related to the stress capital buffer), and the OCC's proposed changes also do not include these items. The OCC's proposed changes include the minimal adjustments necessary to align line items with placement on the 2021 FR Y–14A. If the FRB proposes additional changes to the FR Y–14A reporting forms after the publication of this notice, the OCC expects to make corresponding changes to the OCC reporting forms to minimize inconsistencies and reduce burden.

Type of Review: Revision.

Affected Public: Businesses or other for-profit.

Estimated Number of Respondents: 8.

Estimated Total Annual Burden: 4,212 hours.

The OCC believes that the systems covered institutions use to prepare the FR Y–14 reporting templates to submit to the Board will also be used to prepare the reporting templates described in this notice. Comments submitted in response to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the OCC, including

whether the information has practical utility; (b) The accuracy of the OCC's estimate of the burden of the collection of information; (c) Ways to enhance the quality, utility, and clarity of the information to be collected; (d) Ways to minimize the burden of the collection on respondents, including the use of automated collection techniques or other forms of information technology; and (e) Estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Deputy Chief Counsel, Office of the Comptroller of the Currency.
