SUPPLEMENTARY INFORMATION:

I. Background

The NPS maintains the NPS–23, Planning, Environment and Public Comment (PEPC) System, system of records. The PEPC System is an online collaborative tool designed to facilitate the project management process in conservation planning and environmental impact analysis that is
The system assists the NPS in making informed decisions regarding a number of compliance issues throughout the planning, design, and construction process.

DOI is publishing this revised notice to reflect updates to the system location, system manager, categories of records, records source, records retrieval, records retention and disposal, and safeguards; include new sections for security classification, purpose and history of the system of records; and make general updates to the remaining sections to accurately reflect management of the system of records in accordance with the Office of Management and Budget (OMB) Circular A–108, Federal Agency Responsibilities for Review, Reporting, and Publication under the Privacy Act. DOI is proposing to modify existing routine uses and add new routine uses to provide clarity, transparency, and to facilitate sharing of information with agencies and organizations to promote the integrity of the records in the system or carry out a statutory responsibility of the DOI or Federal Government.

Routine use A was slightly modified to further clarify disclosures to the Department of Justice (DOJ) or other Federal agencies, when necessary, in relation to litigation or judicial hearings. Routine use B was modified to clarify disclosures to a congressional office to respond to or resolve an individual’s request made to that office. Routine use H was modified to clarify sharing of information with government agencies and organizations in response to court orders or for discovery purposes related to litigation. Routine use I was modified to include grantees to facilitate sharing of information when authorized and necessary to perform services on DOI’s behalf. Modified routine use J allows DOI to share information with appropriate Federal agencies or entities when reasonably necessary to respond to a breach of PII and to prevent, minimize, or remedy the risk of harm to individuals or the Federal Government, or assist an agency in locating individuals affected by a breach in accordance with OMB Memorandum M–17–12, Preparing for and Responding to a Breach of Personally Identifiable Information. Routine use N was modified to include review by public affairs, legal counsel, and the Senior Agency Official for Privacy and clarify circumstances where there is a legitimate public interest in the disclosure of information that would not constitute an unwarranted invasion of privacy.

Proposed new routine use C facilitates sharing of information with the Executive Office of the President to resolve issues concerning individuals’ records. Proposed routine use P allows sharing with members of the public in order to provide copies or summaries of comments received on a project, and to provide information to the public as a report or verification of all correspondence received for a project, or as part of the process of reporting the public’s concerns on a project and the NPS’s response to those concerns.

II. Privacy Act

The Privacy Act of 1974, as amended, embodies fair information practice principles in a statutory framework governing the means by which Federal agencies collect, maintain, use, and disseminate individuals’ records. The Privacy Act applies to records about individuals that are maintained in a “system of records.” A “system of records” is a group of any records under the control of an agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particulars assigned to the individual. The Privacy Act defines an individual as a United States citizen or lawful permanent resident. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DOI by complying with DOI Privacy Act regulations at 43 CFR part 2, subpart K, and following the procedures outlined in the Records Access, Contesting Record, and Notification Procedures sections of this notice.

The Privacy Act requires each agency to publish in the Federal Register a description denoting the existence and character of each system of records that the agency maintains, and the routine uses of each system. The INTERIOR/ NPS–23, Planning, Environment and Public Comment (PEPC) System, SORN is published in its entirety below. In accordance with 5 U.S.C. 552a(r), DOI has provided a report of this system of records to OMB and to Congress.

III. Public Participation

You should be aware your entire comment including your personally identifiable information, such as your address, phone number, email address, or any other personal information in your comment, may be made publicly available at any time. While you may request to withhold your personally identifiable information from public review, we cannot guarantee we will be able to do so.
