SUMMARY: On November 15, 2021, the U.S. Environmental Protection Agency (EPA) published a proposed rule which included new source performance standards (NSPS) and emissions guidelines (EG) for the Crude Oil and Natural Gas source category under the CAA to respond to the President's January 20, 2021, Executive order (E.O.) titled "Protecting Public Health and the Environment and Restoring Science to Tackle the Climate Crisis." In this proposal, the EPA also requested comments on regulating other types of potential emissions sources and numerous topics associated with the proposed NSPS and EG. SUPPLEMENTARY INFORMATION: On November 15, 2021,¹ the U.S. Environmental Protection Agency (EPA) published a proposed rule that included distinct groups of actions. First, the EPA proposed to revise the new source performance standards (NSPS) for GHGs and volatile organic compounds (VOCs) for the Crude Oil and Natural Gas source category under the Clean Air Act (CAA) to reflect the Agency's most recent review of the feasibility and cost of reducing emissions from these sources. Second, the EPA proposed emissions guidelines (EG) under the CAA, for states to follow in developing, submitting, and implementing state plans to establish performance standards to limit GHGs from existing sources (designated facilities) in the Crude Oil and Natural Gas source category. Third, the proposal included several related actions stemming from the joint resolution of Congress, adopted on June 30, 2021 under the Congressional Review Act (CRA), disapproving the EPA's final rule titled, "Oil and Natural Gas Sector: Emission Standards for New, Reconstructed, and Modified Sources Review." 85 FR 57018 (September 14, 2020). Finally, in the proposal, the EPA requested comments

on potentially regulating other types of emission sources and numerous topics associated with the proposed NSPS and EG. Since publication of the proposal, which specifies that the comment period closes on January 14, 2022 the EPA has received numerous requests from industry and states to extend the comment period due to the lengthy and complex nature of the action. After considering these requests to extend the public comment period, the EPA has decided to extend the public comment period until January 31, 2022. This extension will provide additional time requested by the public to review the proposal and gather and provide information to the Agency.

Director, Sector Policy and Programs Division.

SUPPLEMENTARY INFORMATION:

I. Background

The Secure Federal Leases from Espionage And Suspicious Entanglements Act, or the Secure Federal LEASEs Act, Public Law 116-276, 134 Stat. 3362 (2020) (the "Act"), provides for the disclosure of ownership information to Federal lessees leasing high-security space that would allow the lessee to mitigate potential national security risks. The Act was signed into law on December 31, 2020 (available at <https://www.congress.gov/116/plaws/publ276/PLAW-116publ276.pdf>). The Act imposes disclosure requirements regarding the foreign ownership, particularly "immediate owner", "highest level owner" and "beneficial ownership," of prospective lessors of "high-security leased space" (*i.e.*, property leased to the Federal government having a security level of III or higher). GSA implemented Section 3 and Section 5 of the Act through the interim rule General Services Administration Acquisition Regulation (GSAR) Case 2021-G527 (86 FR 34966) (available at <https://www.federalregister.gov/documents/2021/07/01/2021-14161/general-services-administration-acquisition-regulation-immediate-and-highest-level-owner-for>).

The requirements of the statute are applicable to Federal lessees, defined by the Act as leases by the U.S. General Services Administration (GSA), the Architect of the Capitol, "or the head of any Federal agency, other than the
