The WHEJAC is interested in receiving public comments relevant to Federal disaster preparedness and relief and community resilience. The WHEJAC is seeking comments on the following questions:

(1.) What type of support is needed for disadvantage communities to participate in Federal disaster preparedness or relief programs? (2.) How can Federal disaster relief and aid programs better serve disadvantaged communities that have historically received fewer Federal benefits? (3.) What process steps and information would help eliminate these disparities? (4.) What steps can Federal agencies and the White House take to reduce disparities in climate change impacts for communities, including, but not limited to risks from, extreme heat, flood, wildfire, drought, and coastal challenges? Every effort will be made to hear from as many registered public commenters during the time specified on the agenda. Individuals or groups providing remarks during the public comment period will be limited to three (3) minutes. Please be prepared to briefly describe your comments and recommendations on what you want the WHEJAC to advise CEQ and IAC to do regarding climate Federal disaster
