(f) A Schedule for the Decision-Making Process

Following the issuance of this notice, FHWA and VDOT will coordinate with the Participating, Cooperating, and Cooperating/Concurring Agencies to develop study documentation and the Draft EIS.

- The Draft EIS is anticipated to be issued in August 2022.
- The combined Final EIS and Record of Decision is anticipated in November 2023.
- A Section 404 permit decision from the USACE is expected in December 2025.

See the Supplemental NOI Document for additional schedule details.

(g) Request for Identification of Potential Alternatives, Information, and Analyses Relevant to the Proposed Action

To ensure that a full range of issues related to the study are addressed and all potential issues are identified, FHWA invites comments and suggestions from all interested parties. The project team requests comments and suggestions on potential alternatives and impacts, and the identification of any relevant information, studies, or analyses of any kind concerning impacts affecting the quality of the human environment. Any information presented herein, including the preliminary purpose and need, preliminary range of alternatives and identification of impacts may be revised after consideration of the comments. The purpose of this request is to bring relevant comments, information, and analyses to the agency's attention, as early in the process as possible, to enable the agency to make maximum use of this information in decision making. Comments may be submitted according to the instructions in the **ADDRESSES** section of this Notice.

Avenue SE, Washington, DC 20590–0001, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. To be sure someone is there to help you, please call (202) 366–9317 or (202) 366–9826 before visiting Dockets Operations.

Privacy Act

DOT solicits comments from the public to better inform its exemption process, in accordance with 5 U.S.C. 31315(b)(6). DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL 14—Federal Docket Management System), which can be reviewed at www.transportation.gov/privacy.

II. Legal Basis

FMCSA has authority under 49 U.S.C. 31315(b) to grant exemptions from certain parts of the Federal Motor Carrier Safety Regulations (FMCSRs). FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including any safety analyses that have been conducted. The Agency must also provide an opportunity for public comment on the request. The Agency reviews the safety analyses and the public comments and determines whether granting the exemption would likely achieve a level of safety equivalent to or greater than the level that would be achieved by the current regulation (49 CFR 381.305). The decision of the Agency must be published in the **Federal Register** (49 CFR 381.315(b)). If the Agency denies the request, it must state the reason for doing so. If the decision is to grant the exemption, the notice must specify the person or class of persons receiving the exemption and the regulatory provision or provisions from which an exemption is granted. The notice must specify the effective period of the exemption (up to 5 years) and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.315(c) and 49 CFR 381.300(b)).

Pi Variable's Application for Exemption

The Federal Motor Carrier Safety Regulations require one of the following warning devices to be deployed when a CMV is stopped upon the traveled portion of a highway or the shoulder of a highway for any cause other than necessary traffic stops: (1) Three bidirectional emergency reflective triangles that conform to the

requirements of Federal Motor Vehicle Safety Standard No. 125, § 571.125 of this title; or (2) At least 6 fusees or 3 liquid-burning flares. The vehicle must have as many additional fusees or liquid-burning flares as are necessary to satisfy the requirements of § 392.22, (3) Other warning devices may be used in addition to, but not in lieu of, the required warning devices, provided those warning devices do not decrease the effectiveness of the required warning devices. Pi Variables has applied for an exemption from 49 CFR 393.95(f)(2) to allow sequential flashing LED flare warning devices to be deployed in lieu of fusees or liquid-burning flares. A copy of the exemption application is included in the docket referenced at the beginning of this notice.

Request for Comments

In accordance with 49 U.S.C. 31315(b)(6), FMCSA requests public comment from all interested persons on Pi Variable's application for an exemption from 49 CFR 393.95(f)(2). All comments received before the close of business on the comment closing date indicated at the beginning of this notice will be considered and will be available for examination in the docket at the location listed under the **ADDRESSES** section of this notice. Comments received after the comment closing date will be filed in the public docket and will be considered to the extent practicable. In addition to late comments,

FMCSA will also continue to file, in the public docket, relevant information that becomes available after the comment closing date. Interested persons should continue to examine the public docket for new material.

Larry W. Minor,

Associate Administrator for Policy.
