

Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for surrender of license and removal of project works for the Lower Klamath Hydroelectric Project No. 14803 and has prepared a draft environmental impact statement (EIS).¹ The project is located on the Klamath River in Klamath County, Oregon, and in Siskiyou County, California. The project occupies approximately 400 acres of federal lands. These federal lands are administered by the U.S. Department of the Interior, Bureau of Land Management (BLM).

The draft EIS contains staff evaluations of the applicant's proposal and the alternatives for surrender of the Lower Klamath Project. The draft EIS documents the views of governmental agencies, non-governmental organizations, affected Indian Tribes, the public, the applicants, and Commission staff.

In this notice, we acknowledge the number of pages in this draft EIS exceeds the final EIS page limits set forth in CEQ's Final Rule for proposals of unusual scope or complexity. Noting the scope and complexity of this proposal, the Director, Office of Energy Projects, as our senior agency official, has authorized this page limit exceedance for both the draft and final EIS.

The Commission provides all interested persons with an opportunity to view and/or print the draft EIS via the internet through the Commission's Home Page (<http://www.ferc.gov/>), using the "eLibrary" link. Enter the docket number, excluding the last three digits in the docket number field, to access the document.
