SUPPLEMENTARY INFORMATION: National Dislocated Worker Grants (NDWGs) are discretionary grants awarded by the Secretary of Labor under Section 170 of the Workforce Innovation and Opportunity Act (WIOA). NDWGs provide states and other eligible applicants resources to respond to large, unexpected layoff events causing significant job losses. NDWG funds temporarily expand state, regional, and local workforce system capacity to serve dislocated workers, meet the increased demand for WIOA employment and training services, quickly reemploy laid-off workers, and enhance their employability and earnings. The NDWG legacy application and modification forms (ETA-9103, ETA-9105, ETA-9106, and ETA-9107) include project

planning, employer, project summary, and project operator information. These legacy forms and application processes constitute the information collection request. ETA expects these forms to sunset shortly as all NDWG applications shift to the grants.gov application process associated with a different information collection.

DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the OMB for final approval. This public comment process helps to ensure requested data can be provided in the desired format; reporting burden (time and financial resources) is minimized; collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection unless it is approved by OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. To help ensure appropriate consideration, comments should mention OMB control number 1205-0439.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information,

including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, (e.g., permitting electronic submission of responses).
