

Act (5 U.S.C. 601 *et seq.*), after considering the economic impacts of this action on small entities, I certify that this action will not have a significant economic impact on a substantial number of small entities. This action does not contain any unfunded mandates or significantly or uniquely affect small governments as described in Sections 202 and 205 of the Unfunded Mandates Reform Act of 1999 (UMRA) (Pub. L. 104–4). This action does not create new binding legal requirements that substantially and directly affect Tribes under Executive Order 13175 (63 FR 67249, November 9, 2000). This action does not have significant Federalism implications under Executive Order 13132 (64 FR 43255, August 10, 1999). Because this action is exempt from review under Executive Order 12866, this rule is not subject to Executive Order 13211, entitled Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use (66 FR 28355, May 22, 2001) or Executive Order 13045, entitled Protection of Children from Environmental Health Risks and Safety Risks (62 FR 19885, April 23, 1997). This action does not contain any information collections subject to OMB approval under the Paperwork Reduction Act of 1995 (PRA), 44 U.S.C. 3501 *et seq.*, nor does it require any special considerations under Executive Order 12898, entitled Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations (59 FR 7629, February 16, 1994).

This action does involve technical standards. Therefore, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272) (NTTAA) apply. The NTTAA was signed into law on March 7, 1996, and, among other things, directs the National Institute of Standards and Technology (NIST) to bring together Federal agencies as well as state and local governments to achieve greater reliance on voluntary consensus standards and decrease dependence on in-house standards. It states that use of such standards, whenever practicable and appropriate, is intended to achieve the following goals: (a) Eliminate the cost to the government of developing its own standards and decrease the cost of goods procured and the burden of complying with agency regulations; (b) provide incentives and opportunities to establish standards that serve national needs; (c) encourage long-term growth for U.S. enterprises and promote efficiency and economic competition

through harmonization of standards; and (d) further the policy of reliance upon the private sector to supply government needs for goods and services. The Act requires that Federal agencies adopt private sector standards, particularly those developed by standards developing organizations (SDOs), whenever possible in lieu of creating proprietary, non-consensus standards.

This action is compliant with the spirit and requirements of the NTTAA. This action allows for the use of the ASTM International standard known as Standard E1527–21 and entitled “Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process.” By taking this action, EPA is fulfilling the intent and requirements of the National Technology Transfer and Advancement Act of 1995 (NTTAA), Public Law 104–113.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, generally provides that before certain actions may take effect, the agency promulgating the action must submit a report, which includes a copy of the action, to each House of the Congress and to the Comptroller General of the United States. EPA submitted a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2). This rule is effective on May 13, 2022 unless EPA receives adverse comment by May 13, 2022.

Onshore Oil and Gas Operations and Coal Trespass—Annual Civil Penalties Inflation Adjustments

AGENCY: Bureau of Land Management, Interior.

ACTION: Final rule.

SUMMARY: This final rule adjusts the level of civil monetary penalties contained in the Bureau of Land Management’s (BLM) regulations governing onshore oil and gas operations and coal trespass as required by the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015 and consistent with applicable Office of Management and Budget (OMB) guidance. The penalty adjustments made by this final rule constitute the 2022 annual inflation adjustments, accounting for one year of inflation spanning the period from October 2020 through October 2021.

DATES: This rule is effective on March 14, 2022.

I. Background

On November 2, 2015, the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015 (Sec. 701 of Pub. L. 114–74) (the 2015 Act) became law, amending the Federal Civil Penalties Inflation Adjustment Act of 1990 (Pub. L. 101–410).

The 2015 Act requires agencies to:

1. Adjust the level of civil monetary penalties for inflation with an initial “catch-up” adjustment through an interim final rulemaking in 2016;
2. Make subsequent annual adjustments for inflation beginning in 2017; and
3. Report annually in Agency Financial Reports on these inflation adjustments.

The purpose of these adjustments is to maintain the deterrent effect of civil monetary penalties and promote compliance with the law (see Sec. 1, Pub. L. 101–410).

