Pandemic Cover Crop Program;
Corretion

ACTION: Final rule; correction.

SUMMARY: Due to inadvertently having not included valid cover cropping practices because of the timing of acreage reporting, the Federal Crop Insurance Corporation (FCIC) is correcting a final rule that published in the Federal Register on February 11, 2022. The final rule announced the Pandemic Cover Crop Program (PCCP) that provides support for agricultural producers impacted by the COVID–19 pandemic for the 2022 crop year. With a specific focus on strengthening outreach to underserved producers and communities and small and medium agricultural operations, USDA dedicated funding to reaching a broader set of producers than was reached in previous COVID–19 assistance programs. As a part of that initiative, the final rule established PCCP for 2022.

DATES: Effective April 12, 2022.

SUPPLEMENTARY INFORMATION: In FR Doc. 2022–02965, which published on February 11, 2022 at 87 FR 7927, the following corrections are made:

1. On page 7929, in the second column, correct the definition of “eligible insured acres” and in the third column, correct the definition of “eligible WFRP acres” to read as follows:

§ 460.9 [Corrected]

* * * * *

Eligible insured acres means insured acres on which the producer planted a qualifying cover crop after June 15, 2021, during the 2021 crop year, or during the 2022 crop year, as reported on the Farm Service Agency’s (FSA) common land unit(s) (CLU) to FSA via a completed and signed Form 578-Report of Acreage on or before March 15, 2022, or May 31, 2022, for 2022 crop year qualifying cover crops planted after March 15, 2022, which may be prior to FSA’s acreage reporting date, and reported the same CLU(s) on their crop insurance acreage report by the applicable Federal crop insurance acreage reporting date for a 2022 crop year crop insurance policy for a first insured crop.

* * * * *

Eligible WFRP acres means acres on which a person with a 2022 crop year WFRP policy planted a qualifying cover crop after June 15, 2021, during the 2021 crop year, or during the 2022 crop year, as reported on the CLU(s) to FSA via a completed and signed Form 578-Report of Acreage on or before March 15, 2022, or May 31, 2022, for 2022 crop year qualifying cover crops planted after March 15, 2022, which may be prior to FSA’s acreage reporting date.

* * * * *

§ 460.10 [Corrected]

3. On page 7930, in the first column, in paragraph (a)[3], “Only acreage reports that are filed or amended prior to March 15 will be considered for PCCP” is corrected to read

“Only acreage reports that are filed or amended prior to March 15, 2022, (or May 31, 2022, for 2022 crop year qualifying cover crops planted after March 15, 2022), will be considered for PCCP”.

Revisions to Civil Penalty Amounts

AGENCY: Department of Transportation (DOT or the Department).

ACTION: Final rule.

SUMMARY: This final rule provides the statutorily-prescribed 2022 adjustment to civil penalty amounts that may be imposed for violations of certain DOT regulations. In addition, this rule notes new DOT civil penalties authority provided in the Bipartisan Infrastructure Law (BIL, enacted as the Infrastructure Investment and Jobs Act).

DATES: This rule is effective March 21, 2022.

FOR FURTHER INFORMATION CONTACT: Elizabeth Kohl, Attorney-Advisor,

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

This rule implements the Federal Civil Penalties Inflation Adjustment Act of 1990 (FCPIAA), Public Law 101–410, as amended by the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015 (2015 Act), Public Law 114–74, 129 Stat. 599, codified at 28 U.S.C. 2461 note. The FCPIAA and the 2015 Act require Federal agencies to adjust minimum and maximum civil penalty amounts to preserve their deterrent impact. The 2015 Act amended the formula and frequency of the adjustments. It required an initial catch-up adjustment in the form of an interim final rule, followed by annual adjustments of civil penalty amounts using a statutorily mandated formula. Section 4(b)(2) of the 2015 Act specifically directs that the annual adjustment be accomplished through final rule without notice and comment. This rule is effective immediately.

This rule also notes new DOT authority to assess civil penalties for violations of requirements related to newly manufactured and operating railroad freight cars. The authority to assess these civil penalties was provided in the BIL, enacted as the Federal Civil Penalties Inflation Adjustment Act of 1990 (FCPIAA), Public Law 101–410, as amended by the 2015 Act, which amended the FCPIAA, to improve the effectiveness of civil monetary penalties and to maintain their deterrent effect. The 2015 Act requires Federal agencies to: (1) Adjust the level of civil monetary penalties with an initial “catch-up” adjustment through an interim final rule (IFR); and (2) make subsequent annual adjustments.

