This document also offers interested parties an opportunity to comment on the 2021 Technical Update.

DATES:

Effective date: This technical update to the guidance is effective April 8, 2022.

Applicability date: The 2021 Technical Update provides an update to two programs included in the 2021 Compliance Supplement published on August 13, 2021 (86 FR 44573) and Addendum 1 published on December 3, 2021 (86 FR 68533) and applies to fiscal year audits beginning after June 30, 2020.

Comments due: All comments to the 2021 Technical Update must be in writing and received by May 9, 2022. Late comments will be considered to the extent practicable.

ADDRESSES: Comments will be reviewed and addressed, when appropriate, in the 2022 Compliance Supplement. Electronic mail comments may be submitted to: <http://www.regulations.gov>. Please include “2 CFR Part 200 Subpart F—Audit

Requirements, Appendix XI—Compliance Supplement—2021 Technical Update” in the subject line and the full body of your comments in the text of the electronic message and as an attachment. The 2021 Technical Update to Part 4 of the two programs (described in the **SUPPLEMENTARY INFORMATION** section) is available online on the CFO home page at <https://www.cfo.gov/policies-and-guidance/>.

FOR FURTHER INFORMATION CONTACT:

Recipients and auditors should contact their cognizant or oversight agency for audit, or Federal awarding agency, as appropriate under the circumstances. The Federal agency contacts are listed in appendix III of the Supplement. Subrecipients should contact their pass-through entity. Federal agencies should contact Gil Tran at Hai_M._Tran@omb.eop.gov or (202) 881-7830 or the OMB Grants team at GrantsTeam@omb.eop.gov.

SUPPLEMENTARY INFORMATION: The 2021 Technical Update (2 CFR part 200, subpart F, and appendix XI to part 200) provides the following update to these two programs:

- The Department of Health and Human Services (HHS) Assistance Listing 93.498 Provider Relief Fund—the update is to remove Part 4—Section III(N)(1) Special Test and Provisions: Out-of-Network Patient Out-of-Pocket Expenses. HHS has determined that the review requirements are no longer meaningful and applicable to the oversight of this program.
- Treasury Assistance Listing 21.027 Coronavirus State and Local Fiscal Recovery Funds (SLFRF)—the update is to provide in Part 4, Section IV—Other Information an alternative audit approach for eligible SLFRF recipients that would otherwise not be required to undergo an audit under 2 CFR part 200, subpart F, if it was not for the

expenditures of SLFRF funds directly awarded by Treasury. This alternative is intended to reduce the burden of a full Single Audit or Program-Specific Audit on eligible recipients (estimated at more than 10,000 entities) and practitioners, as well as uphold Treasury’s responsibility to be good stewards of federal funds.

It also provides an update to the Supplement Part 8 Appendix VII to add the alternative compliance examination engagement in accordance with the Government Accountability Office’s Government Auditing Standards for eligible recipients of the SLFRF.

Deidre A. Harrison,

Acting Controller.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC is amending its regulations in parts 1, 2, 20, 30, 40, 50, 55, 70, 73, and 170 of title 10 of the *Code of Federal Regulations* (10 CFR). The NRC is making these amendments to correct an office title, a reference, a misspelling, and two administrative errors, and to update the street address for the NRC's Region I office.

II. Summary of Changes

10 CFR Parts 1, 20, 30, 40, 55, 70, and 73

Update Street Address. This final rule revises § 1.5(b)(1), appendix D to 10 CFR part 20, § 30.6(b)(2)(i) and (ii), § 40.5(b)(2)(i) and (ii), § 55.5(b)(2)(i), § 70.5(b)(2)(i) and (ii), and appendix A to 10 CFR part 73 to update the street address for the NRC Region I office.

10 CFR Part 2

Correct Office Title. This final rule amends the definition for *Commission Adjudicatory Employee* in § 2.4 by removing the text "Deputy General Counsel for Rulemaking and Policy Support" and adding in its place the text "Deputy General Counsel for Legislation, Rulemaking, and Agency

Administration." This change is made to reflect the realignment of the NRC's Office of the General Counsel.

Correct Administrative Error. This final rule amends § 2.101(a)(5) by removing "an application for a construction permit under part 52 of this chapter" and adding in its place "an application for a construction permit under part 50 of this chapter or a combined license under part 52 of this chapter." Applications for construction permits are governed by 10 CFR part 50 and combined licenses by 10 CFR part 52. This final rule amends § 2.101(a)(5) to correct this error.

10 CFR Part 50

Correct Reference. This final rule amends footnote 1 to § 50.72 by removing the reference "72.216" and adding in its place the references "72.74, 72.75." Section 72.216 was deleted in a 2003 final rule (68 FR 33611; June 5, 2003), and the immediate notification requirements are currently contained in §§ 72.74 and 72.75.