As required by the 2015 Act, the BLM issued an interim final rule that adjusted the level of civil monetary penalties in BLM regulations with the initial “catch-up” adjustment (RIN 1004–AE46, 81 FR 41860), which was published on June 28, 2016, and became effective on July 28, 2016. On January 19, 2017, the BLM published a final rule (RIN 1004–AE49, 82 FR 6305) updating the civil penalty amounts to the 2017 annual adjustment levels. Final rules updating the civil penalty amounts to 2018, 2019, 2020, and 2021 annual adjustment levels were published in subsequent years (RIN 1004–AE51, 83 FR 3992; RIN 1004–AE56, 84 FR 22379; RIN 1004–AE67, 85 FR 10617; and RIN 1004–AE77, 86 FR 30548, respectively).

OMB issued Memorandum M–22–07 on December 15, 2021, (Implementation of Penalty Inflation Adjustments for 2022, Pursuant to the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015) explaining agency responsibilities for identifying applicable penalties and calculating the annual adjustment for 2022 in accordance with the 2015 Act.

II. Calculation of 2022 Adjustments

In accordance with the 2015 Act and OMB Memorandum M–22–07, the BLM has identified applicable civil monetary penalties in its regulations and calculated the annual adjustments. A civil monetary penalty is any assessment with a dollar amount that is levied for a violation of a Federal civil statute or regulation and is assessed or enforceable through a civil action in Federal court or an administrative

proceeding. A civil monetary penalty does not include a penalty levied for violation of a criminal statute, nor does it include fees for services, licenses, permits, or other regulatory review. The calculated annual inflation adjustments are based on the percentage change between the Consumer Price Index for all Urban Consumers (CPI–U) for the October preceding the date of the adjustment and the prior year’s October CPI–U. Consistent with guidance in OMB Memorandum M–22–07, the BLM divided the October 2021 CPI–U by the October 2020 CPI–U to calculate the multiplier. In this case, October 2021 CPI–U (276.589)/October 2020 CPI–U (260.388) = 1.06222. OMB Memorandum M–22–07 confirms that this is the proper multiplier. (OMB Memorandum M–22–07 at 1 and n.4.)

The 2015 Act requires the BLM to adjust the civil penalty amounts in 43 CFR 3163.2 and 43 CFR 9239.5–3(f)(1). To accomplish this, the BLM multiplied the current penalty amounts in those paragraphs by the multiplier set forth in OMB Memorandum M–22–07 (1.06222) to obtain the adjusted penalty amounts. The 2015 Act requires that the resulting amounts be rounded to the nearest \$1.00 at the end of the calculation process.

The adjusted penalty amounts will take effect immediately upon publication of this rule. Pursuant to the 2015 Act, the adjusted civil penalty amounts apply to civil penalties assessed after the date the increase takes effect, even if the associated violation predates such increase. This final rule adjusts the following civil penalties:

CFR citation	Description of the penalty	Current penalty	Adjusted penalty
43 CFR 3163.2(b)(1)	Failure to comply	\$1,128	\$1,198
43 CFR 3163.2(b)(2)	If corrective action is not taken	11,292	11,995
43 CFR 3163.2(d)	If transporter fails to permit inspection for documentation	1,128	1,198
43 CFR 3163.2(e)	Failure to permit inspection, failure to notify	22,584	23,989
43 CFR 3163.2(f)	False or inaccurate documents; unlawful transfer or purchase	56,460	59,973
43 CFR 9239.5–3(f)(1)	Coal exploration for commercial purposes without an exploration license	4,227	4,490

III. Procedural Requirements

A. Administrative Procedure Act

In accordance with the 2015 Act, agencies must adjust civil monetary penalties “notwithstanding Section 553 of the Administrative Procedure Act” (sec. 4(b)(2), 2015 Act). The BLM is promulgating this 2022 inflation adjustment for civil penalties as a final rule pursuant to the provisions of the 2015 Act and OMB guidance. A proposed rule is not required because the 2015 Act expressly exempts the annual inflation adjustments from the

notice and comment requirements of the Administrative Procedure Act. In addition, since the 2015 Act does not give the BLM any discretion to vary the amount of the annual inflation adjustment for any given penalty to reflect any views or suggestions provided by commenters, it would serve no purpose to provide an opportunity for public comment on this rule.

