Authority: 44 U.S.C. 3506(c)(2)(A).

SUPPLEMENTARY INFORMATION: DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

The continued collection of information contained on the forms ETA 9128 (Reemployment and Eligibility Assessment Workload) and ETA 9129 (Reemployment Services and Eligibility Assessment Outcomes) is necessary to enable the Office of Unemployment Insurance (OUI) to perform program oversight, target technical assistance to states, and assess the effectiveness of the RESEA program through workload and outcomes reports. As part of its implementation of the RESEA program, ETA provided states with flexibility to include follow-up RESEA sessions, referred to as "Subsequent RESEAs," as part of their service delivery models. Due to a combination of statutory and administrative changes to the RESEA program, the states' adoption of Subsequent RESEAs has become more common and now forms a significant portion of RESEA workloads in many states. To accurately reflect states' RESEA workloads and support federal oversight of the RESEA program, ETA is proposing modifications to the form ETA 9128 that will allow states to separately report the number of Subsequent RESEAs that were scheduled, completed, and instances where a claimant failed to report as directed.

44 U.S.C. 3506(c)(2)(A) authorizes this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1205-0456.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, (e.g., permitting electronic submission of responses).

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: 20-080]

Name of Information Collection: NASA STEM Gateway (Universal Registration and Data Management System)

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of information collection.

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections.

DATES: Comments are due by January 24, 2022.

ADDRESSES: All comments should be addressed to Claire Little, National Aeronautics and Space Administration, 300 E Street SW, Washington, DC 20546-0001 or call 202-358-2375.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Claire Little, NASA Clearance Officer, NASA Headquarters, 300 E Street SW, JF0000, Washington, DC 20546, 202-358-2375 or email claire.a.little@nasa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

Based on user feedback provided during the initial release of the NASA STEM Gateway (Universal Registration and Data Management System), NASA plans to develop updates/enhancements to improve information collected and the overall user experience in the NASA STEM Gateway. The NASA STEM Gateway (Universal Registration and Data Management System) is a comprehensive tool designed to allow learners (*i.e.*, students, educators, and

awardee principal investigators) to apply to NASA STEM engagement opportunities (e.g., internships, fellowships, challenges, educator professional development, experiential learning activities, etc.) in a single location. NASA personnel manage the selection of applicants and implementation of engagement opportunities within the NASA STEM Gateway. The information collected will be used by the NASA Office of STEM Engagement (OSTEM) and other NASA offices to review applications for participation in NASA STEM engagement opportunities. The information is reviewed by OSTEM project and activity managers, as well as NASA mentors who would be hosting students. This information collection will consist of student-level data such as demographic information submitted as part of the application. In addition to supporting student selection, student-level data will enable NASA OSTEM to fulfill federally mandated reporting on its STEM engagement activities and report relevant demographic information as needed for Agency performance goals and success criteria (annual performance indicators).

II. Methods of Collection

Online/Web-based.

III. Data

Title: NASA STEM Gateway (Universal Registration and Data Management System).

OMB Number:

Type of review: Renewal of a previously approved information collection.

Affected Public: Eligible students or educators, and/or awardee principal investigators may voluntarily apply for an internship or fellowship experience at a NASA facility, or register for a STEM engagement opportunity (e.g., challenges, educator professional development, experiential learning activities, etc.). Parents/caregivers of eligible student applicants (at least 16 years of age but under the age of 18) may voluntarily provide consent for their eligible student applicants to apply.

Estimated Annual Number of Activities: 40.

Estimated Number of Respondents per Activity: 4,125.

Annual Responses: 165,000.

Estimated Time per Response: 30 minutes.

Estimated Total Annual Burden Hours: 82,500.

Estimated Total Annual Cost: \$1,015,207.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

Lori Parker,

NASA PRA Clearance Officer.
