DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration  
[Docket No. FMCSA–2021–0182]

Qualification of Drivers; Exemption Applications; Narcolepsy

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), Department of Transportation (DOT).

ACTION: Notice of application for exemption; request for comments.

SUMMARY: FMCSA announces receipt of an application from one individual for an exemption from the prohibition in the Federal Motor Carrier Safety Regulations (FMCSRs) against operation of a commercial motor vehicle (CMV) in interstate commerce by persons with either a clinical diagnosis of epilepsy or any other condition that is likely to cause a loss of consciousness or any loss of ability to control a CMV. If granted, the exemption would enable this individual who has been diagnosed with narcolepsy and is receiving medical treatment to operate CMVs in interstate commerce.

DATES: Comments must be received on or before January 18, 2022.

ADDRESSES: You may submit comments identified by the Federal Docket Management System (FDMS) Docket ID FMCSA–2021–0182 using any of the following methods:

• Federal eRulemaking Portal: Go to www.regulations.gov/, insert the docket number, FMCSA–2021–0182, in the keyword box, and click “Search.” Next, sort the results by “Posted (Newer-Older),” choose the first notice listed, and click on the “Comment” button. Follow the online instructions for submitting comments.

The advisory criteria states that if an individual has had a sudden episode of a non-epileptic seizure or loss of consciousness of unknown cause that did not require anti-seizure medication, the decision whether that person’s condition is likely to cause the loss of consciousness or loss of ability to control a CMV should be made on an individual basis by the ME in consultation with the treating physician. The advisory criteria also state that a variety of functional disorders can cause drowsiness, dizziness, confusion, weakness, or paralysis that may lead to incoordination, inattention, loss of functional control, and susceptibility to accidents while driving.

In those individual cases where a driver had a seizure or an episode of loss of consciousness that resulted from a known medical condition (e.g., drug reaction, high temperature, acute infectious disease, dehydration, or acute metabolic disturbance), certification should be deferred until the driver has fully recovered from that condition, has no existing residual complications, and is not taking anti-seizure medication.

III. Qualifications of Applicant
Sheila Bennett

Ms. Bennett is a CMV driver in Tennessee. Ms. Bennett self-reports that she was diagnosed with narcolepsy in early 2005, and started a treatment plan immediately. A letter dated October 12, 2021, from Ms. Bennett’s sleep medicine provider reports that she is under care for treatment of narcolepsy with stimulants, and that she reports her daytime sleepiness is well-controlled on current medication.

IV. Request for Comments

In accordance with 49 U.S.C. 31136(e) and 31315, FMCSA requests public comment from all interested persons on the exemption petition described in this notice. We will consider all comments received before the close of business on the closing date indicated in the DATES section of the notice.

Larry W. Minor,
Associate Administrator for Policy.
