DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

April 1, 2022.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by May 6, 2022 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Economic Research Service

Title: Conservation Auction Behavior: Effects of Default Offers and Score Updating.

OMB Control Number: 0536–NEW.

Summary of Collection: Data collection for this project is conducted under the authority of the 7 U.S.C. 2204(a). This data collection will use an online simulated auction experiment with former participants in the USDA Conservation Reserve Program (CRP) general signup to (1) Study the anchoring effect of using a high-scoring default offer in the CRP enrollment software rather than an active-choice default, and (2) study how the timing of information about final ranking score in the software influences responsive to baseline ranking scores. Outputs for the experiment will be used to inform potential updates to the CRP software and enrollment software as well as future lab experiments on general conservation auctions.

Need and Use of the Information: This study will collect data on choice made using a lab-in-the-field experiment, in which the study participants, farmers who have previously participated in a recent CRP signup, will be asked to make a set of hypothetical offers to a simulated CRP signup. The data collection is being conducted by USDA Economic Research Service in collaboration with researchers from the University of Delaware's Center for Behavioral and Experimental Agrienvironmental Research. This information will potentially be of use to USDA's Farm Service Agency when conducting signups for CRP.

If this study is not conducted, USDA would lack context-specific research when considering program spending on software redesign to change the defaults used in the enrollment software or training of field agents to change the defaults used when advising farmers on program enrollment.

Description of Respondents: Farmers or Farmland Owners.

Number of Respondents: 11,000.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 1,467.

Notice of Proposed New Fee Sites

AGENCY: Forest Service, Agriculture (USDA).

ACTION: Notice of proposed new fee sites.

SUMMARY: The Rio Grande National Forest is proposing to charge new fees at multiple recreation sites listed in **SUPPLEMENTARY INFORMATION** of this notice. Funds from fees would be used for operation, maintenance, and improvements of these recreation sites. An analysis of nearby developed recreation sites with similar amenities shows the proposed fees are reasonable and typical of similar sites in the area.

DATES: If approved, the new fees would be implemented no earlier than six months following the publication of this notice in the **Federal Register**.

ADDRESSES: Rio Grande National Forest, Attention: Recreation Fees, 1803 West Highway 160, Monte Vista, CO 81144.

FOR FURTHER INFORMATION CONTACT: Carlos Gonzales, Recreation Program Manager at 719–852–6221 or carlos.gonzales2@usda.gov.

SUPPLEMENTARY INFORMATION: The Federal Recreation Lands Enhancement Act (Title VII, Pub. L. 108–447) directed the Secretary of Agriculture to publish a six-month advance notice in the **Federal Register** whenever new recreation fee areas are established. The fees are only proposed at this time and will be determined upon further analysis and public comment. Reasonable fees, paid by users of these sites, will help ensure that the Forest can continue maintaining and improving recreation sites like this for future generations.

As part of this proposal, the Cathedral, Comstock, Ivy Creek, Lost Trail, Rio Grande, Road Canyon, and Rock Creek campgrounds are proposed at \$10 per night. In addition, this proposal would implement new fees at

two recreation rentals: Duncan Cabin proposed at \$40 per night and Alamosa Guard Station at \$55 per night.

New fees would provide increased visitor opportunities as well as increased staffing to address operations and maintenance needs and enhance customer service. Once public involvement is complete, these new fees will be reviewed by the Rocky Mountain Regional Office prior to a final decision and implementation.

Advanced reservations for cabins will be available through www.recreation.gov or by calling 1-877-444-6777. The reservation service charges an \$8.00 fee for reservations.

Dated: April 1, 2022.

Sandra Watts,

Acting Associate Deputy Chief, National Forest System.

SUPPLEMENTARY INFORMATION:

Title: Disposal of National Forest Timber, Timber Export and Substitution Restrictions.

OMB Number: 0596-0114.

Expiration Date of Approval: May 31, 1999.

Type of Request: Reinstatement of an Information Collection.

Abstract: Pursuant to statutory requirements at 16 U.S.C. 620, each person who acquires, either directly or indirectly, unprocessed timber originating from Federal lands west of the 100th meridian in the contiguous 48 States shall report the receipt and disposition of such timber to the Secretary concerned, in such form as such Secretary may by rule prescribe.

For the USDA Forest Service, such report shall be on a calendar year basis and shall be sent to the Regional Forester, or other official to whom such authority is delegated, who administers the National Forest System lands from which the majority of timber originated, not later than March 1 of each year, beginning March 1, 1997.

Respondents are persons who acquire timber originating from National Forest System lands west of the 100th meridian in the contiguous 48 States. The data collected are used by the agency to monitor and enforce statutory

requirements that Federal timber is not exported or used in direct or indirect substitution for private timber that is exported. Data gathered in this information collection is not available from other sources.

Forms Associated With This Information Collection

FS-2400-59—Certification of Receipt and Disposition of Timber Originating from National Forest System Lands: This form will be used to collect and certify the sale or company name where NFS timber is acquired from, the date acquired, National Forest, Contract number and brand code or brand, name of entity to whom NFS timber was sold or transferred, description of the relationship with the entity to whom NFS timber was sold or transferred, date disposed, volume acquired, volume domestically processed by purchaser or affiliates, and volume sold or transferred for domestic processing.

Estimate of Burden: 240 minutes.

Type of Respondents: Individuals, large and small businesses, and corporations who acquire National Forest System timber.

Estimated Number of Respondents: 1,000.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 4,000 hours.

Comment is Invited: The agency invites comments on the following: (a) Whether the proposed collection of information is necessary for the stated purposes or the proper performance of the functions of the agency, including whether the information shall have practical or scientific utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.
