

Written/Paper Submissions: Submit written/paper submissions in the following way:

- *Mail/Hand Delivery:* Mail or visit DOL–MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, Suite 4E401, Arlington, VA 22202–5452. Before visiting MSHA in person, call 202–693–9455 to make an appointment, in keeping with the Department of Labor’s COVID–19 policy. Special health precautions may be required.

- MSHA will post your comment as well as any attachments, except for information submitted and marked as confidential, in the docket at <https://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: S. Aromie Noe, Acting Director, Office of Standards, Regulations, and Variances, MSHA, at MSHA.information.collections@dol.gov (email); (202) 693–9440 (voice); or (202) 693–9441 (facsimile).

SUPPLEMENTARY INFORMATION:

I. Background

Section 103(h) of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. 813(h), authorizes MSHA to collect information necessary to carry out its duty in protecting the safety and health of miners. Further, section 101(a) of the Mine Act, 30 U.S.C. 811(a), authorizes the Secretary of Labor to develop, promulgate, and revise as may be appropriate, improved mandatory health or safety standards for the protection of life and prevention of injuries in coal and metal and nonmetal mines.

The escape and evacuation plan required by 30 CFR 77.1101 is prepared by the mine operator and is used by mines, MSHA, and persons involved in rescue and recovery operations. The plan is used to instruct employees in the proper methods to evacuate structures in the event of a fire. MSHA inspection personnel use the plan to determine compliance with the standard requiring a means of escape and evacuation be established and the requirement that employees be instructed in the procedures to follow should a fire occur.

II. Desired Focus of Comments

MSHA is soliciting comments concerning the proposed information collection related to Escape and Evacuation Plans for Surface Coal Mines, Surface Facilities and Surface Work Areas of Underground Coal Mines. MSHA is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper

performance of the functions of the Agency, including whether the information has practical utility;

- Evaluate the accuracy of MSHA’s estimate of the burden related to the information collection, including the validity of the methodology and assumptions used in the estimate;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the information collection on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Background documents related to this information collection request are available at <https://regulations.gov> and at DOL–MSHA located at 201 12th Street South, Suite 4E401, Arlington, VA 22202–5452. Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION CONTACT:** section of this notice.

III. Current Actions

This information collection request concerns provisions for escape and evacuation plans for surface coal mines, surface facilities and surface work areas of underground coal mines. MSHA has updated the data with respect to the number of respondents, responses, burden hours, and burden costs supporting this information collection request from the previous information collection request.

Type of Review: Extension, without change, of a currently approved collection.

Agency: Mine Safety and Health Administration.

OMB Number: 1219–0051.

Affected Public: Business or other for-profit.

Number of Respondents: 35.

Frequency: On occasion.

Number of Responses: 35.

Annual Burden Hours: 150 hours.

Annual Respondent or Recordkeeper Cost: \$0.

Comments submitted in response to this notice will be summarized in the request for Office of Management and Budget approval of the proposed information collection request; they will become a matter of public record and will be available at <https://www.reginfo.gov>.

DEPARTMENT OF LABOR

Mine Safety and Health Administration

[OMB Control No. 1219–0135]

Proposed Extension of Information Collection; Health Standards for Diesel Particulate Matter Exposure (Underground Metal and Nonmetal Mines)

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Request for public comments.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance request for comment to provide the general public and Federal agencies with an opportunity to comment on proposed collections of information in accordance with the Paperwork Reduction Act of 1995. This request helps to ensure that: Requested data can be provided in the desired format; reporting burden (time and financial resources) is minimized; collection instruments are clearly understood; and the impact of collection requirements on respondents can be properly assessed. Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments on the information collection for Health Standards for Diesel Particulate Matter Exposure (Underground Metal and Nonmetal Mines).

DATES: All comments must be received on or before February 8, 2022.

ADDRESSES: You may submit comment as follows. Please note that late, untimely filed comments will not be considered.

Electronic Submissions: Submit electronic comments in the following way:

- *Federal eRulemaking Portal:* <https://www.regulations.gov>. Follow the instructions for submitting comments for MSHA–2021–0038. Comments submitted electronically, including attachments, to <https://www.regulations.gov> will be posted to the docket, with no changes. Because your comment will be made public, you are responsible for ensuring that your comment does not include any confidential information that you or a third party may not wish to be posted, such as your or anyone else’s Social Security number or confidential business information.

- If your comment includes confidential information that you do not wish to be made available to the public, submit the comment as a written/paper submission.

Written/Paper Submissions: Submit written/paper submissions in the following way:

- *Mail/Hand Delivery:* Mail or visit DOL–MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, Suite 4E401, Arlington, VA 22202–5452. Before visiting MSHA in person, call 202–693–9455 to make an appointment in keeping with the Department of Labor’s COVID–19 policy. Special health precautions may be required.

