The regulations implementing these requirements are codified in the Code of Federal Regulations (CFR) title 40, part 268. EPA requires that facilities maintain the data outlined in this ICR so that the Agency can ensure that land disposed waste meets the treatment standards. EPA strongly believes that the recordkeeping requirements are necessary for the agency to fulfill its congressional mandate to protect human health and the environment.

Form Numbers: None.

Respondents/affected entities: Private sector and State, Local, or Tribal governments.

Respondent’s obligation to respond: Mandatory (40 CFR part 268).

Estimated number of respondents: 79,096.

Frequency of response: On occasion.

Total estimated burden: 600,097 hours per year. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: $95,703,440 (per year), which includes $49,372,275 in annualized capital or operation & maintenance costs and $46,331,165 in annualized labor costs.

Changes in estimates: The burden hours are likely to stay substantially the same.

Dated: November 4, 2021.

Carolyn Hoskinson,
Director, Office of Resource Conservation and Recovery.

SUPPLEMENTARY INFORMATION:

Background: The SAB was established pursuant to the Environmental Research, Development, and Demonstration Authorization Act (ERDDAA), codified at 42 U.S.C. 4365, to provide independent scientific and technical advice to the EPA Administrator on the scientific and technical basis for agency positions and regulations. The SAB is a Federal Advisory Committee chartered under the Federal Advisory Committee Act (FACA), 5 U.S.C., App. 2. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies. Pursuant to FACA and EPA policy, notice is hereby given that the SAB per- and polyfluoroalkyl substances (PFAS) Review Panel (PFAS Review Panel) will hold four public meetings to review and provide comments on the (1) the health effects data to inform the derivation of proposed Maximum Contaminant Level Goals (MCLG) for PFOA and PFOS; (2) the analysis of health risk reduction benefits of potential decreases in drinking water concentrations of PFOA and PFOS and (3) approaches to assess the cumulative risk among mixtures of PFAS.

Technical Contacts: Any technical questions relating to the clarity or accuracy of the technical information or analysis for the SAB will be directed to Morgan Flaherty (flaherty.colleen@epa.gov) and/or Jason Lambert (lambert.jason@epa.gov).

Availability of Meeting Materials:

Public comment for consideration by EPA’s federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to the EPA. Members of the public can submit relevant comments pertaining to the committee’s charge or meeting materials. Input from the public to the SAB PFAS Review Panel will have the most impact if it provides specific scientific or technical information or analysis for the SAB PFAS Review Panel to consider or if it relates to the clarity or accuracy of the technical information. Members of the public wishing to provide comment should contact the DFO directly. Oral Statements: Oral statements will be limited to three minutes. Persons interested in providing oral statements on December 16, 2021, should contact Dr. Sue Shallal, DFO, via email at shallall.suhair@epa.gov. Written Statements: Written statements will be accepted throughout the advisory process; however, for timely consideration, all written statements should be submitted to the DFO. Written statements should be received in the SAB Staff

ENVIRONMENTAL PROTECTION AGENCY

[FRL—9222–01–OA]

Notification of a Public Meetings of the Science Advisory Board Per- and Polyfluoroalkyl Substances (PFAS) Review Panel

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) Science Advisory Board (SAB) Staff Office announces four public meetings of the SAB per- and polyfluoroalkyl substances (PFAS) Review Panel (PFAS Review Panel) to review EPA’s Proposed Approaches to the Derivation of a Draft Maximum Contaminant Level Goal for Perfluorooctanoic Acid in Drinking Water and “Proposed Approaches to the Derivation of a Draft Maximum Contaminant Level Goal for Perfluorooctanesulfonic Acid in Drinking Water” should be directed to Sharon Lamberton (lamberton.sharon@epa.gov) or Jason Lambert (lambert.jason@epa.gov).

Carolyn Hoskinson,
Director, Office of Resource Conservation and Recovery.

[FR Doc. 2021–24573 Filed 11–9–21; 8:45 am]

BILLING CODE 6560–50–P
Office by December 30, 2021, for consideration at the public meeting(s). Written statements should be supplied to the DFO via email at the contact information above. Submitters are requested to provide a signed and unsigned version of each document because the SAB Staff Office does not publish documents with signatures on its websites. Members of the public should be aware that their personal contact information, if included in any written comments, may be posted to the SAB website. Copyrighted material will not be posted without explicit permission of the copyright holder.

Accessibility: For information on access or services for individuals with disabilities, please contact Dr. Shalla at the phone number or email address noted above, preferably at least ten days prior to the meeting, to give the EPA as much time as possible to process your request.

V Khanna Johnston, Deputy Director, EPA Science Advisory Board Staff Office.

DSTANNY:

Environmental Protection Agency (EPA) Science Advisory Board (SAB) Mission Support is giving notice that it proposes to amend its current list of general routine uses for EPA systems of records in accordance with the provisions of the Privacy Act of 1974, as amended. The amended list of routine uses is consistent with requirements in a memorandum issued by the Office of Management and Budget (OMB) on January 3, 2017 (Memorandum M–17–12 “Preparing for and Responding to a Breach of Personally Identifiable Information”). OMB’s memorandum requires that all Federal agencies publish two routine uses for their systems allowing for the disclosure of personally identifiable information to the appropriate parties in the course of responding to a breach or suspected breach of the agency’s PII or to assist another agency in its response to a confirmed or suspected breach.

Routine Uses: Records; Amendment to General Privacy Act of 1974; Systems of Records

AGENCY: Office of Mission Support, Environmental Protection Agency (EPA)

ACTION: Amendment to EPA’s existing Privacy Act general routine uses.

I. General Information

The Privacy Act of 1974, as amended, 5 U.S.C. 552a, governs the means by which the United States Government collects, maintains, and uses personally identifiable information (PII) in a system of records. A “system of records” is a group of any records under the control of a federal agency from which information about individuals is retrieved by name or other personal identifier. The Privacy Act requires each agency to publish in the Federal Register, for public notice and comment, a system of records notice (SORT) identifying and describing each system of records the agency maintains, including the purposes for which the information is collected, used, and disclosed.
