

establishing guidelines for collecting data on international trade in services and direct investment through notices, rather than through rulemaking. Additional information about BEA's collection of data on international trade in services and direct investment can be found in the 2012 rule, the International Investment and Trade in Services Survey Act (22 U.S.C. 3101 *et seq.*), and 15 CFR part 801. Survey data on international trade in services and direct investment that are not collected pursuant to the 2012 rule are described separately in 15 CFR part 801. The BE-37 survey form and instructions are available at www.bea.gov/ssb.

Reporting

Notice of specific reporting requirements, including who is to report, the information to be reported, the manner of reporting, and the time and place of filing reports, will be mailed to those required to complete this survey.

Who Must Report: (a) Reports are required from U.S. airline operators engaged in the international transportation of passengers, or of U.S. export freight, or the transportation of freight or passengers between two foreign ports, if total covered revenues or total covered expenses were \$500,000 or more in the previous year, or are expected to be \$500,000 or more during the current year. See BE-37 survey form for more details.

(b) Entities required to report will be contacted individually by BEA. Entities not contacted by BEA have no reporting responsibilities.

What To Report: The survey collects information on U.S. airline operators' foreign revenues and expenses, and count of passengers transported to, or from, the United States.

How To Report: Reports can be filed using BEA's electronic reporting system at www.bea.gov/efile. Copies of the survey forms and instructions, which contain complete information on reporting procedures and definitions, can be downloaded from www.bea.gov/ssb and submitted through mail or fax. Form BE-37 inquiries can be made by phone to BEA at (301) 278-9303 or by sending an email to be-37help@bea.gov.

When To Report: Reports are due to BEA 30 days after the end of each quarter.

Paperwork Reduction Act Notice

This data collection has been approved by the Office of Management and Budget (OMB) in accordance with the Paperwork Reduction Act and assigned control number 0608-0011. An agency may not conduct or sponsor, and

a person is not required to respond to, a collection of information unless it displays a valid control number assigned by OMB. Public reporting burden for this collection of information is estimated to average 5 hours per response. Additional information regarding this burden estimate may be viewed at www.reginfo.gov; under the Information Collection Review tab, click on "Search" and use the above OMB control number to search for the current survey instrument. Send comments regarding this burden estimate to Christopher Stein, Chief, Services Surveys Branch, Balance of Payments Division, via email at Christopher.Stein@bea.gov; and to the Office of Management and Budget, Paperwork Reduction Project 0608-0011, via email at OIRA_Submission@omb.eop.gov.

Study To Advance a More Productive Tech Economy

AGENCY: National Institute of Standards and Technology (NIST), Commerce.

ACTION: Notice; extension of comment period.

SUMMARY: The National Institute of Standards and Technology (NIST) is extending the period for submitting comments relating to the Study to Advance a More Productive Tech Economy to February 15, 2022. In a Request for Information (RFI) that published in the **Federal Register** on November 22, 2021, NIST requested information about the public and private sector marketplace trends, supply chain risks, legislative, policy, and the future investment needs of eight emerging technology areas, including: Artificial Intelligence, Internet of Things in Manufacturing, Quantum Computing, Blockchain Technology, New and Advanced Materials, Unmanned Delivery Services, Internet of Things, and Three-dimensional Printing. This RFI is seeking comments to help identify, understand, refine, and guide the development of the current and future state of technology in the eight emerging technology areas named above. The information will inform a final report that will be submitted to Congress. NIST is extending the comment period announced in the November 22, 2021 RFI from January 31, 2022 to February 15, 2022 in response to stakeholder requests for more time to respond to this important issue.

DATES: Comments in response to this notice must be received by 5:00 p.m. Eastern time on February 15, 2022. Submissions received after that date may not be considered. Those who have already submitted comments need not resubmit.

Comments may be submitted by any of the following methods:

Electronic submission: Submit electronic public comments via the Federal e-Rulemaking Portal.

