DEPARTMENT OF VETERANS AFFAIRS

Privacy Act of 1974; System of Records

AGENCY: Veterans Health Administration (VHA), Department of Veterans Affairs (VA).

ACTION: Notice of a new system of records.

SUMMARY: Pursuant to the Privacy Act of 1974, notice is hereby given that the Department of Veterans Affairs (VA) proposes to establish a new system of records entitled, “Federal Case Management Tool” (FCMT). FCMT is a web-based application that supports VA and the Department of Defense (DoD) with the effective management and tracking of Veteran and Service member beneficiaries at all levels of the continuum of care.

DATES: Comments on this new system of records must be received no later than 30 days after date of publication in the **Federal Register**. If no public comment is received during the period allowed for comment or unless otherwise published in the **Federal Register** by VA, the new system of records will become effective a minimum of 30 days after date of publication in the **Federal Register**. If VA receives public comments, VA shall review the comments to determine whether any changes to the notice are necessary.

ADDRESSES: Comments may be submitted through www.Regulations.gov

or mailed to VA Privacy Service, 810 Vermont Avenue NW, (005R1A), Washington, DC 20420. Comments should indicate that they are submitted in response to “Federal Case Management Tool (FCMT)—VA” (202VA005Q). Comments received will be available at regulations.gov for public viewing, inspection, or copies.

FOR FURTHER INFORMATION CONTACT:

Freda Perry, Project Manager, Federal Case Management Tool (FCMT), Office of Information & Technology, Department of Veterans Affairs, 810 Vermont Avenue NW, (005QF3), Washington, DC 20420, (202) 802–7882, and Freda.Perry@va.gov; Paul Zeien, Director, Education Veterans Readiness and Employment Product Line—EVREPL (FCMT), Office of Information & Technology, Department of Veterans Affairs, 5000 S 5th Avenue, Hines, IL 60141, (708) 483–5432 and Paul.Zeien@va.gov.

SUPPLEMENTARY INFORMATION: The Department is establishing a new system of records entitled “Federal Case Management Tool (FCMT),” as it was previously connected to the Veterans Tracking Application (VTA)/Federal Case Management Tool (FCMT) (160VA005Q3) system of records, originally published in the **Federal Register** on April 19, 2012, and amended on April 15, 2014. Due to the separation of Federal Case Management Tool (FCMT) from Veterans Tracking Application (VTA), the VTA/FCMT system of records was again amended on March 8, 2020, and republished as Veterans Tracking Application (163CA005Q3), a standalone application that now falls under the product line “Eligibility and Enrollment (E&E)” at VHA. Accordingly, FCMT is being established as a new system of records encompassing a standalone application that now falls under “Education Veterans Readiness and Employment Product Line (EVREPL)”.

POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

Records are transmitted between approved VA and DoD office/systems and FCMT over secure telecommunications (*i.e.*, SFTP, secure web services) using approved

encryption technologies. Records (or information contained in records) are maintained in electronic format in the FCMT database. Information from FCMT is disseminated in three ways: (1) Approved VA and DoD systems electronically request and receive data from FCMT over the internal VA and DoD network; (2) data is provided over the secure telecommunications between FCMT and approved VA and DoD office/systems for reconciliation of records; (3) periodic electronic data extracts of subsets of information contained in FCMT are provided to approved VA and DoD offices/systems over the internal VA network and DoD network. FCMT is currently on the Microsoft Government Community Cloud and all backups are located there as well.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Records are retrieved using name, claim file number, social security number, date of birth, and other unique identifiers belonging to the individual to whom the information pertains.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

Records are electronically imaged and established by VA as the official record, its paper contents (with the exception of documents that are on hold due to pending litigation, and service treatment records and other documents that are the property of DoD), are reclassified as *duplicate—non record keeping—copies* of the official record, and will be destroyed in accordance with Records Control Schedule VB–1, Part 1 Section XIII, Item 13–052.100 as authorized by NARA. All paper documentation that is not the property of VA (*e.g.*, DoD-owned documentation) is currently stored by VA after scanning, pending a policy determination as to its final disposition. All documentation being held pursuant to active litigation is held in its native format during the pendency of the litigation. All FCMT records are stored on a secure VA server, pending permanent transfer to NARA where they will be maintained as historical records. Once an electronic record has been transferred into NARA custody, the record will be fully purged and deleted from the VA system in accordance with governing records control schedules using commercial off the shelf (COTS) software designed for the purpose. Once purged, the record will be unavailable on the VA system, and will only be accessible through NARA.

