### Assessment

In accordance with section 751(a)(2)(C) of the Act and 19 CFR 351.212(b)(2), Commerce shall determine, and CBP shall assess, countervailing duties on all appropriate entries covered by this review. Commerce intends to issue appropriate assessment instructions to CBP no

<sup>5</sup> With two respondents under examination, Commerce normally calculates (A) a weighted-average of the estimated subsidy rates calculated for the examined respondents; (B) a simple average of the estimated subsidy rates calculated for the examined respondents; and (C) a weighted-average of the estimated subsidy rates calculated for the examined respondents using each company's publicly-ranged U.S. sale quantities for the merchandise under consideration. Commerce then compares (B) and (C) to (A) and selects the rate closest to (A) as the most appropriate rate for all other producers and exporters. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication).

### Cash Deposit Requirements

In accordance with section 751(a)(1) of the Act, Commerce also intends to instruct CBP to collect cash deposits of estimated countervailing duties in the amounts shown above for the above-listed companies with regard to shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of these final results of review. For all non-reviewed firms, CBP will continue to collect cash deposits of estimated countervailing duties at the most recent company-specific or all-others rate applicable to the company, as appropriate. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Accordingly, the Department of Commerce is seeking public comments on key areas of interest, including: Digital and emerging technologies; supply chain resilience; infrastructure, decarbonization, and clean energy; and tax and anti-corruption. Commerce in developing the U.S. position in these negotiations. To provide comments on the fair and resilient trade pillar on elements unrelated to the digital and emerging technologies, please see the relevant USTR request for comment.

Commenters should include which of the nine topics they are addressing or indicate “other issues of consideration.” Commenters that self-identify as a small business (generally defined by the U.S. Small Business Administration as firms with fewer than 500 employees) or organizations representing small business members should indicate this.

**SUPPLEMENTARY INFORMATION:**

*Background:* On October 27, 2021, President Joseph R. Biden announced that the United States would explore the development of an Indo-Pacific Economic Framework (IPEF). The United States is seeking to include multiple pillars covering key areas of interest within the IPEF, including digital and emerging technologies; supply chain resilience; infrastructure, clean energy, and decarbonization; and tax and anti-corruption. Launching

negotiations on these topics under the IPEF is an important step towards strengthening U.S. economic engagement in the Indo-Pacific region and presents a novel approach to promoting durable, broad-based economic growth.

*Requirements for Written Content:* The Department of Commerce is developing negotiating objectives and positions to shape cooperation with potential IPEF partners which could include various types of commitments, cooperative actions, and other measures. To that end, via this general solicitation, the Department of Commerce invites interested parties to comment on issues that the Department of Commerce should address in the negotiations, including whether those issues have particular relevance for any of the economies in the Indo-Pacific region. The Department of Commerce seeks broad input from all interested stakeholders—including industry, researchers, academia, labor, and civil society. To the extent commenters choose to respond to particular matters related to the negotiations, they may comment on any of the following:

1. General negotiating objectives for the IPEF.
2. Digital and emerging technologies-related issues.
3. Supply chain resilience-related issues.
4. Infrastructure-related issues.
5. Clean energy-related issues.
6. Decarbonization-related issues.
7. Tax-related issues.
8. Anti-corruption-related issues.
9. Issues of particular relevance to small and medium-sized businesses that should be addressed in the negotiations.
10. Other issues for consideration.

The Department of Commerce requests that small businesses (generally defined by the U.S. Small Business Administration as firms with fewer than 500 employees) or organizations representing small business members that submit comments to self-identify as such so that we may be aware of issues of particular interest to small businesses.

*Request for Written Comments:* The <https://www.regulations.gov> website allows users to provide comments by filling in a “Type Comment” field, or by attaching a document using an “Upload File” field. Commerce prefers comments be provided in an attached document. Commerce prefers submissions in Microsoft Word (.doc files) or Adobe Acrobat (.pdf files). If the submission is in an application format other than Microsoft Word or Adobe Acrobat, please indicate the name of the application in the “Type Comment” field. Please do not attach separate cover

letters to electronic submissions; rather, include any information that might appear in a cover letter within the comments. Similarly, to the extent possible, please include any exhibits, annexes, or other attachments in the same file, so that the submission consists of one file instead of multiple files. Comments (both public comments and non-confidential versions of comments containing business confidential information) will be placed in the docket and open to public inspection. Comments may be viewed on <https://www.regulations.gov> by entering docket number ITA–2022–0001 in the search field on the home page. All filers should name their files using the name of the person or entity submitting the comments. Anonymous comments also will be accepted. Communications from agencies of the United States Government will not be made available for public inspection.

Anyone submitting business confidential information should clearly identify the business confidential portion at the time of submission, file a statement justifying nondisclosure and referring to the specific legal authority claimed, and provide a non-confidential version of the submission. The non-confidential version of the submission will be placed in the public file on <https://www.regulations.gov>. For comments submitted electronically containing business confidential information, the file name of the business confidential version should begin with the characters “BC”. Any page containing business confidential information must be clearly marked “BUSINESS CONFIDENTIAL” on the top of that page. The non-confidential version must be clearly marked “PUBLIC”. The file name of the non-confidential version should begin with the character “P”. The “BC” and “P” should be followed by the name of the person or entity submitting the comments or rebuttal comments.
