

SUPPLEMENTARY INFORMATION:

Title: Cooperative Wildland Fire Management and Stafford Act Response Agreements.

OMB Number: 0596–0242.

Expiration Date of Approval: June 30, 2022.

Type of Request: Renewal without revision to an existing information collection.

Abstract: To allow the performance of specific activities in cooperation with Federal, State, local, and Tribal governments, Congress enacted authorities allowing the United States Department of Agriculture (USDA) and United States Department of the Interior (DOI) to enter into cooperative agreements with fire organizations to improve efficiency.

These include:

1. Facilitating the coordination and exchange of personnel, equipment, supplies, services, and funds among the parties.
2. Sustaining Wildland Fire Management activities, such as prevention, preparedness, communication and education, fuels treatment and hazard mitigation, fire planning.
3. Response strategies, tactics and alternatives, suppression and post-fire rehabilitation and restoration.
4. Allow for the parties to respond to presidentially declared emergencies or disasters.

The primary authorities allowing for the agreements are the Reciprocal Fire Protection Act, 42 U.S.C 1856, and the Stafford Act, 42 U.S.C. 5121. The proposed Cooperative Wildland Fire Management and Stafford Act Response Agreement template will allow authorized agencies to streamline coordination with other Federal, State, local, and Tribal governments in wildland fire protection activities, and to document in an agreement the roles and responsibilities among the parties, ensuring maximum protection of resources.

To negotiate, develop, and administer Cooperative Wildland Fire Management and Stafford Act Response Agreements, the USDA Forest Service, DOI Bureau of Land Management, DOI Fish and Wildlife Service, DOI National Park Service, and DOI Bureau of Indian Affairs must collect information from willing State, local, and Tribal governments from the pre-agreement to the closeout stage via telephone calls, emails, postal mail, and person-to-person meetings. There are multiple means to communicate responses, which include forms, optional forms, templates, electronic documents, in person, telephone, and email. The scope

of information collected includes the project type, project scope, financial plan, statement of work, and cooperator's business information. Without the collected information, authorized Federal agencies would not be able to negotiate, create, develop, and administer cooperative agreements with stakeholders for wildland fire protection, approved fire severity activities, and presidentially declared emergencies or disasters. Authorized Federal agencies would be unable to develop or monitor projects, make payments, or identify financial and accounting errors.

The regulations governing Federal financial assistance relationships are not applicable to agreement templates under this information collection request. The regulations in 2 CFR 200 set forth the general rules that are applicable to all grants and cooperative agreements made by the Department of Agriculture and Department of the Interior. Because the Federal government's use of Cooperative Wildland Fire Management and Stafford Act Response Agreements entered into under cited Federal statutes are not financial assistance for the benefit of the recipient, but instead are entered into for the mutual benefit of the Federal government and the non-Federal cooperators, the assistance regulations in 2 CFR 200, as adopted and supplemented by the Department of Start Printed Page 59768 Agriculture and Department of Interior, are not applicable to such agreements.

This is an information collection request reinstatement. The Cooperative Wildland Fire Management and Stafford Act Response Agreement template can be viewed at www.fs.fed.us/managing-land/fire/master-agreement-template.
