Abstract: The Toxic Substances Control Act (TSCA) amendments of June 22, 2016, known as the Frank R. Lautenberg Chemical Safety for the 21st Century Act, expanded the categories of people to whom EPA may disclose TSCA confidential business information (CBI). The amendments authorize EPA

to disclose TSCA CBI to state, tribal, and local governments; environmental, health, and medical professionals; and emergency responders, under certain conditions, including consistency with guidance that EPA is required to develop.

Three guidance documents have been developed, corresponding to the new authorities in TSCA section 14(d)(4), (5), and (6). The conditions for access vary under each of the new provisions, but generally include the following: Requesters must show that they have a need for the information related to their employment, professional, or legal duties; recipients of TSCA CBI are prohibited from disclosing or permitting further disclosure of the information to individuals not authorized to receive it (physicians/nurses may disclose the information to their patient); and except in emergency situations EPA must notify the entity that made the CBI claim at least 15 days prior to disclosing the CBI. In addition, under these new provisions, requesters (except in some emergency situations) are required to sign an agreement and may be required to submit a statement of need to EPA. In accordance with the requirements of TSCA section 14(c)(4)(B), the guidance documents cover the content and form of the agreements and statements required under each provision and include information on where and how to submit requests to EPA.

Form numbers: Not applicable.

Respondents/affected entities:

Respondents affected by this activity are mainly government employees (federal, state, local, tribal), as well as medical professionals, such as doctors and nurses.

Respondent's obligation to respond: Voluntary.

Frequency of response: On occasion.

Estimated number of respondents: 6 (total).

Total estimated burden: 89 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$5,873.98 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the estimates: There is an increase in the estimated burden costs compared with that currently approved by OMB. The increase in the respondent burden and agency costs were caused by an increase in the hourly wages and a change in the methodology to calculate loaded wages (wages plus fringe benefits and overhead). The change in the estimated number of respondents is based on EPA experience. The changes,

which are discussed in more detail in the ICR, qualify as an adjustment.

Director, Regulatory Support Division.

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. Abstract: The purpose of this information collection request is to collect information from applicants to select recipients for the Presidential Innovation Award for Environmental

Educators (PIAEE) program and the President's Environmental Youth Awards (PEYA) program. The U.S. Environmental Protection Agency (EPA or the Agency), in conjunction with the White House Council on Environmental Quality (CEQ), established the PIAEE program to meet the requirements of Section 8(e) of the National Environmental Education Act (20 U.S.C. 5507(e)). The Agency established the PEYA program to meet the requirements of Section 8(d) of the National Environmental Education Act (20 U.S.C. 5507(d)).

Form Numbers: 5900-578, 6500-04.

Respondents/affected entities: K-12 teachers who teach on a full-time basis in a public school that is operated by a local education agency, including schools funded by the Bureau of Indian Affairs. For this program, a local education agency is one as defined by section 198 of the Elementary and Secondary Education Act of 1965 (now codified at 20 U.S.C. 7801(26)).

Respondent's obligation to respond: Required to obtain information from the applicants for PIAEE and PEYA program and assess certain aspects of programs as established under Section 8(e) of the National Environmental Education Act (20 U.S.C. 5507(e)) and Section 8(d) of the National Environmental Education Act (20 U.S.C. 5507(d)) respectively.

Estimated number of respondents: 75 (total per year) for the PIAEE program and 250 (total per year) for the PEYA program.

Frequency of response: Annually.

Total estimated burden: 3,225 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$116,888 per year, includes \$0 capital or operation & maintenance costs.

Changes in the Estimates: There is an increase of 2,475 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is due to the addition of the PEYA application. The individual cost per respondent for internal processing has also risen, due to increases in labor rate estimates.

Director, Regulatory Support Division.
