

page of any filing should include the docket number P-2842-044. Comments emailed to Commission staff are not considered part of the Commission record.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. *Description of Request:* The licensee requests approval of a non-project use of project lands and waters in support of a public park to be located adjacent to and partially on project lands. The licensee proposes a water withdrawal of 2.27 cubic feet per second (cfs) to be taken from the right bank of the Snake River, upstream of the Lower Development weir. The request includes provisions to construction an intake structure and a series of pipes leading to a constructed, educational stream and pond in the public park. Approximately 0.27 cfs of the diverted water would be used for irrigation in the park, and the remaining 2 cfs would be returned to the Snake River downstream of the Lower Development weir. This would be the first water withdrawal at the project, and it would not require any alterations of current project operations.
