**SUPPLEMENTARY INFORMATION:**

**I. Notice of Final Decision**

OSHA hereby gives notice of the  
expansion of the scope of recognition of  
TUV Rheinland of North America, Inc.  
(TUVRNA), as a NRTL. TUVRNA's  
expansion covers the addition of one  
test standard to the NRTL scope of  
recognition.

OSHA recognition of a NRTL signifies  
that the organization meets the  
requirements specified in 29 CFR  
1910.7. Recognition is an  
acknowledgment that the organization  
can perform independent safety testing  
and certification of the specific products  
covered within the scope of recognition.  
Each NRTL's scope of recognition  
includes (1) the type of products the  
NRTL may test, with each type specified  
by the applicable test standard and (2)  
the recognized site(s) that has/have the  
technical capability to perform the  
product-testing and product-  
certification activities for test standards  
within the NRTL's scope. Recognition is  
not a delegation or grant of government  
authority; however, recognition enables  
employers to use products approved by  
the NRTL to meet OSHA standards that  
require product testing and certification.

The agency processes applications by  
NRTLs or applicant organizations for  
initial recognition, as well as for  
expansion or renewal of recognition,  
following requirements in Appendix A  
to 29 CFR 1910.7. This appendix  
requires that the agency publish two  
notices in the **Federal Register** in  
processing an application. In the first  
notice, OSHA announces the  
application and provides the  
preliminary finding. In the second  
notice, the agency provides the final  
decision on the application. These  
notices set forth the NRTL's scope of  
recognition or modifications of that  
scope. OSHA maintains an

informational web page for each NRTL,  
including TUVRNA, which details that  
NRTL's scope of recognition. These  
pages are available from the OSHA  
website at [http://www.osha.gov/dts/  
otpca/nrtl/index.html](http://www.osha.gov/dts/otpca/nrtl/index.html).

TUVRNA submitted an application,  
dated May 14, 2019 (OSHA-2007-0042-  
0055), to expand recognition to include  
the addition of one test standard. OSHA  
staff performed a detailed analysis of the  
application packet and reviewed other  
pertinent information. OSHA did not  
perform any on-site reviews in relation  
to this application.

OSHA published the preliminary  
notice announcing TUVRNA's  
expansion applications in the **Federal  
Register** on November 1, 2021 (86 FR  
60296). The agency requested comments  
by November 16, 2021, but it received  
no comments in response to this notice.  
OSHA now is proceeding with this final  
notice to grant expansion of TUVRNA's  
scope of recognition.

To review copies of all public  
documents pertaining to TUVRNA's  
application, go to [www.regulations.gov](http://www.regulations.gov)  
or contact the Docket Office,  
Occupational Safety and Health  
Administration, U.S. Department of  
Labor at (202) 693-2350. Docket No.  
OSHA-2007-0042 contains all materials  
in the record concerning TUVRNA's  
recognition. Please note: Due to the  
COVID-19 pandemic, the Docket Office  
is closed to the public at this time but  
can be contacted at (202) 693-2350,  
TTY (877) 889-5627.

**II. Final Decision and Order**

OSHA staff examined TUVRNA's  
expansion application, their capability  
to meet the requirements of the test  
standard, and other pertinent  
information. Based on its review of this  
evidence, OSHA finds that TUVRNA  
meets the requirements of 29 CFR  
1910.7 for expansion of its recognition,  
subject to the limitations and conditions  
listed below. OSHA, therefore, is  
proceeding with this final notice to  
grant TUVRNA's scope of recognition.  
OSHA limits the expansion of  
TUVRNA's recognition to testing and  
certification of products for  
demonstration of conformance to the  
test standard shown below in Table 1.

TABLE 1—APPROPRIATE TEST STANDARD FOR INCLUSION IN TUVRNA'S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 60335-2-40 .....	Household and Similar Electrical Appliances—Safety—Part 2-40: Particular Requirements for Electrical Heat Pumps, Air-Conditioners and Dehumidifiers.

OSHA's recognition of any NRTL for a particular test standard is limited to equipment or materials for which OSHA standards require third-party testing and certification before using them in the workplace. Consequently, if a test standard also covers any products for which OSHA does not require such testing and certification, a NRTL's scope of recognition does not include these products.

#### A. Conditions

Recognition is contingent on continued compliance with 29 CFR 1910.7, including but not limited to, abiding by the following conditions of recognition:

1. TUVRNA must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in its operations as a NRTL, and provide details of the change(s);
2. TUVRNA must meet all the terms of its recognition and comply with all OSHA policies pertaining to this recognition; and
3. TUVRNA must continue to meet the requirements for recognition, including all previously published conditions on TUVRNA's scope of recognition, in all areas for which it has recognition.

OSHA hereby expands the scope of recognition of TUVRNA, subject to the limitations and conditions specified above.

#### III. Authority and Signature

Douglas L. Parker, Assistant Secretary of Labor for Occupational Safety and Health, 200 Constitution Avenue NW, Washington, DC 20210, authorized the preparation of this notice. Accordingly, the agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 8–2020 (85 FR 58393, September 18, 2020) and 29 CFR 1910.7.

Signed at Washington, DC, on December 15, 2021.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance process to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires OSHA to obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

Section 7(c)(1) of the OSH Act authorizes the Secretary of Labor (Secretary) to, “with the consent of any State or political subdivision thereof, accept and use the services, facilities, and personnel of any agency of such State or subdivision with reimbursement.” Section 21(c) of the OSH Act authorizes the Secretary to “consult with and advise employers and employees . . . as to effective means of preventing occupational illnesses and injuries.”

Additionally, Section 21(d) of the OSH Act instructs the Secretary to “establish and support cooperative agreements with the States under which employers subject to the Act may consult with State personnel with respect to the application of occupational safety and health requirements under the Act or under State plans approved under section 18 of the Act.” This gives the Secretary authority to enter into agreements with the States to provide On-Site Consultation services and establish