10 CFR Part 70

Correct Spelling. This final rule amends the introductory text of § 70.61(b) to remove the text "paragrahs" and add in its place the text "paragraphs."

10 CFR Part 170

Correct Administrative Error. This final rule revises fee categories B and D in table 1 to § 170.21 to conform to a previous rulemaking. The 2007 final rule, "Licenses, Certifications, and Approvals for Nuclear Power Plants" (72 FR 49351; August 28, 2007), added a new § 52.153, "Relationship to other subparts," to explain how subpart F to 10 CFR part 52 relates to other licensing processes in 10 CFR parts 50 and 52, as well as to the regulatory approvals in 10 CFR part 52. The final rule removed the reference to "preliminary or final" design approvals contained in § 52.153(b) of the proposed rule, inasmuch as the final rule does not provide for preliminary design approvals. Therefore, this final rule makes conforming changes by revising fee categories B and D in table 1 to § 170.21 to remove the references to "preliminary or final" design approvals and replace them with references to "standard" design approvals. Fee category D is further revised to add a comma after the word "Amendment" in "Amendment, Renewal, Other Approvals" for conformity and clarity.

III. Rulemaking Procedure

Under section 553(b) of the Administrative Procedure Act (5

U.S.C.553(b)), an agency may waive publication in the **Federal Register** of a notice of proposed rulemaking and opportunity for comment requirements if it finds, for good cause, that it is impracticable, unnecessary, or contrary to the public interest. As authorized by 5 U.S.C. 553(b)(3)(B), the NRC finds good cause to waive notice and opportunity for comment on these amendments, because notice and opportunity for comment is unnecessary. The amendments will have no substantive impact and are of a minor and administrative nature dealing with corrections to certain CFR sections or are related only to management, organization, procedure, and practice. Specifically, the revisions correct an office title, a reference, a misspelling, and two administrative errors, and update the street address for the NRC's Region I office. The Commission is exercising its authority under 5 U.S.C. 553(b) to publish these amendments as a final rule. The amendments are effective May 9, 2022. These amendments do not require action by any person or entity regulated by the NRC and do not change the substantive responsibilities of any person or entity regulated by the NRC.

IV. Backfitting and Issue Finality

The NRC has determined that the corrections in this final rule would not constitute backfitting as defined in § 50.109, "Backfitting," and as described in NRC Management Directive (MD) 8.4, "Management of Backfitting, Forward Fitting, Issue Finality, and Information Requests." These corrections also would not constitute forward fitting as that term is defined and described in MD 8.4 or affect the issue finality of any approval issued under 10 CFR part 52. The amendments are non-substantive in nature, including correcting an office title, a reference, a misspelling, and two administrative errors, and updating the street address for the NRC's Region I office. They impose no new requirements and make no substantive changes to the regulations. The corrections do not involve any provisions that would impose backfits as defined in 10 CFR chapter I, or that would be inconsistent with the issue finality provisions in 10 CFR part 52. For these reasons, the issuance of this final rule would not constitute backfitting or be inconsistent with any of the issue finality provisions in 10 CFR part 52. Therefore, the NRC has not prepared any additional documentation for this correction rulemaking addressing backfitting or issue finality.

V. Plain Writing

The Plain Writing Act of 2010 (Pub. L. 111–274) requires Federal agencies to write documents in a clear, concise, and well-organized manner. The NRC has written this document to be consistent with the Plain Writing Act as well as the Presidential Memorandum, “Plain Language in Government Writing,” published June 10, 1998 (63 FR 31885).

VI. National Environmental Policy Act

The NRC has determined that this final rule is the type of action described in § 51.22(c)(2), which categorically excludes from environmental review rules that are corrective or of a minor, nonpolicy nature and do not substantially modify existing regulations. Therefore, neither an environmental impact statement nor an environmental assessment has been prepared for this rule.

VII. Paperwork Reduction Act

This final rule does not contain a collection of information as defined in the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) and, therefore, is not subject to the requirements of the Paperwork Reduction Act of 1995.

VIII. Congressional Review Act

This final rule is not a rule as defined in the Congressional Review Act (5 U.S.C. 801–808).

IX. Compatibility of Agreement State Regulations

Under the “Agreement State Program Policy Statement” approved by the Commission on October 2, 2017, and published in the **Federal Register** on October 18, 2017 (82 FR 48535), NRC program elements (including regulations) are placed into compatibility categories A, B, C, D, NRC, or adequacy category Health and Safety (H&S). Compatibility Category A program elements are those program elements that are basic radiation protection standards and scientific terms and definitions that are necessary to understand radiation protection concepts. An Agreement State should adopt Category A program elements in an essentially identical manner in order to provide uniformity in the regulation of agreement material on a nationwide basis. Compatibility Category B program elements are those program elements that apply to activities that have direct and significant effects in multiple jurisdictions. An Agreement State should adopt Category B program elements in an essentially identical manner. Compatibility Category C program elements are those program elements that do not meet the criteria of Category A or B but contain the essential objectives that an Agreement State should adopt to avoid conflict, duplication, gaps, or other conditions that would jeopardize an orderly pattern in the regulation of agreement material

