During the course of the investigation, Philips moved to terminate the investigation as to various claims, patents, and respondents, including LG and MediaTek. See Order No. 19, unreviewed by Comm’n Notice (Apr. 15, 2021), Order No. 21, unreviewed by Comm’n Notice (May 12, 2021), Order No. 26, unreviewed by Comm’n Notice (Jun 21, 2021), Order 32, unreviewed by Comm’n Notice (July 26, 2021), Order No. 40, unreviewed by Comm’n Notice (Aug. 2, 2021), and Order No. 46, unreviewed by Comm’n Notice (Aug. 10, 2021). The Respondents remaining in the investigation are Dell, Hisense, HP, Lenovo, TCL, Realtek, and Intel (together, “the Respondents”). The remaining asserted patent claims are: claims 1, 9, 11, 12, and 14 of the ’186 patent; and claims 1, 18, 19, 21, and 25 of the ’564 patent.

On October 21, 2021, the ALJ issued the subject ID. On November 2, 2021, Philips and OUII each filed petitions for review. Also, on November 2, 2021, Respondents Intel, HP, Dell, and Lenovo filed a contingent petition for review, and Respondents HP, Realtek, Dell, Lenovo, Hisense, and TCL filed a separate contingent petition for review. On November 10, 2021, Philips, OUII, and the Respondents each filed replies.

On December 20, 2021, the Commission determined to review the ID in part. Specifically, the Commission determined to review the ID’s findings on claim construction, infringement, validity, and domestic industry for both of the ’186 and ’564 patents. Comm’n Notice of Review (Dec. 20, 2021). The Commission asked for briefing on certain issues under review and on remedy, bonding, and the public interest. The parties filed their initial responses on January 7, 2022 and their replies on January 14, 2022.

Having examined the record of this investigation, including the ID, the petitions for review, responses, and other submissions from the parties and the public, the Commission has determined that no violation of section 337 has occurred. Specifically, the Commission finds that the asserted claims of the ’186 and ’564 patents are not infringed and the domestic industry products do not practice the claims of the ’186 and ’564 patents. The Commission also takes no position on various issues, as set forth in the accompanying Opinion, including on the economic prong of the domestic industry requirement, anticipation, obviousness, and whether the written description requirement is met for the claim terms “predetermined time” and “certificate.” The Commission’s determinations are explained more fully in the accompanying Opinion. All findings in the ID under review that are consistent with the Commission’s determinations as set forth in the accompanying Opinion are affirmed.

The Commission vote for this determination took place on March 23, 2022.

Lisa Barton, Secretary to the Commission.

DEPARTMENT OF LABOR

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Health Standards for Diesel Particulate Matter Exposure (Underground Metal and Nonmetal Mines)

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Mine Safety and Health Administration (MSHA)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before April 28, 2022.

ADDRESS:

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) if the information will be processed and used in a timely manner; (3) the accuracy of the agency’s estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (4) ways to enhance the quality, utility and clarity of the information collection; and (5) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

SUPPLEMENTARY INFORMATION: Section 103(h) of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. 813(h), authorizes MSHA to collect information necessary to carry out its duty in protecting the safety and health of miners. Further, section 101(a) of the Mine Act, 30 U.S.C. 811(a), authorizes the Secretary of Labor to develop, promulgate, and revise as may be appropriate, improved mandatory health or safety standards for the protection of life and prevention of injuries in coal and metal and nonmetal mines. The diesel particulate matter (DPM) regulation established a permissible exposure limit to total carbon, which is a surrogate for measuring a miner’s exposure to DPM. These regulations include several other requirements for the protection of miners’ health. For additional substantive information about this ICR, see the related notice published in the Federal Register on December 10, 2021 (86 FR 70538).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.