- MSHA will post your comment as well as any attachments, except for information submitted and marked as confidential, in the docket at <https://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: S. Aromie Noe, Acting Director, Office of Standards, Regulations, and Variances, MSHA, at MSHA.information.collections@dol.gov (email); (202) 693–9440 (voice); or (202) 693–9441 (facsimile).

SUPPLEMENTARY INFORMATION:

I. Background

Section 103(h) of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. 813(h), authorizes MSHA to collect information necessary to carry out its duty in protecting the safety and health of miners. Further, section 101(a) of the Mine Act, 30 U.S.C. 811(a), authorizes the Secretary of Labor to develop, promulgate, and revise as may be appropriate, improved mandatory health or safety standards for the protection of life and prevention of injuries in coal and metal and nonmetal mines.

Diesel particulate matter (DPM) is a carcinogen that consists of tiny particles present in diesel-engine exhaust that can readily penetrate into the deepest recesses of the lungs. Despite ventilation, the confined underground mine work environment may contribute to significant concentrations of particles produced by equipment used in the mine. Underground miners are exposed to higher concentrations of DPM than any other occupational group. As a result, they face a significantly greater risk than other workers of developing such diseases as lung cancer, heart failure, serious allergic responses, and other cardiopulmonary problems.

The DPM regulation established a permissible exposure limit to total carbon, which is a surrogate for measuring a miner’s exposure to DPM. These regulations include a number of other requirements for the protection of miners’ health. The DPM regulations contain information collection requirements for underground metal

nonmetal mine operators under sections 57.5060, 57.5065, 57.5066, 57.5070, 57.5071, and 57.5075(a) and (b)(3).

II. Desired Focus of Comments

MSHA is soliciting comments concerning the proposed information collection related to Health Standards for Diesel Particulate Matter Exposure (Underground Metal and Nonmetal Mines). MSHA is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information has practical utility;
- Evaluate the accuracy of MSHA’s estimate of the burden related to the information collection, including the validity of the methodology and assumptions used in the estimate;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the information collection on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Background documents related to this information collection request are available at <https://regulations.gov> and at DOL–MSHA located at 201 12th Street South, Suite 4E401, Arlington, VA 22202–5452. Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION** section of this notice.

III. Current Actions

This information collection request concerns provisions for health standards for diesel particulate matter exposure in underground metal and nonmetal mines. MSHA has updated the data with respect to the number of respondents, responses, burden hours, and burden costs supporting this information collection request from the previous information collection request.

Type of Review: Extension, without change, of a currently approved collection.

Agency: Mine Safety and Health Administration.

OMB Number: 1219–0135.

Affected Public: Business or other for-profit.

Number of Respondents: 194.

Frequency: On occasion.

Number of Responses: 54,696.

Annual Burden Hours: 11,218 hours.

Annual Respondent or Recordkeeper

Cost: \$421,942.

Comments submitted in response to this notice will be summarized in the request for Office of Management and Budget approval of the proposed information collection request; they will become a matter of public record and will be available at <https://www.reginfo.gov>.

LEGAL SERVICES CORPORATION

Federal Register Notice of Request for Comments; Re: 2021 LSC Agricultural Worker Poverty Population Estimates

AGENCY: Legal Services Corporation.
ACTION: Request for comments.

SUMMARY: The Legal Services Corporation (LSC) provides special population grants to effectively and efficiently fund civil legal aid services to address the legal needs of agricultural workers and their dependents through grants entitled “Basic Field—Agricultural Workers.” The funding for these grants is based on data regarding the eligible client population to be served. LSC obtained from the U.S. Department of Labor data about this population that updates the data the Department of Labor provided in 2016. LSC seeks comments on the updated data, which LSC will begin using for grant allocations on January 1, 2022.

DATES: Comments must be submitted by January 10, 2022.

ADDRESSES: Written comments must be submitted to agworkerpopulation@lsc.gov with attachments in Acrobat PDF format. If you cannot submit your comments by email, please contact LSC regarding alternatives for submission by calling Mark Freedman, Senior Associate General Counsel, Legal Services Corporation, 202–295–1623. Written comments sent to any other address or received after the end of the comment period may not be considered by LSC.

FOR FURTHER INFORMATION CONTACT: Mark Freedman, Senior Assistant General Counsel, Legal Services Corporation, 3333 K St. NW, Washington, DC 20007; 202–295–1623 (phone); 202–337–6519 (fax); mfreedman@lsc.gov.

SUPPLEMENTARY INFORMATION: The Legal Services Corporation (“LSC” or “Corporation”) was established through the LSC Act “for the purpose of providing financial support for legal assistance in noncriminal matters or
