

that the cost of the subscriptions is not attractive.

The proposed elimination of the ACT Trade History fee for WebLink, Workstation and WorkX will have minimal competitive effect insofar as some users that utilize the ACT Trade History service may receive a decrease in their overall subscription to the products. As discussed above, although some users will incur a decrease in fees and others will incur a fee increase because of the proposed changes, the Exchange does not believe that this difference will result in a competitive disadvantage to any users because the proposed rule change will allow all users of WebLink, Workstation and WorkX to freely use the tool at no additional cost.

Firms also have the option of reporting their trades on the FINRA/NYSE TRF and utilizing its trade reporting and regulatory compliance service products if they are dissatisfied with the Exchange's fee proposal.

Intermarket Competition

The Exchange believes that its proposed modifications to its fee schedule will not impose any burden on competition because the increased fees, proration and removal of ACT Trade History charges simplifies the subscription rates for these products and ensures that the Exchange is able to continue to provide the best products that benefit member firms. The Exchange notes that it operates in a highly competitive market in which market participants can readily favor the FINRA/NYSE TRF if they are dissatisfied with the fee change or deem the FINRA/NYSE TRF and its related front-end products to be more favorable. The proposed fee changes to WebLink, Workstation and WorkX are reflective of this competition.
