

action agency. Reinitiation of formal consultation was required to add NMFS Permits and Conservation Division as an action agency and to analyze changes to the action that were not considered in the February 2019 opinion (PCTS# AKR-2018-9806/ECO# AKRO-2018-01287). The original opinion considered the effects of only one project component being constructed at a time and did not analyze potential effects of concurrent pile driving which may cause effects to the listed species that were not considered in the original opinion; therefore, reinitiation of formal consultation was required.

NMFS' Alaska Region issued a revised Biological Opinion to NMFS' Office of Protected Resources on December 19, 2019 which concluded that issuance of the Phase 1 and Phase 2 IHAs to ADOT&PF is not likely to jeopardize the continued existence of Mexico DPS humpback whales.

Authorization

NMFS has issued an IHA to ADOT&PF for in-water construction activities associated with the specified activity from March 1, 2022, through February 28, 2023. All previously described mitigation, monitoring, and reporting requirements from the initial Phase 2 IHA are incorporated.

Dated: February 25, 2022.
