Overview of This Information Collection

1. Type of Information Collection:

Extension of currently approved collection.

2. The Title of the Form/Collection:

National Motor Vehicle Title Information System (NMVTIS).

3. The agency form number, if any, and the applicable component of the Department sponsoring the collection:

None. Bureau of Justice Assistance, Office of Justice Programs, United States Department of Justice.

4. Affected public who will be asked or required to respond, as well as a brief abstract:

Primary: Auto recyclers, junk yards and salvage yards are required to report information into NMVTIS. The Anti-Car Theft Act, defines junk and salvage yards "as individuals or entities engaged in the business of acquiring or owning junk or salvage automobiles for resale in their entirety or as spare parts or for rebuilding, restoration, or crushing." Included in this definition are scrap-vehicle shredders and scrap-metal processors, as well as "pull- or pick-apart yards," salvage pools, salvage auctions, and other types of auctions, businesses, and individuals that handle

salvage vehicles (including vehicles declared a “total loss”).

Abstract: Reporting information on junk and salvage vehicles to the National Motor Vehicle Title Information System (NMVTIS)—supported by the U.S. Department of Justice (DOJ)—is required by federal law. Under federal law, junk and salvage yards must report certain information to NMVTIS on a monthly basis. This legal requirement has been in place since March 2009, following the promulgation of regulations (28 CFR part 25) to implement the junk- and salvage-yard reporting provisions of the Anti-Car Theft Act (codified at 49 U.S.C. 30501–30505). Accordingly, a junk or salvage yard within the United States must, on a monthly basis, provide an inventory to NMVTIS of the junk or salvage automobiles that it obtained (in whole or in part) in the prior month. 28 CFR 25.56(a).

An NMVTIS Reporting Entity includes any individual or entity that meets the federal definition, found in the NMVTIS regulations at 28 CFR 25.52, for a “junk yard” or “salvage yard.” According to those regulations, a junk yard is defined as “an individual or entity engaged in the business of acquiring or owning junk automobiles for—(1) Resale in their entirety or as spare parts; or (2) Rebuilding, restoration, or crushing.” The regulations define a salvage yard as “an individual or entity engaged in the business of acquiring or owning salvage automobiles for—(1) Resale in their entirety or as spare parts; or (2) Rebuilding, restoration, or crushing.” These definitions include vehicle remarketers and vehicle recyclers, including scrap vehicle shredders and scrap metal processors as well as “pull- or pick-apart yards,” salvage pools, salvage auctions, used automobile dealers, and other types of auctions handling salvage or junk vehicles (including vehicles declared by any insurance company to be a “total loss” regardless of any damage assessment). Businesses that operate on behalf of these entities or individual domestic or international salvage vehicle buyers, sometimes known as “brokers” may also meet these regulatory definitions of salvage and junk yards. It is important to note that industries not specifically listed in the junk yard or salvage yard definition may still meet one of the definitions and, therefore, be subject to the NMVTIS reporting requirements.

An individual or entity meeting the junk yard or salvage yard definition is subject to the NMVTIS reporting requirements if that individual or entity handles 5 or more junk or salvage motor vehicles per year and is engaged in the business of acquiring or owning a junk automobile or a salvage automobile for—“(1) Resale in their entirety or as spare parts; or (2) Rebuilding, restoration, or crushing.” Reporting entities can determine whether a vehicle is junk or salvage by referring to the definitions provided in the NMVTIS regulations at 28 CFR 25.52. An NMVTIS Reporting Entity is required to report specific information to NMVTIS within one month of receiving such a vehicle, and failure to report may result in assessment of a civil penalty of \$1,000 per violation.

5. An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: There are currently approximately 8,000 businesses that report on a regular basis into NMVTIS. The estimate for the average amount of time for each business to report varies: 30–60 minutes (estimated). The states and insurance companies already are capturing most of the data needed to be reported, and the reporting consists of electronic, batch uploaded information. So, for those automated companies the reporting time is negligible. For smaller junk and salvage yard operators who would enter the data manually, it is estimated that it will take respondents an average of 30–60 minutes per month to respond.

6. An estimate of the total public burden (in hours) associated with the collection: An estimate of the total public burden (in hours) associated with the collection is 48,000 to 96,000 hours.

Total Annual Reporting Burden:
 $8,000 \times 30 \text{ minutes per month (12 times per year)} = 48,000$
 $8,000 \times 60 \text{ minutes per month (12 times per year)} = 96,000$
If additional information is required contact: Melody Braswell, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution Square, 145 N Street NE, 3E.405A, Washington, DC 20530.

Dated: April 1, 2022.

Melody Braswell,
Department Clearance Officer for PRA, U.S. Department of Justice.
