SUPPLEMENTARY INFORMATION: This proposed information collection previously published in the **Federal Register** on September 14, 2021, at 86 FR 51177 with a 60-day public comment period. No comments were received. The purpose of this notice is to notify the public that FEMA will submit the information collection abstracted below to the Office of Management and Budget for review and clearance.

This package is a revision to the collection titled the Threat and Hazard Identification and Risk Assessment (THIRA)—Stakeholder Preparedness Review (SPR) Unified Reporting Tool under OMB Control Number 1660-0131. The Post-Katrina Emergency Management Reform Act of 2006 (PKEMRA) (Pub. L. 109-295), as amended by the Implementing Recommendations of the 9/11 Commission Act of 2007 (Pub. L. 110-53), established an annual requirement for the 56 states and territories to submit a State Preparedness Report, at 6 U.S.C 752(c). Because this reporting now includes States, Tribes, territories, and urban areas, FEMA has revised the name of the collection as the Stakeholder Preparedness Review (SPR). States, Tribes, territories, and urban areas receiving non-disaster preparedness grant funds administered by DHS submit the SPR annually, and this encompasses the requirements of the previous State Preparedness Report, while reflecting the updated methodology reporting needs. The legislation requires a report on current capability levels and a description of targeted capability levels from all States, Tribes, territories, and urban areas receiving non-disaster preparedness grant funds administered by DHS. Each report must also include a discussion of the extent to which target capabilities identified in the applicable state homeland security plan and other applicable plans are unmet, and an assessment of resources needed to meet the preparedness priorities established

under 6 U.S.C. 752(c), including: (i) An estimate of the amount of expenditures required to attain the preparedness priorities; and (ii) the extent to which the use of Federal assistance during the preceding fiscal year achieved the preparedness priorities. To meet this requirement, States, Tribes, territories, and urban areas first identify capability targets through THIRA and then assess against these targets in the SPR. Through the SPR, these jurisdictions estimate their current capabilities, identify and describe gaps between current capabilities and targets, indicate their intended approach for addressing gaps in the future, and report on the impact of Federal grant dollars in building and sustaining capabilities. It is also important to note that completing the THIRA and SPR are allowable expenses under the grant awards.
