Current Actions: This Notice proposes the clearance of *Measures that Matter—Assessing Public Libraries' Activities Related to Workforce Development*. The 60-day Notice was published in the **Federal Register** on August 20, 2020 (85 FR 51496). The agency received two comments, each requesting copies of the data collection instrument. The agency provided the requested document on November 4, 2021.

IMLS, in partnership with the Chief Officers of State Library Associations (COSLA), launched *Measures that Matter* in 2016, an initiative for coordinating conversations about existing approaches to gathering and using data to improve alignment of public library services, programs, and collections with communities' needs and emerging opportunities. An outgrowth of this effort, this proposed

assessment will study the contributions of public library-based workforce development activities including their coordinated efforts to deliver and measure these services across outlets and with community partners. This proposed investigation will identify a purposive sample of public libraries and complete case studies about them using a mix of research methods involving reviews of secondary and administrative data and interviews with library staff and their respective workforce development partners. These case studies will inform future opportunities for IMLS to examine in greater detail the ways in which public libraries are situated within a larger workforce development ecosystem.
