SUPPLEMENTARY INFORMATION: The 15-member John Day-Snake RAC was chartered and members are appointed by the Secretary of the Interior. Its diverse perspectives are represented in commodity, conservation, and general interests. It provides advice to the BLM and, as needed, to U.S. Forest Service resource managers regarding management plans and proposed resource actions on public land in the John Day-Snake area.

The Planning Subcommittee was established to gather information, conduct research, and analyze relevant issues and facts on selected topics for future consideration by the RAC. The Subcommittee's primary goal is to provide information to the RAC members that allows them to better respond to time-sensitive issues, such as responding to an environmental document within the public comment period. No decisions are made at the subcommittee level. The Subcommittee will gather information on recreation fee proposals at the September meeting for consideration by the RAC during its October meeting.

The RAC's October meeting will include presentations on a Malheur National Forest recreation fee proposal for selected developed cabins and campgrounds, and a Central Oregon Field Office fee proposal for John Day River. The afternoon field tour is to the Restoration Fuels thermal treatment facility where the RAC will learn about methods that utilize tree thinnings and low-value wood materials from stewardship projects in national forests and private-land treatments to produce fuel for energy. Participants must register to attend the field tour at least 14 days in advance using the contact contained in the **FOR FURTHER INFORMATION CONTACT** section of this

notice. Members of the public are welcome on field tours but must provide their own transportation and meals. Individuals who plan to attend and need special assistance, such as sign language interpretation and other reasonable accommodations, should contact the BLM (see **FOR FURTHER INFORMATION CONTACT**). Meetings and field tours will follow current Centers for Disease Control and Prevention COVID–19 guidance regarding social distancing and wearing of masks. Standing agenda items include management of energy and minerals, timber, rangeland and grazing, commercial and dispersed recreation, wildland fire and fuels, and wild horses and burros; review of or recommendations regarding proposed actions by Vale or Prineville BLM districts and the Wallowa-Whitman, Umatilla, Malheur, Ochoco, and Deschutes National Forests; and any other business that may reasonably come before the RAC.

The Designated Federal Officer will attend the call, take minutes, and publish these minutes on the RAC's web page (see **ADDRESSES**). All calls/meetings are open to the public in their entirety.