The 2015 Act directed the Office of Management and Budget (OMB) to issue guidance on implementing the required annual adjustment no later than December 15 of each year. On December 15, 2021, OMB released this required guidance, in OMB Memorandum M22–07, which provides instructions on how to calculate the 2022 annual adjustment. To derive the 2022 adjustment, the Department must multiply the maximum or minimum penalty amount by the percent change between the October 2021 Consumer Price Index for All Urban Consumers (CPI–U) and the October 2020 CPI–U. In this case, as explained in OMB Memorandum M–22–07, the percent change between the October 2021 CPI–U and the October 2020 CPI–U is 1.06222.

II. Issuance of a Final Rule

This final rule is being published without notice and comment and with an immediate effective date. The 2015 Act provides clear direction for how to adjust the civil penalties, and clearly states at section 4(b)(2) that this adjustment shall be made “notwithstanding section 553 of title 5, United States Code.” By operation of the 2015 Act, DOT must publish an annual adjustment by January 15 of every year, and the new levels take effect upon publication of the rule.

In addition, as noted previously in the discussion of the authority for this rulemaking, the BIL (Infrastructure Investment and Jobs Act, section 22425) provides authority for DOT to assess civil penalties for violations of requirements related to newly manufactured and operating railroad freight cars. DOT does not have discretion in this rulemaking to change the specified penalties set out in the statute. In addition, the statute directs DOT to issue any necessary implementing regulations and specifies that violations for which penalties may be assessed occur after the issuance of such regulations. As a result, no new civil penalties are being established in this rulemaking.

Accordingly, DOT is publishing this final rule without prior notice and comment, and with an immediate effective date.

III. Discussion of the Final Rule

In 2016, OST and DOT’s operating administrations with civil monetary penalties promulgated the “catch up” IFR required by the 2015 Act. All DOT operating administrations have already finalized their “catch up” IFRs, and this rule makes the annual adjustment required by the 2015 Act.

The Department emphasizes that this rule adjusts penalties prospectively, and therefore the penalty adjustments made by this rule will apply only to violations that take place after this rule becomes effective. This rule also does not change previously assessed or enforced penalties that DOT is actively collecting or has collected.

² Note that the reference to this penalty amount in the regulatory text at 14 CFR 383.2(b) was edited to reference that same penalty amount in 14 CFR 383.2(a). The edit was made to simplify reference to this penalty amount in 14 CFR 383.2 by referencing the dollar amount only once. Note also that the penalty amount in the 14 CFR 383.2(b) was incorrectly stated in DOT’s 2021 civil monetary penalty (CMP) update as $1,483 rather than $1,548.

This rulemaking, by referencing the correct amount in 14 CFR 383.2(a), correct that error.

### C. National Highway Traffic Safety Administration (NHTSA) 2022 Adjustments

NHTSA’s 2022 civil penalty adjustments are summarized in the chart below. DOT’s annual civil monetary penalty adjustments have not included adjustments of NHTSA’s civil penalties for violations of applicable corporate average fuel economy (CAFE) standards. Those standards, including any statutorily-required adjustments, are being addressed in a separate rulemaking proceeding (see NHTSA’s supplemental notice of proposed rulemaking published in August 2021 (86 FR 46811 (Aug. 20, 2021)). Subsequent to conclusion of that rulemaking proceeding, DOT intends to update the CAFE civil penalties addressed in that rulemaking in the DOT annual civil monetary penalties adjustment.

On November 15, 2021, the BIL (enacted as the Infrastructure Investment and Jobs Act, Pub. L. 117–58), was signed into law. The statute set forth requirements related to: (1) For newly manufactured railroad freight cars, manufactured by qualified manufacturers at qualified facilities, the inclusion of sensitive technology from countries of concern or sourced from a state-owned enterprise, and the inclusion of content other than sensitive technology from countries of concern or state-owned enterprises that meet certain specified criteria; and (2) for freight cars operating on the United States general railroad system, percentage limitations on railroad freight car content, originating from a country of concern or state-owned enterprise. The statute further directed the Secretary to issue any necessary implementing regulations, including for the monitoring and sensitive technology requirements. The statute also specified that the requirements for both newly manufactured and operating railroad freight cars would apply after issuance of the regulations. DOT acknowledges the civil penalties authority and direction to issue any necessary implementing regulations set forth in the statute.

