II. Discussion

On September 24, 2018, UNC submitted a license amendment application (ADAMS Package Accession No. ML18267A235) to amend its Source Material License No. SUA–1475 for the former UNC Church Rock Mill Site in accordance with part 40 of title 10 of the Code of Federal Regulations (10 CFR), “Domestic Licensing of Source Material.” UNC is requesting that the NRC grant a license amendment that would allow disposal of Northeast Church Rock (NECR) mine waste on top of the tailings impoundment at the UNC Church Rock Mill Site (UNC Mill Site) in McKinley County, New Mexico. The NECR Mine Site is located on Navajo Nation trust land and the adjacent UNC Mill Site is located on private land owned by UNC.

Pursuant to 36 CFR 800.8, the NRC is using its National Environmental Policy Act process for developing the Environmental Impact Statement (EIS) to facilitate consultation pursuant to Section 106 of the National Historic Preservation Act (NHPA).

On November 13, 2020, the NRC requested comment (85 FR 72706) on its draft EIS that includes the preliminary analysis that evaluates the environmental impacts from the proposed action and alternatives to the proposed action. After comparing the impacts of the proposed action to the...
The draft PA addresses the potential direct and indirect adverse effects from the movement of waste from the NECR Mine to the UNC Mill Site and ensures that appropriate mitigation measures are implemented. The final EIS will reflect the PA once finalized and therefore conclude NHPA Section 106 consultation.

III. Request for Public Comment

The NRC is requesting public comment on the draft PA. The NRC will consider these comments before finalizing the PA, which will be published as an appendix in the final EIS. The draft PA is available in ADAMS under Accession No. ML21302A22I.

Dated: December 1, 2021.

SUPPLEMENTARY INFORMATION:

I. Introduction

On October 13, 2021, the NRC granted one exemption in response to a request submitted by one licensee dated September 17, 2021. The exemption temporarily allows the licensee to deviate from certain requirements of chapter I of title 10 of the Code of Federal Regulations (10 CFR), part 26, “Fitness for Duty Programs,” section 26.205, “Work hours.” The exemption from certain requirements of 10 CFR part 26 for Exelon Generation Company, LLC (for Peach Bottom Atomic Power Station, Units 2 and 3), affords this licensee temporary relief from the work-hour control requirements under 10 CFR 26.205(d)(1) through (d)(7). The exemption from 10 CFR 26.205(d)(1) through (d)(7) ensures that the control of work hours and management of worker fatigue does not unduly limit licensee flexibility in using personnel resources to most effectively manage the impacts of the COVID–19 PHE on maintaining the safe operation of this facility. Specifically, this licensee has stated that its staffing levels are affected or are expected to be affected by the COVID–19 PHE, and it can no longer meet or likely will not meet the work-hour controls of 10 CFR 26.205(d)(1) through (d)(7). This licensee has committed to effecting site-specific administrative controls for COVID–19 PHE fatigue-management for personnel specified in 10 CFR 26.4(a).
