developed as a single form to replace the numerous other forms used by various countries for the entrance and clearance of vessels. CBP Form 1300 is authorized by 19 U.S.C. 1431, 1433, and 1434, and provided for by 19 CFR 4. This form is accessible at http://www.cbp.gov/newsroom/publications/forms?title=1300&applied.

This form is, currently, physically submitted and is anticipated to be electronically submitted as part of CBP’s efforts to automate maritime forms through the Vessel Entrance and Clearance System (VECS), which will reduce the need for paper submission of any vessel entrance or clearance requirements under the above referenced statutes and regulations. VECS will still collect and maintain the same data as CBP Form 1300, but will automate the capture of data to reduce or eliminate redundancy with other data collected by CBP.

**Proposed Changes**

1. **New ACE Account Type**

   CBP is adding a new ACE Account type for Vessel Agencies: Vessel Agency Account. The new account type within ACE will operate as a portal to the Vessel Entrance and Clearance System (VECS), which will run as its own separate system.

   Vessel Agents will be required to provide identifying information such as, their name, their employer identification number (EIN), company address, and their phone numbers, which will be requested at the time Vessel Agents apply for the new ACE account type.

   After creating an ACE account, Vessel Agencies, Vessel Operating Common Carriers (VOCCs), and their designees maybe able to use the new Vessel Entrance and Clearance System (VECS) as part of a forthcoming pilot program to test the functionality of VECS, and will be able to file vessel entrance, clearance, and related data to CBP electronically.

2. **VECS Public Pilot**

   VECS will automate and digitize the collection and processing of the data and filing requirements for which the CBP Form 1300 is used. CBP plans to run an initial public pilot to test the system. All users who obtained a Vessel Agency Account through the ACE Portal will be automatically enrolled into the VECS public pilot. Initially, the pilot will begin at one of several ports where VECS is being internally tested. CBP will provide training to each CBP port and the Vessel Agency personnel at each port, prior to beginning/expanding the public pilot in another port.

   The VECS public pilot will expand to other internal CBP testing ports based on knowledge and familiarity with the system. The VECS public pilot will then, based on pilot results, expand to additional ports, in an effort to progressively test and implement the system nationwide. There will be no change to CBP Form 1300 and CBP Form 1300 will continue to be accepted.

The comments that are submitted will be summarized and included in the request for approval. All comments will become a matter of public record.

**Overview of This Information Collection**

**Title:** Application to use Automated Commercial Environment.
OMB Number: 1651–0105.
Form Number: N/A.
Current Actions: Revision of an existing collection of information.
Type of Review: Revision.
Affected Public: Businesses.
Abstract: The Automated Commercial Environment (ACE) is a trade data processing system that is replacing the Automated Commercial System (ACS), the current import system for U.S. Customs and Border Protection (CBP) operations. ACE is authorized by Executive Order 13659 which mandates implementation of a Single Window through which businesses will transmit data required by participating agencies for the importation or exportation of cargo. See 79 FR 10655 (February 25, 2014). ACE supports government agencies and the trade community with border-related missions with respect to moving goods across the border efficiently and securely. Once ACE is fully implemented, all related CBP trade functions and the trade community will be supported from a single common user interface.

To establish an ACE Portal account, participants submit information such as their name, their employer identification number (EIN) or social security number (SSN), and if applicable, a statement certifying their capability to connect to the internet. This information is submitted through the ACE Secure Data Portal which is accessible at: http://www.cbp.gov/trade/automated.

Please Note: A CBP-assigned number may be provided in lieu of your SSN. If you have an EIN, that number will automatically be used and no CBP number will be assigned. A CBP-assigned number is for CBP use only. There is a standalone capability for electronically filing protests in ACE. This capability is available for participants who have not established ACE Portal Accounts for other trade activities, but desire to file protests electronically. A protest is a procedure whereby a private party may administratively challenge a CBP decision regarding imported merchandise and certain other CBP decisions. Trade members can establish a protest filer account in ACE through a separate application and the submission of specific data elements. See 81 FR 57928 (August 24, 2016).

Proposed Changes
1. New ACE Account Type
CBP is creating a new ACE Account type for ACE Import Trade Carriers and their designees. This new account type: Vessel Agency, enables users the ability to file vessel entrance, clearance, and related data to CBP electronically through the new Vessel Entrance and Clearance System (VECS).

The ACE Account Application will be changed to collect identifying information such as their name, their employer identification number (EIN), their company address, and their phone numbers, to be used to setup their Vessel Agency accounts. Users who create a Vessel Agency Account are automatically enrolled into the VECS public pilot.

2. Removing ACE Account Types
In a separate action, unrelated to the Vessel Agency account type creation, CBP will also be removing account types “Cartman”, “Claimant”, and “Lighterman” from the ACE Account Application. These account types were never used and are being removed due to that lack of use.
