BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

Bureau of Industry and Security

[Docket No. 211123-0244]

XRIN 0694-XC088

Request for Public Comments Regarding Areas and Priorities for U.S. and EU Export Control Cooperation Under the Trade and Technology Council

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Notice of inquiry, request for comments.

SUMMARY: The Bureau of Industry and Security (BIS) requests public comments regarding areas and priorities for U.S. and EU export control cooperation to help inform the work of the U.S.-EU Trade and Technology Council (TTC) Export Control Working Group. Comments should address ways in which existing U.S. and/or European Union dual-use export control policies and practices may be more transparent, more efficient and effective, more convergent, and fit for today's challenges, in particular with regards to the control of emerging technologies.

DATES: Comments must be received by BIS no later than January 14, 2022.

ADDRESSES: Comments may be submitted to the Federal rulemaking portal (www.regulations.gov). The regulations.gov ID for this rule is BIS-2021-0044. All relevant comments (including any personally identifying information) will be made available for public inspection and copying. All filers using the portal should use the name of the person or entity submitting the comments as the name of their files.

FOR FURTHER INFORMATION CONTACT: Eileen Albanese, Director, Office of National Security and Technology Transfer Controls, Bureau of Industry and Security, Department of Commerce, by phone at (202) 482-0092, or by email at eileen.albanese@bis.doc.gov.

SUPPLEMENTARY INFORMATION:

Background

On June 15, 2021, President Biden and European Commission President Ursula von der Leyen launched the U.S.-EU Trade and Technology Council at the U.S.-EU Summit in Brussels.

Together, the United States and the European Union account for a quarter of global trade and almost half of global GDP, with U.S.-EU two-way trade in goods and services amounting to \$1.1 trillion in 2019. In view of this, the Trade and Technology Council (TTC) serves as a forum for the United States and the European Union to coordinate approaches to key global trade, economic, and technology issues, and to deepen transatlantic trade and economic relations based on shared democratic values.

The main goals of the TTC are to expand and deepen bilateral trade and investment; avoid new technical barriers to trade; cooperate on key policies on technology, digital issues and supply chains; support collaborative research; cooperate on the development of compatible and international standards; cooperate on regulatory policy and enforcement; and promote innovation and leadership by U.S. and EU firms.

The TTC's ten working groups provide a framework for tackling challenges and advancing work aligned with some of our shared trade and technology priorities, such as cooperation on technology standards, global trade challenges and supply chain security, climate and clean technology, Information and Communications Technology (ICT) security and competitiveness, data governance and technology platforms, the misuse of technology threatening security and human rights, export controls, investment screening, and access to, and use of, digital technologies by small and medium enterprises.

On September 29, 2021, the U.S.-EU TTC met for the first time. The United States and the European Union reaffirmed the TTC's objectives to: Coordinate approaches to key global technology, economic, and trade issues; and deepen transatlantic trade and economic relations, basing policies on shared democratic values.

Under the TTC's Export Control Working Group, the United States and the European Union are seeking to enhance their cooperation in the following areas:

Technical consultations on current and upcoming legislative and regulatory developments to promote the global convergence of controls and ensure legal

security for U.S. and EU companies, including regular adjustments to control lists and specific license exceptions/General Export Authorizations, development of guidelines, as well as review of relevant regulatory developments in third countries (i.e., not the United States or a member state of the European Union);

Technical consultations and development of convergent control approaches on sensitive dual-use technologies, as appropriate;

Information exchange on risks associated with: (1) The export of sensitive technologies to destinations and entities of concern, exchange of best practices on the implementation and licensing for listed or non-listed sensitive items; and (2) technology transfers and dual-use research of concern and exchange of best practices to support the effective application of controls while facilitating research collaboration between U.S. and EU research organizations;

Technical consultations on compliance and enforcement approaches (i.e., legal and regulatory basis, institutional and administrative arrangements) and actions;

Capacity building assistance to third countries to develop appropriate capabilities to implement guidelines and lists of multilateral export control regimes, appropriate export control policies and practices, as well as relevant enforcement measures; and

Technical consultations regarding multilateral and international cooperation, including prior to the introduction of controls outside the multilateral regimes, as appropriate.

Comments on ways in which existing U.S. and/or European Union dual-use export control policies and practices may be more transparent, more efficient and effective, more convergent, and fit for today's challenges, in particular with regards to the control of emerging technologies from all interested persons are welcome and will assist BIS in developing ideas and proposals, as well as facilitate a productive dialogue with the European Union. Comments providing specific and concrete examples where further convergence in U.S. and EU export control practices and policies could enhance international security and the protection of human rights, and support a global level-playing field and joint technology development and innovation, would be particularly helpful.

Additionally, the U.S. and European Union held a joint virtual outreach for stakeholders on October 27, 2021 and received an initial round of comments from participants representing the U.S.

and EU private and nongovernment sectors. In summary, speakers at the virtual outreach event provided input including, but not limited to, the view that export controls should be implemented on a multilateral basis; that extraterritorial application of U.S. export controls creates regulatory burdens on European stakeholders and discourages European entities from collaborating with U.S. counterparts, creating incentives to avoid U.S. technology or, in some cases, hire U.S. persons; and that there is a need to address the challenges associated with the fast pace of innovation and quickly evolving emerging technologies by developing a holistic approach that will protect and promote these technologies. A further description of the topics covered in the stakeholder event will be posted on BIS's website.

