

Report” and 10–406, “Bear Information Management Report” exercises our statutory authority and responsibility to protect the park areas we administer and to manage public use.

Bear sighting data provides the park with important information used to determine bear movements, habitat use, and species distribution. This information is important for backcountry management and planning, field research planning, and educational outreach for visitors. Bear-human interaction data is vital to understanding bear responses to people, detecting changes in bear behavior, and identifying areas of high bear-human conflict. Obtaining immediate information on bear-human conflicts allows managers to respond promptly to mitigate further conflicts. Proactive mitigation includes notifying other backcountry users, issuing advisories or recommendations, or issuing closures to prevent further conflicts and maintain public safety. Observations and interactions by visitors are recorded using two forms: (1) NPS Form 10–405 “Tatshenshini—Alsek River Bear Report” collects information regarding bear sightings within GLBA and (2) NPS Form 10–406 “Bear Information Management Report” collects information when a bear enters a camp, approaches the group, damages gear, obtains food, and/or acts in an aggressive or threatening manner towards the group.

Abstract: Each year, more than 7,000 visitors to the various units of the National Park System file reports of lost or found items. Reporting of lost or found personal property in national parks is governed by 36 CFR 2.22, “Disposition of Property” which requires unattended property be impounded and deemed to be abandoned unless claimed by the owner or an authorized representative within 60 days. The 60-day period starts upon notification to the rightful owner of the property, if the owner can be identified; or from the time the property was placed in the superintendent’s custody if the owner cannot be identified.

Unclaimed property must be stored for a minimum period of 60 days. If the item is not claimed by the owner or an authorized representative within the 60-

day period, the property may be claimed by the finder, provided the finder is not an employee of the NPS. Found property not claimed by the owner, an authorized representative of the owner, or the finder, shall be deemed abandoned and disposed of in accordance with Title 41 Code of Federal Regulations.

In order to comply with the requirements of 36 CFR 2.22, the Form 10-166, "Lost and Found Report," is used by the park to identify personal property reported as lost or found and to return found items to the legitimate owner, or to the finder if the item is not claimed by the owner or their authorized representative. NPS Form 10-166 collects the following information from the visitor filing the report:

- Park name, receiving station (if appropriate), and date item was lost or found.
- Name, address, city, state, zip code, email address, and contact phone numbers (cell and home).
- Type of item, detailed description of item, and location where the item was last seen or found.
- Photograph of item (if available).

Dated: February 10, 2022.

Thomas G. Hohenthanner,

Acting VP/General Counsel and Corporate Secretary.

Summary of First Amendment to Millennium Challenge Compact With the Republic of Côte d'Ivoire

The Board of Directors of the Millennium Challenge Corporation ("MCC") has approved an amendment (the "Amendment") to the existing US\$524,740,000, five-year Millennium Challenge Compact between the United States of America, acting through MCC, and the Republic of Côte d'Ivoire (the "Compact").

Background

The Compact was signed on November 7, 2017 and entered into force on August 5, 2019. The Compact aims to contribute to economic growth and investment in Côte d'Ivoire through two projects supporting the Ivorian government's drive to diversify its economy through investments focused on education and transportation: (i) The Skills for Employability and Productivity Project; and (ii) the Abidjan Transport Project.

Scope of the Amendment

MCC proposes to extend the term of the Compact for an additional twelve months until August 5, 2025, and to provide additional funding of up to \$12,000,000. The term extension is necessary to mitigate implementation delays due to the COVID-19 pandemic and to complete Compact projects as originally contemplated. The proposed additional funding will be used to cover additional program administration and related oversight costs associated with extending the Compact's term.

Justification for the Amendment

The first case of COVID-19 in Côte d'Ivoire was confirmed on March 11, 2020. The Government declared a state of emergency on March 23, 2020, imposing curfews and major restrictions on the movement of people. The timing of the pandemic delayed the effective
