DEPARTMENT OF LABOR

Bureau of Labor Statistics

Information Collection Activities; Comment Request

AGENCY: Bureau of Labor Statistics, Department of Labor.

ACTION: Notice of information collection; request for comment.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed revision of the “National Longitudinal Survey of Youth 1979.” A copy of the proposed information collection request (ICR) can be obtained by contacting the individual listed in the ADDRESSES section of this notice.

DATES: Written comments must be submitted to the office listed in the ADDRESSES section below on or before May 2, 2022.

ADDRESSES: Send comments to Carol Rowan, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room 4080, 2 Massachusetts Avenue NE, Washington, DC 20212. Written comments may also be transmitted by email to BLS_PRA_Public@bls.gov.

FOR FURTHER INFORMATION CONTACT: Carol Rowan, BLS Clearance Officer, 202–691–7628 (this is not a toll free number). (See ADDRESSES section.)

SUPPLEMENTARY INFORMATION:

I. Background

The National Longitudinal Survey of Youth 1979 (NLSY79) is a representative national sample of persons who were born in the years 1957 to 1964 and lived in the U.S. in 1978. These respondents were ages 14 to 22 when the first round of interviews began in 1979; they were ages 57 to 64 as of December 31, 2021. The NLSY79 was conducted biennially from 1979 to 1994 and has been conducted biennially since 1994. The longitudinal focus of this survey requires information to be collected from the same individuals over many years in order to trace their education, training, work experience, fertility, income, and program participation.

In addition to the main NLSY79, the biological children of female NLSY79 respondents have been surveyed since 1986. A battery of child cognitive, socio-emotional, and physiological assessments was administered biennially from 1986 until 2012 to NLSY79 mothers and their children. Starting in 1994, children who had reached age 15 by December 31 of the survey year (the Young Adults) were interviewed about their work experiences, training, schooling, health, fertility, self-esteem, and other topics. Funding for the NLSY79 Child and Young Adult surveys has been provided by the Eunice Kennedy Shriver National Institute of Child Health and Human Development through an interagency agreement with the BLS and through a grant awarded to researchers at the Ohio State University Center for Human Resource Research (CHRR). The collection referenced in this notice does not include a collection of the NLSY79 Child and Young Adult surveys, but additional collections may be contemplated in the future.

One of the goals of the Department of Labor (DOL) is to produce and disseminate timely, accurate, and relevant information about the U.S. labor force. The BLS contributes to this goal by gathering information about the labor force and labor market and disseminating it to policymakers and the public so that participants in those markets can make more informed, and thus more efficient, choices. Research based on the NLSY79 contributes to the formation of national policy in the areas of education, training, employment programs, school-to-work transitions, discrimination in hiring, firing, promotions, and medical care. Several questions that have appeared in previous rounds of the NLSY79 but not in Round 29 will be cycled back in; these include questions about tasks performed on the job, the importance of religion to the respondent, and willingness of respondents to complete the survey.
including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

1 The difference between the total number of respondents (6,355) and the total number of responses (6,455) reflects the fact that about 100 respondents will be interviewed twice, once in the main survey and a second time in the 6-minute validation interview.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they also will become a matter of public record.

Signed at Washington, DC, on February 24, 2022.

Eric Molina,
Acting Chief, Division of Management Systems.

BILLING CODE 4510–24–P

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA–2006–0028]

MET Laboratories, Inc.: Grant of Expansion of Recognition

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice.

SUMMARY: In this notice, OSHA announces the final decision to expand the scope of recognition for MET Laboratories, Inc., as a Nationally Recognized Testing Laboratory (NRTL).

DATES: The expansion of the scope of recognition becomes effective on March 1, 2022.

FOR FURTHER INFORMATION CONTACT: Information regarding this notice is available from the following sources:
- Press inquiries: Contact Mr. Frank Meilinger, Director, OSHA Office of Communications; telephone: (202) 693–1999; email: meilinger.francis2@dol.gov.
- General and technical information: Contact Mr. Kevin Robinson, Director, Office of Technical Programs and Coordination Activities, Directorate of Technical Support and Emergency Management, Occupational Safety and Health Administration; telephone: (202) 693–2110; email: robinson.kevin@dol.gov. OSHA’s web page includes information about the NRTL Program (see https://www.osha.gov/dts/otpca/nrtl/index.html).

SUPPLEMENTARY INFORMATION:

I. Notice of Final Decision

OSHA hereby gives notice of the expansion of the scope of recognition of MET Laboratories, Inc. (MET), as a NRTL. MET’s expansion covers the addition of four test standards to the NRTL scope of recognition.

OSHA recognition of a NRTL signifies that the organization meets the requirements specified by 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within the scope of recognition and is not a delegation or grant of government authority. As a result of recognition, employers may use products properly approved by the NRTL to meet OSHA standards that require testing and certification of the products.

The agency processes applications by a NRTL for initial recognition, or for expansion or renewal of that recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the agency publish two notices in the Federal Register in processing an application. In the first notice, OSHA announces the application and provides the preliminary finding and, in the second notice, the agency provides the final decision on the application. These notices set forth the NRTL’s scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL that details the scope of recognition. These pages are available from the agency’s website at https://www.osha.gov/dts/otpca/nrtl/index.html.

MET submitted four applications, one dated January 14, 2019 (OSHA–2006–0028–0075), the second dated July 30, 2019 (OSHA–2006–0028–0076), which was amended on July 29, 2020 (OSHA–2006–0028–0077). The third and fourth applications were received on August 13, 2019 (OSHA–2006–0028–0078) and (OSHA–2006–0028–0079). Together, the expansion applications would add four additional test standards to MET’s NRTL recognition. OSHA staff performed a detailed analysis of the application packets and reviewed other pertinent information. OSHA did not perform any on-site reviews in relation to the applications.

OSHA published the preliminary notice announcing MET’s expansion applications in the Federal Register on January 21, 2022 (87 FR 3353). The agency requested comments by February 7, 2022, but it received no comments in response to this notice. OSHA now is proceeding with this final notice to grant expansion of MET’s scope of recognition.

To obtain or review copies of all public documents pertaining to MET’s applications, go to https://www.regulations.gov or contact the Docket Office, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue NW, Room N–3653, Washington, DC 20210. Docket No. OSHA–2006–0028 contains all materials in the record concerning MET’s recognition. Please note: Due to the COVID–19 pandemic, the Docket Office is closed to the public at this time but can be contacted at (202) 693–2350.

II. Final Decision and Order

OSHA staff examined MET’s expansion applications, the capability to meet the requirements of the test
