SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for revision and extension of a currently approved information collection.

In 1972, in response to intense pressure on United States (U.S.) coastal resources, and because of the importance of U.S. coastal areas, the U.S. Congress passed the Coastal Zone Management Act of 1972 (CZMA), 16 U.S.C. 1451 *et seq.* The CZMA authorized a federal program to encourage coastal states and territories to develop comprehensive coastal management programs. The CZMA has been reauthorized on several occasions, most recently with the enactment of the Coastal Zone Protection Act of 1996 (CZMA as amended). The program is administered by the Secretary of Commerce, who in turn has delegated this responsibility to the National Oceanic and Atmospheric Administration's (NOAA) National Ocean Services (NOS).

The coastal zone management grants provide funds to states and territories to: Implement federally-approved coastal management programs; complete information for the Coastal Zone Management Program (CZMP) Performance Management System; develop multi-year program assessments and strategies to enhance their programs within priority areas under Section 309 of the CZMA; submit documentation as described in the CZMA Section 306A for specific construction, acquisition,

and educational projects; submit requests to update their federally-approved programs through amendments or program changes; and develop and submit state coastal nonpoint pollution control programs (CNP) as required under Section 6217 of the Coastal Zone Act Reauthorization Amendments.

The CZM performance report guidance will undergo minor updates that will ensure consistency with NOAA/NOS grants requirements as well as CZMA strategic priorities. The revised CZM performance measure guidance will provide clarification for reporting on competitive and multi-year awards, as well as additional guidance on financial reporting requirements. The CZMA Section 306A guidance will also likely undergo minor updates to address several technical issues that arose from the 2018 guidance update as well as clarify several minor policy issues. However, NOAA does not anticipate any changes to the record keeping requirements or time estimates for collecting the necessary documentation.

II. Method of Collection

Respondents have a choice of electronic or paper formats for submitting program documents, assessment and strategy documents, and other required materials. Grant applications are submitted electronically via [Grants.gov](https://www.grants.gov) and performance reports are submitted electronically through NOAA Grants Online. Performance measurement data is submitted through an online database. Methods of submittal for other program documents and required materials include electronic submittal via email or mail.