Prior to destruction of any paper source documentation reclassified as *duplicate copies*, VA engages in a

comprehensive and multi-layered quality control and validation program to ensure material that has been electronically imaged is completely and accurately uploaded into the VBMS eFolder. To guarantee the integrity and completeness of the record, VA engages in industry-best practices, using state-of-the-art equipment, random sampling, independent audit, and 100% VA review throughout the claims adjudication process. Historically, VA's success rate in ensuring the accuracy and completeness of the electronic record routinely and consistently exceeds 99%. Furthermore, no paper document is ever destroyed while any related claim or appeal for VA benefits is still pending. VA waits 3 years after the final adjudication of any claim or appeal before destroying the paper duplicate copies that have been scanned into the FCMT. As noted, the electronic image of the paper document is retained indefinitely as a permanent record either by VA or NARA.

Decisions to destroy VR&E paper counseling records are to be made in accordance with Records Control Schedule (RCS), RCS VB–1, Part I, Field in Section VII, dated January 31, 2014. Automated storage media containing temporary working information are retained until a claim is decided, and then destroyed. All other automated storage media are retained and disposed of in accordance with disposition authorization approved by NARA. Education file folders in paper are retained at the servicing Regional Processing Office. Education paper folders may be destroyed in accordance with the times set forth in the VBA Records Management, Records Control Schedule VB–1, Part 1, Section VII, as authorized by NARA.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

1. Physical Security: The primary FCMT system is in the Microsoft Government Community Cloud (GCC), and the backup disaster recovery system is located on the Government Community Cloud as well. Access to data processing centers is generally restricted to center employees, custodial personnel, Federal Protective Service, and other security personnel. Access to computer rooms is restricted to authorized operational personnel through electronic passage technology. All other persons needing access to computer rooms are escorted.

2. System Security: Access to the VA network is protected by the usage of "PIV". Once on the VA network, separate ID and password credentials are required to gain access to the FCMT

server and/or database. Access to the server and/or database is granted to only a limited number of system administrators and database administrators. In addition, FCMT has undergone certification and accreditation. Users of FCMT access the system via AccessVA. Users must also register through FCMT and obtain a FCMT Account. Within the VTA system, users are designated a role which determines their access to specific data. Based on a risk assessment that followed National Institute of Standards and Technology Vulnerability and Threat Guidelines, the system is considered stable and operational. FCMT is in a minor application under the BAM CRM Authority to Operate (ATO). The system is in the process of requesting a stand-alone Authority to Operate (ATO) as a major application.

RECORD ACCESS PROCEDURES:

Individuals seeking information on the existence and content of records in this system pertaining to them should contact the system manager in writing as indicated above. A request for access to records must contain the requester's full name, address, telephone number, be signed by the requester, and describe the records sought in sufficient detail to enable VA personnel to locate them with a reasonable amount of effort.

CONTESTING RECORD PROCEDURES:

Individuals seeking to contest or amend records in this system pertaining to them should contact the system manager in writing as indicated above. A request to contest or amend records must state clearly and concisely what record is being contested, the reasons for contesting it, and the proposed amendment to the record.

NOTIFICATION PROCEDURES:

Generalized notice is provided by the publication of this notice. For specific notice, see Record Access Procedure, above.

EXEMPTIONS PROMULGATED FOR THE SYSTEM:

None.

HISTORY:

None, this is a new SORN.
