X. Incomplete Applications

Incomplete applications will not be accepted. Please ensure that all forms listed in the announcement are completed and submitted in grants.gov.

XI. Review and Selection Process

Upon receiving a NABDI application, OIED will determine whether the application is complete and that the proposed project does not duplicate or overlap previous or currently funded OIED technical assistance projects. Any proposal that is received after the date and time in the DATES section of this notice will not be reviewed.

The OIED Review Committee, comprised of OIED staff, staff from other Federal agencies, and subject matter experts, will evaluate the proposals against the ranking criteria. Proposals will be evaluated using the four ranking criteria listed below, with a maximum achievable total of 100 points.

Final award selections will be approved by the Assistant Secretary—Indian Affairs and the Associate Deputy Secretary, U.S. Department of the Interior. Applicants not selected for award will be notified in writing.

XII. Evaluation Criteria

The reviewers will determine if the proposal describes the activity within a Native community?

• Does the proposal describe the benefits the project would have if implemented?

• Does the proposal include information how the project will reduce joblessness and stimulate economic activity within a Native community?

• Does the proposal describe the economic development challenges and how the study will address those conditions?

• Does the proposal describe if the applicant has the financial resources to conduct the study and assist NABDI grant assistance?

Project Deliverables: 20 Points

The reviewers will determine if the proposal describes in detail applicable proposed deliverables. For example, a hotel feasibility study would include deliverables such as, but not limited to, site analysis, market demographics, drive-time market, regional competition, market demands, and a financial model that includes investment and return on investment projections.

Project Tasks and Timeline: 10 Points

The reviewers will determine if a comprehensive timeline has been developed to address tasks that are needed to successfully complete the objectives outlined in the scope of work.

Costs of Proposal/Budget: 10 Points

The reviewers will assess the costs listed in the budget to determine if the overall value of the project is competitively priced and in accordance with the goals stated within the proposal/scope of work.

Specificity: 10 Points

The reviewers understand applicants may retain consultant(s) that prepare the NABDI proposal to also conduct the feasibility study if the grant is awarded. This does not prejudice an applicant’s chances of being selected as a grantee. However, the Committee will view unfavorably proposals that show little evidence of communication between the consultant(s) and the applicant or scant regard for the applicant community’s unique circumstances. Facsimile applications prepared by the same consultant(s) and submitted by multiple applicants will receive scrutiny in this regard.

XIII. Transfer of Funds

OIED’s obligation under this solicitation is contingent on receipt of congressionally appropriated funds. No liability on the part of the U.S. Government for any payment may arise until funds are made available to the awarding officer for this grant and until the recipient receives notice of such availability, to be confirmed in writing by the grant officer.

All payments under this agreement will be made by electronic funds transfer through the ASAP. All award recipients are required to have a current and accurate UEI number to receive funds. All payments will be deposited to the banking information designated by the applicant in the System for Award Management (SAM).

XIV. Reporting Requirements for Award Recipients

The applicant must deliver all products and data required by the Grant Agreement for the proposed NABDI feasibility study and
business plan project to OIED within 30 days of the end of each reporting period and 120 days after completion of the project. The reporting periods will be established in the terms and conditions of the final award.

OIED requires that deliverable products be provided in digital format and submitted in the GrantSolutions system. Reports can be provided in either Microsoft Word or Adobe Acrobat PDF format. Spreadsheet data can be provided in Microsoft Excel, Microsoft Access, or Adobe PDF formats. All vector figures should be converted to PDF format. Raster images can be provided in PDF, JPEG, TIFF, or any of the Windows metatile formats. The contract between the grantee and the consultant conducting the NABDI funded feasibility study must include deliverable products and require that the products be prepared in the format described above.

The contract should include budget amounts for all printed and digital copies to be delivered in accordance with the grant agreement. In addition, the contract must specify that all products generated by a consultant belong to the grantee and cannot be released to the public without the grantee’s written approval. Products include, but are not limited to, all reports and technical data obtained, maps, status reports, and the final report.

In addition, this funding opportunity and financial assistance award must adhere to the following provisions.
