Title of Collection: Cancer Treatment Deferment.

OMB Control Number: 1845-0154.

Type of Review: Extension without change of a currently approved collection.

Respondents/Affected Public: Individuals or Households.

Total Estimated Number of Annual Responses: 5,000.

Total Estimated Number of Annual Burden Hours: 833.

Abstract: The Department of Education (Department) is requesting an extension of the current Cancer Treatment Deferment Form information collection, OMB Control Number 1845-0154. This collection is used to obtain information from federal student loan borrowers to determine eligibility for a deferment of repayment of their federal student loan while receiving cancer treatment and for the 6-month period

after such treatment. Section 309 of the Consolidated Appropriations Act, 2019, (Pub. L. 115-245) included a provision for the Department to implement this circumstance as a basis for deferment. Due to the effects of the COVID-19 pandemic and the suspension of the collection of loans, the Department lacks sufficient data to allow for updates to the usage of these forms.

Dated: March 3, 2022.

Kate Mullan,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.

Voting System Anomaly Reporting and Root Cause Analysis; OMB Number Pending.

Purpose

Under the PRA (44 U.S.C. 3501–3520), Federal Agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. “Collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes Agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires Federal Agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, the EAC is publishing notice of the proposed collection of information set forth in this document.

HAVA requires that the EAC certify and decertify voting systems. Section 231(a)(1) of HAVA (52 U.S.C. 20971) specifically requires the EAC to “provide for the testing, certification, decertification and recertification of voting system hardware and software by accredited laboratories.” To meet this obligation, the EAC has created a voluntary testing and certification program to test voting systems to federal voting system standards.

The program is to publish two forms. These are to be used to collect information concerning anomalies in voting systems used in federal elections. These forms will collect initial anomaly information as reported by voting system manufacturers and election officials. Root cause analysis of the anomalies, test results and findings will also be collected. This information is collected to improve the quality of voting systems used in federal elections.

Public Comments

We are soliciting public comments to permit the EAC to:

- Evaluate whether the proposed information collection is necessary for the proper functions of the Office of Grants Management.
- Evaluate the accuracy of our estimate of burden for this proposed collection, including the validity of the methodology and assumptions used.

- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Please note that comments submitted in response to this Notice are public record. Before including any detailed personal information, you should be aware that your comments as submitted, including your personal information, will be available for public review.
