Title of Collection: Evaluation of the Implementation of the Statewide Family Engagement Centers.

OMB Control Number: 1850-NEW.

Type of Review: A new information collection.

Respondents/Affected Public: Private Sector; State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 65.

Total Estimated Number of Annual Burden Hours: 66.

Abstract: Despite the important role family engagement may play in children's educational progress, families below the poverty line are significantly less likely than those at or above the poverty line to be involved in their child's schooling. The Statewide Family Engagement Centers (SFEC) is one of the key U.S. Department of Education programs designed to close this gap. Funded for the first time in 2018, SFEC builds on an earlier program and provides grants to partnerships of education organizations and their states. The partners are expected to both deliver services directly to families to increase their engagement and to provide technical assistance and training to state, district, and school staff to help them help families. This study will describe the work of the first 12 grantees, focusing on the extent to which certain program priorities are being implemented. The results are intended to help federal policy makers refine the goals and objectives of the SFEC program, as well as inform the work of education organizations and state and local education agencies beyond the current grantees to improve their work with families.

Dated: November 22, 2021.

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.
