

51.165. If we finalize this action as proposed, our action will incorporate these certifications into the federally enforceable SIP and be codified through revisions to 40 CFR 52.220 (Identification of plan—in part).

We will accept comments from the public on this proposal until May 16, 2022.

V. Incorporation by Reference

In this proposed rule, the EPA is proposing to include in a final EPA rule regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is proposing to incorporate by reference the certifications listed in Table 1 of this preamble. The EPA has made, and will continue to make, these materials available electronically through <https://www.regulations.gov> and at the EPA Region IX Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

VI. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this proposed action merely proposes to approve state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and

- Does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[**MB Docket No. 22–146; RM–11925; DA 22–367; FRS 81585**]

Television Broadcasting Services Memphis, Tennessee

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Federal Communications Commission (Commission) has before it a petition for rulemaking filed by Gray Television Licensee, LLC (Petitioner), the licensee of WMC–TV, channel 5, Memphis, Tennessee. The Petitioner

requests the substitution of channel 30 for channel 5 at Memphis in the Table of Allotments.

DATES: Comments must be filed on or before May 16, 2022 and reply comments on or before May 31, 2022.

ADDRESSES: Federal Communications Commission, Office of the Secretary, 45 L Street NE, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve counsel for the Petitioner as follows: Joan Stewart, Esq., Wiley Rein LLP, 2050 M Street NW, Washington, DC 20036.

FOR FURTHER INFORMATION CONTACT: Joyce Bernstein, Media Bureau, at (202) 418–1647; or at Joyce.Bernstein@fcc.gov.

SUPPLEMENTARY INFORMATION: In support, the Petitioner states the proposed channel substitution serves the public interest because it will resolve significant over-the-air reception problems in WMC–TV's existing service area. The Petitioner further states that the Commission has recognized the deleterious effects manmade noise has on the reception of digital VHF signals, and that the propagation characteristics of these channels allow undesired signals and noise to be receivable at relatively farther distances compared to UHF channels, and nearby electrical devices can cause interference. According to the Petitioner, an analysis using the Commission's *TVStudy* software tool indicates that WMC–TV's move from channel 5 to channel 30 is predicted to create an area where 4,072 persons are predicted to lose service. The loss area, however, is partially overlapped by the noise limited contours of other NBC affiliated stations and most viewers will continue to receive service from five or more stations. As a result, Petitioner asserts that only 64 persons would no longer receive NBC network programming, or service from five or more full power television services. In practice, Gray expects that few if any persons who are currently able to receive WMC–TV's over-the-air signal on channel 5 would no longer be able to receive WMC–TV's over-the-air signal as a result of the transition to channel 30.

This is a synopsis of the Commission's *Notice of Proposed Rulemaking*, MB Docket No. 22–146; RM–11925; DA 22–367, adopted April 5, 2022, and released April 5, 2022.