1. Go to www.regulations.gov and enter NIST-2021-0007 in the search field,

2. Click the "Comment Now!" icon, complete the required fields, and

3. Enter or attach your comments.

Electronic submissions may also be sent as an attachment to acastudy@nist.gov and may be in any of the following unlocked formats: Word or

PDF. Please cite “COMPETE ACT” and the topic area in all correspondence. If the input is provided for more than one topic area, please submit separate documents for each topic area. Comments received by the deadline may be posted at www.regulations.gov. Comments containing references, studies, research, and other empirical data that are not widely published should include copies of the referenced materials. All submissions, including attachments and other supporting materials, may become part of the public record and may be subject to public disclosure. NIST reserves the right to publish relevant comments publicly, unedited and in their entirety. Personal information, such as account numbers or Social Security numbers, or names of other individuals, should not be included. Do not submit confidential business information, or otherwise sensitive or protected information. Comments that contain profanity, vulgarity, threats, or other inappropriate language or content will not be considered.

FOR FURTHER INFORMATION CONTACT: For questions about this RFI contact: Kevin Kimball, U.S. Department of Commerce, kevin.kimball@nist.gov, (301) 975-3070.

Please direct media inquiries to NIST’s Public Affairs Office at (301) 975-2762 or Jennifer.Huergo@nist.gov.

SUPPLEMENTARY INFORMATION: On November 22, 2021, NIST published a Request for Information (RFI) in the **Federal Register** (86 FR 66287) on a Study to Advance a More Productive Tech Economy. Interested parties have requested an extension to the comment submission deadline and in response; NIST extends the public comment period to February 15, 2022.

National Oceanic and Atmospheric Administration

[RTID 0648–XB266]

Pacific Island Fisheries; Garapan Fishing Base Shoreline Revetment

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability of a draft environmental assessment; request for comments.

SUMMARY: NMFS announces the availability of a draft environmental assessment (EA) evaluating the potential effects of constructing a rock revetment along Garapan Fishing Base, Saipan, Commonwealth of the Northern Mariana Islands (CNMI). Garapan Fishing Base supports sustainable fishing infrastructure including a boat ramp, trailer parking, and other community activities such as shore fishing, community markets and recreation. Stabilizing the shoreline would protect public land and infrastructure and reduce erosion resulting in improved water quality in Saipan Lagoon along shore.

DATES: NMFS must receive comments by February 28, 2022.

ADDRESSES: You may submit comments on this document, identified by NOAA–NMFS–0132, by any of the following methods:

- **Electronic Submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to <https://www.regulations.gov/docket/NOAA-NMFS-0132>, in the Search box. Click on the “Comment” icon, complete the required fields, and enter or attach your comments.

- **Mail:** Submit written comments to Michael D. Tosatto, Regional Administrator, NMFS Pacific Islands Regional Office (PIRO), 1845 Wasp Blvd., Bldg. 176, Honolulu, HI 96818.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous).

FOR FURTHER INFORMATION CONTACT: Phyllis Ha, NMFS PIRO, Sustainable Fisheries, 808-725-5174.

SUPPLEMENTARY INFORMATION: NMFS proposes to provide Western Pacific Sustainable Fisheries Funds (SFF) to the Western Pacific Fishery Management Council (Council) to support construction of a rock revetment along Garapan Fishing Base, Saipan, CNMI. The Council would in turn, provide funds to the CNMI Department of Lands and Natural Resources (DLNR) to construct the revetment to stabilize 380 feet of shoreline. DLNR would use

locally mined limestone rock to build the revetment and construction would proceed in three phases in accordance with engineering specifications. Phase I would begin in the area immediately adjacent to and south of the storm drain that is south of Garapan boat ramp and extend south along the coast for approximately 100 feet. Phase II would continue south for another 100 feet. Phase III would continue south for the remaining 180 feet. All together, the rock revetment would extend approximately 380 feet south along the coast, with the final 40 feet consisting of a gradual grade of flanking rocks. The revetment crest will be generally 4 to 5 feet above sea level and cemented for stability. The toe will be set at 4.5 feet below sea level and buried in sand and gravel to sea level. The revetment will extend approximately 15 feet offshore. However, the bottom of the revetment and toe is to be buried in sand, so it will appear to extend between 5 and 8 feet offshore at low tide along most of its length.

NMFS has produced a draft EA to evaluate the environmental effects of constructing the rock revetment. The draft EA shows that the construction includes several provisions intended to protect air and water quality and prevent large adverse effects on marine benthic habitats and wildlife, historic resources, and other features of the coastal and marine environment. NMFS is seeking public comments on the draft EA.

Dated: January 21, 2022.

Ngagne Jafnar Gueye,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