Matthew S. Borman,
Deputy Assistant Secretary for Export Administration.

Diamond Sawblades and Parts Thereof From the People's Republic of China: Final Results of Antidumping Duty Administrative Review and Final Determination of No Shipments; 2019-2020

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) determines that diamond sawblades and parts thereof (diamond sawblades) from the People's Republic of China (China) were sold at less than normal value by certain exporters during the period of review (POR) November 1, 2019, through October 31, 2020.

DATES: Applicable November 30, 2021.

FOR FURTHER INFORMATION CONTACT: Allison Hollander, AD/CVD Operations, Office I, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-2805.

SUPPLEMENTARY INFORMATION:

Background

On August 2, 2021, Commerce published in the **Federal Register** the preliminary results of the 2019-2020 administrative review of the

antidumping duty order on diamond sawblades from China.¹ We invited interested parties to comment on the *Preliminary Results* and we received a case brief on behalf of Husqvarna (Hebei) Co., Ltd. (Husqvarna)² and comments submitted by the Diamond Sawblades Manufacturers' Coalition (DSMC).³ On September 1, 2021, Husqvarna requested that Commerce conduct a hearing and subsequently, on September 24, 2021, withdrew its request for a hearing.⁴ The administrative review covers 53 companies, inclusive of the two mandatory respondents, Jiangsu Fengtai Single Entity (Jiangsu Fengtai) and Zhejiang Wanli Tools Group Co., Ltd. (Zhejiang Wanli).⁵ For a complete description of the events that occurred since the *Preliminary Results*, see the Issues and Decision Memorandum.⁶

Scope of the Order

The products covered by this order⁷ are diamond sawblades. A full description of the scope of the *Order* is contained in the Issues and Decision Memorandum.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs filed by interested parties in this review are addressed in the Issues and Decision Memorandum. A list of the issues that parties raised and to which we responded in the Issues and Decision Memorandum follows as an appendix to this notice. The Issues

¹ See *Diamond Sawblades and Parts Thereof from the People's Republic of China: Preliminary Results of Antidumping Duty Administrative Review and Preliminary Determination of No Shipments; 2019-2020*, 86 FR 41446 (August 2, 2021) (*Preliminary Results*), and accompanying Preliminary Decision Memorandum.

² See Husqvarna's Letter, "Diamond Sawblades and Parts Thereof from China: Case Brief," dated September 1, 2021.

³ See DSMC's Letter, "Diamond Sawblades and Parts Thereof from the People's Republic of China: Letter in Lieu of Case Brief," dated September 1, 2021 (DSMC Letter).

⁴ See Husqvarna's Letters, "Diamond Sawblades and Parts Thereof from China: Request for Hearing," dated September 1, 2021; and "Diamond Sawblades and Parts Thereof from China: Withdrawal of Hearing Request," dated September 24, 2021.

⁵ See Memorandum, "Antidumping Duty Administrative Review of Diamond Sawblades and Parts Thereof from the People's Republic of China Administrative Review 2019-2020: Respondent Selection," dated March 2, 2021.

⁶ See Memorandum, "Diamond Sawblades and Parts Thereof from the People's Republic of China: Decision Memorandum for the Final Results of the Antidumping Duty Administrative Review and Final Determination of No Shipments; 2019-2020," dated concurrently with, and hereby adopted by, this notice (Issues and Decision Memorandum).

⁷ See *Diamond Sawblades and Parts Thereof from the People's Republic of China and the Republic of Korea: Antidumping Duty Orders*, 74 FR 57145 (November 4, 2009) (*Order*).

and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

Final Determination of No Shipments

In the *Preliminary Results*, we preliminarily determined that five companies, Bosun Tools Co., Ltd., Chengdu Huifeng New Material Technology Co., Ltd., Danyang Weiwang Tools Manufacturing Co., Ltd., Weihai Xiangguang Mechanical Industrial Co., Ltd., and Wuhan Wanbang Laser Diamond Tools Co., Ltd., which have been eligible for separate rates in previous segments of the proceeding and are subject to this review, did not have any shipments of subject merchandise during the POR.⁸ No party commented on the *Preliminary Results* regarding our no-shipments determination with respect to these five companies. Therefore, for the final results of review, we continue to find that these companies did not have any shipments of subject merchandise during the POR and will issue appropriate instructions to CBP based on these final results.

In the *Preliminary Results*, based on information on the record, we preliminarily found that Husqvarna had entries of subject merchandise during the POR. Further, because it did not file a separate rate application or separate rate certification (SRC), we preliminarily considered Husqvarna to be part of the China-wide entity. Based on additional information placed on the record since the *Preliminary Results*, we find that Husqvarna did not have any shipments of subject merchandise during the POR⁹ and therefore, we will issue appropriate instructions to CBP based on the final results of review.

Changes Since the Preliminary Results

Based on a review of the record and comments received from Husqvarna and DSMC regarding our *Preliminary Results*, and for the reasons explained in the Issues and Decision Memorandum, for the final results of review, we made a change to the margin assigned to Xiamen ZL Diamond Technology Co.,

⁸ See the "Separate Rates" section of the Preliminary Decision Memorandum.

⁹ See Issues and Decision Memorandum at Comment 1.