on a national basis. An Agreement State should adopt the essential objectives of the Category C program elements. Compatibility Category D program elements are those program elements that do not meet any of the criteria of Category A, B, or C and, therefore, do not need to be adopted by Agreement States for purposes of compatibility. Compatibility Category NRC program elements are those program elements that address areas of regulation that cannot be relinquished to the Agreement States under the Atomic Energy Act of 1954, as amended, or provisions of 10 CFR. These program elements should not be adopted by the Agreement States. Compatibility Category H&S program elements are program elements that are required because of a particular health and safety role in the regulation of agreement material within the State and should be adopted in a manner that embodies the essential objectives of the NRC program. The portions of this final rule that amend 10 CFR parts 20, 30, 40, and 70 are a matter of compatibility between the NRC and the Agreement States, thereby providing consistency among Agreement State and NRC requirements, and are listed in the following table. The changes to 10 CFR parts 1, 2, 50, 55, 73, and 170 categories are not subject to Agreement State jurisdiction and consequently are not required for compatibility.

Airworthiness Directives; The Boeing Company Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The FAA is adopting a new airworthiness directive (AD) for certain The Boeing Company Model 747-8F and 747-8 series airplanes. This AD was prompted by a report of unusual flight instrument and engine indication and crew alerting system (EICAS) behavior. This AD requires inspecting the left, center, and right electronic flight instrument system (EFIS)/EICAS interface unit (EIU) for certain serial numbers and replacement if necessary. The FAA is issuing this AD to address the unsafe condition on these products.

DATES: This AD is effective May 13, 2022.

The Director of the Federal Register approved the incorporation by reference of a certain publication listed in this AD as of May 13, 2022

SUPPLEMENTARY INFORMATION:

Background

The FAA issued a notice of proposed rulemaking (NPRM) to amend 14 CFR part 39 by adding an AD that would apply to certain The Boeing Company Model 747-8F and 747-8 series airplanes. The NPRM published in the **Federal Register** on November 15, 2021 (86 FR 62960). The NPRM was prompted by a report of unusual flight instrument and EICAS behavior. In the NPRM, the FAA proposed to require inspecting the left, center, and right EFIS/EIU for certain serial numbers and replacement if necessary. The FAA is issuing this AD to address the possible display of incorrect information in the integrated display system (IDS). This condition, if not addressed, could result in reduced ability of the flightcrew to maintain continued safe flight and landing of the aircraft.

Discussion of Final Airworthiness Directive

Comments

The FAA received comments from three commenters, including Boeing, an individual, and Qatar Airways. The following presents the comments received on the NPRM and the FAA's response.

Request To Add Missing Serial Number to List of Affected EIUs

Boeing and Qatar Airways requested a change to the proposed AD to add serial number 181MR2 to the list of affected EIUs. The commenters noted that the unit was inadvertently excluded from the affected serial number list in Figure 1 of Boeing Alert Requirements Bulletin 747-31A2565 RB, Revision 1, dated September 14, 2021. Qatar Airways

noted that Boeing stated that the service information will be revised to include this EIU serial number. Qatar Airways added that including the affected EIU will ensure that affected part does not remain in service while eliminating the need to obtain an alternative method of compliance (AMOC) for accomplishing the actions required by this AD on that EIU.

The FAA agrees with the request. The FAA has confirmed that this is an affected EIU and that the operator with the EIU having serial number 181MR2 is aware that it is affected and plans to replace the unit as required by this AD. The FAA has added paragraph (h)(2) of this AD to clarify that serial number 181MR2 is also an affected EIU. The FAA has also redesignated paragraph (h) of the proposed AD as paragraph (h)(1) of this AD.

Request for Information About Registered Airplanes

An individual commenter asked how the information about the number of affected airplanes was gathered and how many non-U.S. registered planes are affected by the proposed AD.

The FAA gathers this information from public records and from the airplane manufacturer. According to those sources, 68 of the airplanes affected by this AD are registered outside of the United States.

Conclusion

The FAA reviewed the relevant data, considered any comments received, and determined that air safety requires adopting this AD as proposed. Except for minor editorial changes, and any other changes described previously, this AD is adopted as proposed in the NPRM. None of the changes will increase the economic burden on any operator.

Related Service Information Under 14 CFR Part 51

The FAA reviewed Boeing Alert Requirements Bulletin 747-31A2565 RB, Revision 1, dated September 14, 2021. This service information specifies procedures for doing an inspection or a review of the maintenance and delivery records of the left, center, and right EIUs for any affected serial number, and replacing each affected EIU.

This service information is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in **ADDRESSES**.

Costs of Compliance

The FAA estimates that this AD affects 8 airplanes of U.S. registry. The