B. Regulatory Planning and Review (Executive Orders 12866 and 13563)

Executive Order (E.O.) 12866 provides that the Office of Information and

Regulatory Affairs (OIRA) in the OMB will review all significant rules. OIRA has determined that this rule is not significant. (See OMB Memorandum M–22–07)

E.O. 13563 reaffirms the principles of E.O. 12866 while calling for improvements in the nation’s regulatory system to promote predictability and to reduce uncertainty and to use the best, most innovative, and least burdensome tools for achieving regulatory ends. E.O. 13563 directs agencies to consider regulatory approaches that reduce burdens and maintain flexibility and

freedom of choice for the public where these approaches are relevant, feasible, and consistent with regulatory objectives. E.O. 13563 emphasizes further that regulations must be based on the best available science, and that the rulemaking process must allow for public participation and an open exchange of ideas. We have developed this rule in a manner consistent with these requirements to the extent permitted by the 2015 Act.

C. Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA) requires an agency to prepare a regulatory flexibility analysis for all rules unless the agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. The RFA applies only to rules for which an agency is required to first publish a proposed rule. See 5 U.S.C. 603(a) and 604(a). The 2015 Act expressly exempts these annual inflation adjustments from the requirement to publish a proposed rule for notice and comment (see sec. 4(b)(2), 2015 Act). Because the final rule in this case does not include publication of a proposed rule, the RFA does not apply to this final rule.

D. Small Business Regulatory Enforcement Fairness Act

This rule is not a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. This rule:

- (a) Will not have an annual effect on the economy of \$100 million or more;
- (b) Will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; and
- (c) Will not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises.

E. Unfunded Mandates Reform Act

This rule does not impose an unfunded mandate on State, local, or tribal governments, or the private sector of more than \$100 million per year. The rule does not have a significant or unique effect on State, local, or tribal governments or the private sector. Therefore, a statement containing the information required by the Unfunded Mandates Reform Act (2 U.S.C. 1531 *et seq.*) is not required.

F. Takings (E.O. 12630)

This rule does not effect a taking of private property or otherwise have takings implications under E.O. 12630.

Therefore, a takings implication assessment is not required.

G. Federalism (E.O. 13132)

Under the criteria in section 1 of E.O. 13132, this rule does not have sufficient federalism implications to warrant the preparation of a federalism summary impact statement. Therefore, a federalism summary impact statement is not required.

H. Civil Justice Reform (E.O. 12988)

This rule complies with the requirements of E.O. 12988. Specifically, this rule:

- (a) Meets the criteria of section 3(a) requiring that all regulations be reviewed to eliminate errors and ambiguity and be written to minimize litigation; and
- (b) Meets the criteria of section 3(b)(2) requiring that all regulations be written in clear language and contain clear legal standards.

I. Consultation With Indian Tribes (E.O. 13175 and Departmental Policy)

The Department of the Interior strives to strengthen its government-to-government relationship with Indian tribes through a commitment to consultation with Indian tribes and recognition of their right to self-governance and tribal sovereignty. We have evaluated this rule under the Department's consultation policy and under the criteria in E.O. 13175 and have determined that it has no substantial direct effects on federally recognized Indian tribes and that consultation under the Department's tribal consultation policy is not required.

J. Paperwork Reduction Act

This rule does not contain information collection requirements, and a submission to OMB under the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*) is not required. We may not conduct or sponsor, and you are not required to respond to, a collection of information unless it displays a currently valid OMB control number.

K. National Environmental Policy Act

A detailed statement under the National Environmental Policy Act of 1969 (NEPA) is not required because, as a regulation of an administrative nature, the rule is covered by a categorical exclusion (see 43 CFR 46.210(i)). We have also determined that the rule does not involve any of the extraordinary circumstances listed in 43 CFR 46.215 that would require further analysis under NEPA.

L. Effects on the Energy Supply (E.O. 13211)

This rule is not a significant energy action under the definition in E.O. 13211. Therefore, a Statement of Energy Effects is not required.