Regulatory Analysis and Notices

A. Executive Order 12866 and DOT Regulatory Policies and Procedures

This final rule has been evaluated in accordance with existing policies and procedures and is considered not significant under Executive Order 12866 and DOT’s Regulatory Policies and Procedures; therefore, the rule has not been reviewed by the Office of Management and Budget (OMB) under Executive Order 12866.

B. Regulatory Flexibility Analysis

The Department has determined the Regulatory Flexibility Act of 1980 (RFA) (5 U.S.C. 601, et seq.) does not apply to this rulemaking. The RFA applies, in pertinent part, only when "an agency is required . . . to publish general notice of proposed rulemaking." 5 U.S.C. 604(a). The Small Business Administration’s A Guide for Government Agencies: How to Comply with the Regulatory Flexibility Act (2012), explains that:

If, under the [Administrative Procedure Act (APA)] or any rule of general applicability governing federal grants to state and local governments, the agency is required to publish a general notice of proposed rulemaking (NPRM), the RFA must be considered [citing 5 U.S.C. 604(a)]. If an NPRM is not required, the RFA does not apply.

As stated above, DOT has determined that good cause exists to publish this final rule without notice and comment procedures under the APA. Therefore, the analytical requirements of the RFA do not apply.

C. Executive Order 13132 (Federalism)

This final rule has been analyzed in accordance with the principles and criteria contained in Executive Order 13132 (“Federalism”). This regulation has no substantial direct effects on the States, the relationship between the National Government and the States, or the distribution of power and responsibilities among the various levels of government. It does not contain any provision that imposes substantial direct compliance costs on State and local governments. Therefore, the consultation and funding requirements of Executive Order 13132 do not apply.

D. Executive Order 13175

This final rule has been analyzed in accordance with the principles and criteria contained in Executive Order 13175, Consultation and Coordination with Indian Tribal Governments. Because none of the measures in the rule have tribal implications or impose substantial direct compliance costs on Indian tribal governments, the funding and consultation requirements of Executive Order 13175 do not apply.

E. Paperwork Reduction Act

Under the Paperwork Reduction Act, before an agency submits a proposed collection of information to OMB for approval, it must publish a document in the Federal Register providing notice of and a 60-day comment period on, and otherwise consult with members of the public and affected agencies concerning, each proposed collection of information. This final rule imposes no new information reporting or record keeping necessitating clearance by OMB.

F. National Environmental Policy Act

The Department has analyzed the environmental impacts of this final rule pursuant to the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321, et seq.) and has determined that it is categorically excluded pursuant to DOT Order 5610.1C, Procedures for Considering Environmental Impacts (44 FR 56420, Oct. 1, 1979, as amended July 13, 1982, and July 30, 1985). Categorical exclusions are actions identified in an agency’s NEPA implementing procedures that do not normally have a significant impact on the environment and therefore do not require either an environmental assessment (EA) or
environmental impact statement (EIS). See 40 CFR 1508.4. In analyzing the applicability of a categorical exclusion, the agency must also consider whether extraordinary circumstances are present that would warrant the preparation of an EA or EIS. Id. Paragraph 4(c)(5) of DOT Order 5610.1C incorporates by reference the categorical exclusions for all DOT Operating Administrations. This action qualifies for a categorical exclusion in accordance with FAA Order 1050.1F, Environmental Impacts: Policies and Procedures (80 FR 44208, July 24, 2015), paragraph 5–6.6.f, which covers regulations not expected to cause any potentially significant environmental impacts. The Department does not anticipate any environmental impacts, and there are no extraordinary circumstances present in connection with this final rule.

G. Unfunded Mandates Reform Act

The Department analyzed the final rule under the factors in the Unfunded Mandates Reform Act of 1995. The Department considered whether the rule includes a Federal mandate that may result in the expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of $100,000,000 or more (adjusted annually for inflation) in any one year. The Department has determined that this final rule will not result in such expenditures. Accordingly, no further assessment or analysis is required under the Unfunded Mandates Reform Act.
