### Federal Energy Regulatory Commission

[Docket No. CP21–20–000]

#### Algonquin Gas Transmission, LLC; Notice of Request for Extension of Time

Take notice that on February 18, 2022, Algonquin Gas Transmission, LLC (Algonquin) requested that the Federal Energy Regulatory Commission (Commission) grant an extension of time, until September 27, 2022, to complete the construction of the Stony Point Anomaly MNR Crossing Project (Project), as authorized after the 60-day deadline of Algonquin's prior notice issued by the Commission on December 28, 2020. By that process, Algonquin was initially required to complete and make available for service in one year, by February 27, 2022.

Algonquin states the Project has made substantial progress but experienced extenuating circumstances delaying its completion. Algonquin avers the delays have been a result of (i) complex dewatering conditions at the work site that required enhanced measures, (ii) slower than anticipated tunneling progress due to challenging substrate conditions, and (iii) rainfall and flash flood conditions from Tropical Storm Ida. Algonquin was able to complete the installation of the 26-inch diameter pipeline by December 2021. However, Algonquin was unable to complete the tie-in of these facilities because that

would have required an outage of the active pipeline during the winter heating season.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on Algonquin's request for an extension of time may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10).

As a matter of practice, the Commission itself generally acts on requests for extensions of time to complete construction for Natural Gas Act facilities when such requests are contested before order issuance. For those extension requests that are contested,<sup>1</sup> the Commission will aim to issue an order acting on the request within 45 days.<sup>2</sup> The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension.<sup>3</sup> The Commission will not consider arguments that re-litigate the issuance of the certificate order, including whether the Commission properly found the project to be in the public convenience and necessity and whether the Commission's environmental analysis for the certificate complied with the National Environmental Policy Act.<sup>4</sup> At the time a pipeline requests an extension of time, orders on certificates of public convenience and necessity are final and the Commission will not re-litigate their issuance.<sup>5</sup> The OEP Director, or his or her designee, will act on all of those extension requests that are uncontested.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://www.ferc.gov>)

<sup>1</sup> Contested proceedings are those where an intervenor disputes any material issue of the filing. 18 CFR 385.2201(c)(1) (2019).

<sup>3</sup> *Id.* at P 40.

<sup>4</sup> Similarly, the Commission will not re-litigate the issuance of an NGA section 3 authorization, including whether a proposed project is not inconsistent with the public interest and whether the Commission's environmental analysis for the permit order complied with NEPA.

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection.

a. *Type of Application*: Request for amendment of license to construct new trashrack structure at the Colton dam.

b. *Project No.*: 2320–077.

c. *Date Filed*: January 14, 2022.

d. *Applicant*: Erie Boulevard Hydropower, L.P.

e. *Name of Project*: Middle Raquette River Hydroelectric Project.

f. *Location*: The project is located on the Raquette River in St. Lawrence County, New York.

g. *Filed Pursuant to*: Federal Power Act, 16 U.S.C. 791 (a)–825(r).

h. *Applicant Contact*: Mr. Daniel Maguire, PE, Compliance Manager,

Brookfield Renewable, 184 Elm Street, Potsdam, NY 13676, (315) 267-1036.

i. *FERC Contact*: Mr. Steven Sachs, (202) 502-8666, [Steven.Sachs@ferc.gov](mailto:Steven.Sachs@ferc.gov).

j. Deadline for filing comments, motions to intervene, and protests is 30 days from the issuance of this notice by the Commission. The Commission strongly encourages electronic filing. Please file comments, motions to intervene, and protests using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/doc-sfiling/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov), (866) 208-3676 (toll free), or (202) 502-8659 (TTY). In lieu of electronic filing, you may submit a paper copy. Submissions sent via the U.S. Postal Service must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, MD 20852. The first page of any filing should include docket number P-2320-077. The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. *Description of Request*: The applicant intends to construct a new concrete and steel trashrack structure upstream of the intake on the dam at the Colton development. The trashrack structure would be approximately 75 feet long, would extend from the right side of the intake to the left (west) bank of the reservoir at the access road, and would include a trashrack with a 1-inch clear bar spacing. The applicant intends to replace the existing trashrack, located directly on the intake, with a rack using a 3-inch clear bar spacing. The applicant does not propose any change to project operation as a result of the modifications and would maintain normal reservoir elevations and release the required environmental and recreational flows during construction,

which is scheduled to take place from July through September 2022.

l. In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://ferc.gov>) using the "eLibrary" link.
