

ACTION: Notice and opportunity for public comment.

SUMMARY: The Economic Development Administration (EDA) has received petitions for certification of eligibility to apply for Trade Adjustment Assistance

from the firms listed below. Accordingly, EDA has initiated investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each of the

firms contributed importantly to the total or partial separation of the firms' workers, or threat thereof, and to a decrease in sales or production of each petitioning firm.

SUPPLEMENTARY INFORMATION:

LIST OF PETITIONS RECEIVED BY EDA FOR CERTIFICATION OF ELIGIBILITY TO APPLY FOR TRADE ADJUSTMENT ASSISTANCE

[10/15/2021 through 10/28/2021]

Firm name	Firm address	Date accepted for investigation	Product(s)
Vita, Inc. d/b/a Vita Vibe d/b/a The Ballet Barre Store.	40 Ellwood Court, Greenville, SC 29607	10/15/2021	The firm manufactures ballet and fitness barres.
Helberg Electrical Supply, LLC	12B Filmore Place, Freeport, NY 11520	10/20/2021	The firm distributes electrical supplies and electrical power equipment.
Maximal Art, Inc. d/b/a John Wind	1610 South 8th Street, Philadelphia, PA 19148.	10/28/2021	The firm manufactures jewelry.

Any party having a substantial interest in these proceedings may request a public hearing on the matter. A written request for a hearing must be submitted to the Trade Adjustment Assistance Division, Room 71030, Economic Development Administration, U.S. Department of Commerce, Washington, DC 20230, no later than ten (10) calendar days following publication of this notice. These petitions are received pursuant to section 251 of the Trade Act of 1974, as amended.

Please follow the requirements set forth in EDA's regulations at 13 CFR 315.8 for procedures to request a public hearing. The Catalog of Federal Domestic Assistance official number and title for the program under which these petitions are submitted is 11.313, Trade Adjustment Assistance for Firms.

Bryan Borlik,

Director.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[B-71-2021]

Foreign-Trade Zone (FTZ) 38—Spartanburg County, South Carolina; Notification of Proposed Production Activity; Swafford Warehousing, Inc. (Medical Kits); Greer, South Carolina

The South Carolina State Ports Authority, grantee of FTZ 38, submitted a notification of proposed production activity to the FTZ Board (the Board) on behalf of Swafford Warehousing, Inc., located in Greer, South Carolina under FTZ 38. The notification conforming to

the requirements of the Board's regulations (15 CFR 400.22) was received on November 1, 2021.

Pursuant to 15 CFR 400.14(b), FTZ production activity would be limited to the specific foreign-status materials/components and specific finished product, medical kits (duty-free), described in the submitted notification (summarized below) and subsequently authorized by the Board. The benefits that may stem from conducting production activity under FTZ procedures are explained in the background section of the Board's website—accessible via www.trade.gov/ftz.

The proposed foreign-status materials and components include: Lubricating jelly; catheters; alcohol-free sanitizing wipe sachets; burn film cling roll, plastic; chest drain kit (includes: Sutures, blunt forceps, chest drainage bag); hypodermic needles; sterile sutures; bandages, cotton adhesive; procedure masks; retractors; pocket bougies, endotracheal tubes; shielded intravenous (IV) catheters; instant ice packs; syringes; nasal cannulas; kinesiology tape; oxygen masks; gauze, sterile wound dressing, cotton mesh with paraffin wax blend; hygienic hand sanitizer; quick release tourniquets; sharpsafe boxes; sterile IV giving set for parenteral administration of infusions (IV fluids); forceps; film ported cannulas; glucometers; paper utility drapes; latex gloves; surgical cricothyrotomy sets (includes: Scalpels; syringes; tracheal tubes; extension tubing; tracheal hooks and neck tape); plastic nasal airway tubes with adjustable flange, latex-free; and, scalpels (duty rate ranges from duty-free to 5.3%). The request indicates that certain materials/components are

subject to duties under Section 301 of the Trade Act of 1974 (Section 301), depending on the country of origin. The applicable Section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is December 20, 2021.

A copy of the notification will be available for public inspection in the "Online FTZ Information System" section of the Board's website.

For further information, contact Diane Finver at Diane.Finver@trade.gov.

Dated: November 2, 2021.

Andrew McGilvray,

Executive Secretary.

BILLING CODE 3510-DS-P

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC-2021-0018]

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Toy Warning Labels Online Survey

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: As required under the Paperwork Reduction Act of 1995 (PRA), the Consumer Product Safety Commission (CPSC or Commission) announces that CPSC has submitted to the Office of Management and Budget

(OMB) a new proposed collection of information for a survey to assess how toy safety labels on e-commerce websites affect caregivers' purchasing behaviors. On June 24, 2021, the CPSC published a notice in the **Federal Register** announcing the agency's intent to seek approval of this collection of information. After reviewing and considering the comments, the Commission announces that it has submitted to the OMB a request for approval of this collection of information. A copy of the proposed survey, "Revised Supporting Statement Toy Warning Survey" is available at: www.regulations.gov under Docket No. CPSC-2021-0018, Supporting and Related Material.

