makes an advance determination of tax credit eligibility for individuals who enroll in QHP coverage through the Exchange and seek financial assistance. Using information available at the time of enrollment, the Exchange determines whether the individual meets the income and other requirements for advance payments and the amount of the advance payments that can be used to pay premiums. Advance payments are made periodically under section 1412 of the PPACA to the issuer of the QHP in which the individual enrolls. Section 1402 of the PPACA provides for the reduction of cost sharing for certain individuals enrolled in a QHP through an Exchange, and section 1412 of the PPACA provides for the advance payment of these reductions to issuers. The statute directs issuers to reduce cost sharing for essential health benefits for individuals with household incomes between 100 and 400 percent of the Federal poverty level (FPL) who are enrolled in a silver level QHP through an individual market Exchange and are eligible for advance payments of the premium tax credit. Until January 2016, HHS collected data required to meet these statutory requirements via a manual system in which issuers submitted data. HHS now has an automated system that does not require issuer data submission for FFE issuers. The data collection has been used by HHS to make payments or collect charges from SBE issuers under the following programs: advance payments of the premium tax credit, advanced cost-sharing reductions, and Exchange user fees. The workbook template was used to make payments in January 2014 and will continue for issuers in states transitioning to a State-Based Exchange, as may be required based on HHS’s transitioning to a State-Based Exchange, and will continue for issuers in states used to make payments in January 2014 of the premium tax credit, advanced payments following programs: advance payments charges from SBE issuers under the HHS to make payments or collect issuer data submission for FFE issuers. An automated system that does not require submitted data. HHS now has an automated system that does not require issuer data submission for FFE issuers.

Administered for Children and Families

Proposed Information Collection Activity: Tribal Maternal, Infant, and Early Childhood Home Visiting Program Form 1: Demographic and Service Utilization Data (OMB #0970–0389)

AGENCY: Office of Child Care, Administration for Children and Families, HHS.

ACTION: Request for public comment.

SUMMARY: The Administration for Children and Families (ACF), Office of Child Care (OCC) is requesting a 3-year extension of the Tribal Maternal, Infant, and Early Childhood Home Visiting (MIECHV) Program’s Form 1: Demographic and Service Utilization Data (OMB #0970–0389; expiration 6/30/2022). There are minor updates to the existing Form 1.

DATES: Comments due within 60 days of publication. In compliance with the requirements of the Paperwork Reduction Act of 1995, ACF is soliciting public comment on the specific aspects of the information collection described above.

ADDRESSES: Copies of the proposed collection of information can be obtained and comments may be forwarded by emailing infocollection@acf.hhs.gov. Identify all requests by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: Section 511(h)(2)(A) of Title V of the Social Security Act created the MIECHV Program and authorizes the Secretary of HHS to award grants to Indian tribes (or a consortium of Indian tribes), tribal organizations, or urban Indian organizations to conduct an early childhood home visiting program. The legislation set aside 3 percent of the total MIECHV program appropriation for grants to tribal entities. Tribal MIECHV grants, to the greatest extent practicable, are to be consistent with the requirements of the MIECHV grants to states and jurisdictions and include conducting a needs assessment and establishing quantifiable, measurable benchmarks.

ACF’s OCC, in collaboration with the Health Resources and Services Administration, Maternal and Child Health Bureau, awards grants for the Tribal MIECHV Program. The Tribal MIECHV grant awards support 5-year cooperative agreements to conduct community needs assessments; plan for and implement high-quality, culturally relevant, evidence-based home visiting programs in at-risk tribal communities; and participate in research and evaluation activities to build the knowledge base on home visiting among Native populations.

In Year 1 of the cooperative agreement, grantees must (1) conduct a comprehensive community needs and readiness assessment, and (2) develop a plan to respond to identified needs. Following each year that Tribal MIECHV grantees implement home visiting services, they must submit Form 1: Demographic and Service Utilization Data. The Form 1 data are used to help ACF better understand the population receiving services from Tribal MIECHV grantees and the degree to which they are using services, as well as better understand the Tribal MIECHV workforce. Overall, this information collection will provide valuable information to HHS that will guide understanding of the Tribal MIECHV Program and the provision of technical assistance to Tribal MIECHV Program grantees. Changes from the previous form are minor, including adding a virtual home visit field and revising certain terms and definitions to make reporting on the areas more concise and easier for grantees to report.

Respondents: Tribal MIECHV Program Grantees.

**Proposed Information Collection Activity: Measuring Human Trafficking Prevalence in Construction: A Field Test of Multiple Estimation Methods (New Collection)**

**AGENCY:** Office of Planning, Research, and Evaluation, Administration for Children and Families, HHS.

**ACTION:** Request for public comment.

**SUMMARY:** The Administration for Children and Families (ACF) is proposing a new data collection activity for Measuring Human Trafficking Prevalence in Construction: A Field Test of Multiple Estimation Methods. This study will examine the labor trafficking and other labor exploitation experiences among individuals who work in construction. The goal of this study is to advance knowledge of promising methods for estimating human trafficking prevalence by field-testing two methods of prevalence estimation within the construction industry in Houston, Texas.

**DATES:** Comments due within 60 days of publication. In compliance with the requirements of the Paperwork Reduction Act of 1995, ACF is soliciting public comment on the specific aspects of the information collection described above.

**ANNUAL BURDEN ESTIMATES**

**Estimated Total Annual Burden Hours:** 2,100.

**Comments:** The Department specifically requests comments on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted within 60 days of this publication.

**Authority:** Title V of the Social Security Act, sections 511(e)(8)(A) and 511(h)(2)(A).

Mary B. Jones, ACF/OPRE Certifying Officer.