DATES: Submit written or electronic comments on the collection of information by December 8, 2021.

ADDRESSES: Send written comments and recommendations for the proposed information collection within 30 days of publication of this notice to: www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting, "Currently under 30-day Review—Open for Public Comments," or by using the search function. In addition, written comments that are sent to OMB also should be submitted electronically at: <http://www.regulations.gov>, under Docket No. CPSC-2021-0018.

FOR FURTHER INFORMATION CONTACT: Cynthia Gillham, Consumer Product Safety Commission, 4330 East-West Highway, Bethesda, MD 20814; (301) 504-7991, or by email to: cgillham@cpsc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA; 44 U.S.C. 3501-3520), federal agencies must obtain approval from OMB for each collection of information they conduct or sponsor. "Collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency data-collection studies and surveys. Agencies must provide notice of the proposed collection of information in the **Federal Register**, and provide a 60-day comment period, before submitting the collection to OMB for approval. 44 U.S.C. 3506(c)(2)(A). Agencies then must evaluate any public comments and publish another notice in the **Federal Register**. *Id.* 3507(a)(1).

In accordance with these procedures, on June 24, 2021, CPSC published a notice in the **Federal Register** announcing the agency's intent to seek approval of a new collection of information on a survey on the Toy Warning Labels Online Survey. 86 FR 33239. Section B. Comments, below,

summarizes and addresses the comments CPSC received.

A. Toy Warning Labels Online Survey

CPSC is authorized under section 5(a) of the Consumer Product Safety Act (CPSA), 15 U.S.C. 2054(a), to conduct studies and investigations relating to the causes and prevention of deaths, accidents, injuries, illnesses, other health impairments, and economic losses associated with consumer products. Section 5(b) of the CPSA, 15 U.S.C. 2054(b), further provides that CPSC may conduct research, studies, and investigations on the safety of consumer products, and develop product safety test methods and testing devices.

In 2020, CPSC conducted an Online Shopping Focus Group with 40 participants, which was approved under OMB Control No. 3041-0136. In-depth interviews were conducted with primary caregivers (parent or guardian) of young children ages 3 to 6 years old, to gather feedback on the caregivers' understanding, perceptions, and attitudes toward online toy safety messaging. Caregiver responses in the focus group study indicated that typically, they do not look for warning labels on web pages when shopping for toys on e-commerce websites. Some of the reasons for their failure to look for the warning labels may be the lack of prominent visibility of the safety information on consumer web pages, or because the warning labels were not particularly noticeable, or easy to find. These findings suggest that improving the location or design of warning labels may help caregivers become more aware and informed about the potential safety risks associated with products intended for young children.

CPSC seeks to learn more about caregivers' understanding and awareness of warning labels for toys intended for children 2 to 6 years old. This proposed survey will augment the work conducted in the focus group, through an online survey. The proposed survey will be directed to caregivers who have purchased a toy from an e-commerce website for a 2- to 6-year-old child and assess how these caregivers interpret and adhere to safety warnings when purchasing toys for their child. CPSC will use this information to develop strategies and best-practice approaches for recommending where and how safety warnings for children's products should be displayed to get caregivers' attention when shopping online for children's toys or products.

CPSC has contracted with Fors Marsh Group, LLC, to develop and execute this project for CPSC. Information obtained

through this survey is not intended to be considered nationally representative. CPSC intends to use findings from this survey, with findings from other research and activities, to assist with providing recommendations for refining and enhancing warning labels in the future, to convey critical information effectively about product safety warnings for online sellers.

B. Comments

CPSC received one comment in response to the June 24, 2021 notice. The commenter stated support for the research. However, the commenter raised a concern that the small sample size of 250 will not provide enough information and stated that an increased sample size, such as 500, would provide more insights. Commenter also suggested making efforts to get a diverse range of shoppers in the sample, in terms of income, race, and other demographic information, as well as in terms of familiarity with shopping and purchasing online. The commenter expressed the belief that first-time shoppers for an online children's product will have different responses from regular online shoppers. Furthermore, the commenter recommends that CPSC, while conducting the survey, seek information on different types of products that parents shop for online.

CPSC considered the comment and modified the survey to increase the sample size of the survey from 250 to 750 participants. The survey will screen participants to ensure the selection of a sample that varies on income, education, caregiver age, age of their child(ren), and other parameters. The panel provider will also monitor respondents to ensure that underserved populations are represented in the sample and that insights are collected from a diverse population. Although the survey instrument will differentiate results between first-time and regular online shoppers, the purpose of the survey is to gather feedback on the caregivers' understanding, perceptions, and attitudes toward online toy safety messaging information, rather than on the different types of products parents shop for online. However, the Commission may consider additional research to collect this information in the future.

C. Burden Hours

We revised the estimate of the number of respondents to the survey from 250 to 750 participants. The online survey for the proposed study will take approximately 15 minutes (0.25 hours) to complete. We estimate the total

annual burden hours for respondents to be 187.50 hours. The monetized hourly cost is \$38.60, as defined by total compensation for all civilian workers, U.S. Bureau of Labor Statistics, Employer Costs for Employee Compensation, as of December 2020. Accordingly, we estimate the total cost burden to be \$7,237.50 (187.50 hours × \$38.60). The total cost to the federal government for the contract to design and conduct the proposed survey is \$152,712.

Alberta E. Mills,

Secretary, Consumer Product Safety Commission.

BILLING CODE P

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC–2021–0020]

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Hazard Warning Communication Survey

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: As required by the Paperwork Reduction Act of 1995, the Consumer Product Safety Commission (CPSC or Commission) announces that the Commission has submitted to the Office of Management and Budget (OMB) a request for extension of approval for an information collection on a proposed survey to assess how hazard warnings are communicated to consumers. On July 26, 2021, the CPSC published a notice in the **Federal Register** announcing the agency's intent to seek approval of this collection of information. The Commission received no comments. Therefore, by publication of this notice, the Commission announces that CPSC has submitted to the OMB a request for extension of approval of this collection of information, without change.

DATES: Submit written or electronic comments on the collection of information by December 8, 2021.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to: www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. In addition, written comments that are sent to OMB also

should be submitted electronically at: <http://www.regulations.gov>, under Docket No. CPSC–2021–0020.

FOR FURTHER INFORMATION CONTACT: Cynthia Gillham, Consumer Product Safety Commission, 4330 East-West Highway, Bethesda, MD 20814; (301) 504–7991, or by email to: cgillham@cpsc.gov.

SUPPLEMENTARY INFORMATION: On July 26, 2021, the Commission published notice of the proposed collection on the hazard warning communication survey. 86 FR 40018. The Commission did not receive any comments. Accordingly, the Commission announces that it has submitted to the OMB a request for approval of this collection, without change.

A. Hazard Warning Communication Survey

CPSC is authorized under section 5(a) of the Consumer Product Safety Act (CPSA), 15 U.S.C. 2054(a), to conduct studies and investigations relating to the causes and prevention of deaths, accidents, injuries, illnesses, other health impairments, and economic losses associated with consumer products. Section 5(b) of the CPSA, 15 U.S.C. 2054(b), further provides that CPSC may conduct research, studies, and investigations on the safety of consumer products, and develop product safety test methods and testing devices.

CPSC proposes to conduct an online survey to gather data on consumer risk perception and response to hazard communications from 5,000 respondents. The study population will be comprised of individuals age 18 and over from across the United States. In this proposed survey, CPSC seeks information about consumer product use, including, but not limited to, the following topics:

- Consumers' beliefs, experiences, and tendencies regarding product safety;
- whether consumers pay attention to instructions that come with products;
- whether consumers read safety information and labels;
- to what extent consumers comply with safety messages;
- how product type influences consumers' attitude and behavior;
- what information resources consumers rely on before buying a product;
- how product safety ranks among other factors consumers consider;
- reasons consumers comply or do not comply with the safety messages; and
- how consumers respond if they encounter a safety recall of the product they own.

CPSC has contracted with Carahsoft/Qualtrics to develop and execute this project for CPSC. Information obtained through this survey is not intended to be considered nationally representative. The panel provider will monitor respondents, and if a particular demographic is trending highly, the panel provider will slow down the sample for that segment and will focus on obtaining responses from others to ensure recruitment for U.S. census-matched survey participants from the Midwest, Northeast, South, and West regions. The panel provider will also monitor respondents to ensure that underserved populations are represented in the sample and that insights are collected from a diverse population.

CPSC intends to use the study findings to develop a better understanding of the mechanisms and types of safety messages that consumers receive, how they respond, and what affects their response. Specifically, responses to the items in this survey will provide CPSC staff with information on whether consumers read and comply with various types of safety information that comes with products they use; the causes of consumer noncompliance with product safety information; whether consumers share product safety information with other users of their products; what sources of information they rely on to decide if a product is safe to use; whether safety is a priority in their purchasing decisions; how they responded to safety notices and recalls in the past; reasons for noncompliance with safety notices and recalls; and if and how the product type affects their risk perception and behaviors. Findings from this survey will provide CPSC with information on ways to increase consumer understanding of, and adherence to, safety messaging and help CPSC develop more effective messaging that will convey critical information about product hazards.

B. Burden Hours

We estimate the number of respondents to the survey to be 5,000. The online survey for the proposed study will take approximately 15 minutes (0.25 hours) to complete. We estimate the total annual burden hours for respondents to be 1,250 hours. The monetized hourly cost is \$38.60, as defined by total compensation for all civilian workers, U.S. Bureau of Labor Statistics, Employer Costs for Employee Compensation, as of December 2020. Accordingly, we estimate the total cost burden to be \$48,250 (1,250 hours × \$38.60). The total cost to the federal
