(7511M), main telephone number: (202) 566–2427, email address:

BPPDFRNotices@epa.gov; or Marietta Echeverria, Registration Division (RD) (7505P), main telephone number: (703) 305-7090, email address: RDFRNotices@epa.gov. The mailing address for each contact person is: Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001. As part of the mailing address, include the contact person's name, division, and mail code. The division to contact is listed at the end of each application summary. SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

• Crop production (NAICS code 111). • Animal production (NAICS code

112).

 Food manufacturing (NAICS code 311).

B. What should I consider as I prepare my comments for EPA?

1. Submitting CBI. Do not submit this information to EPA through *regulations.gov* or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. Tips for preparing your comments. When preparing and submitting your comments, see the commenting tips at https://www.epa.gov/dockets/ commenting-epa-dockets.

II. Registration Applications

EPA has received applications to register new uses for pesticide products

containing currently registered active ingredients. Pursuant to the provisions of FIFRA section 3(c)(4) (7 U.S.C. 136a(c)(4)), EPA is hereby providing notice of receipt and opportunity to comment on these applications. Notice of receipt of these applications does not imply a decision by the Agency on these applications.

A. Notice of Receipt-New Uses

1. EPA Registration Number: 352–555; 352-768. Docket ID number: EPA-HQ-OPP-2021-0447. Applicant: E.I. du Pont de Nemours and Company, 9330 Zionsville Road Indianapolis, IN 46268. Active ingredient: Rimsulfuron. Product type: Herbicide. Proposed uses: Pomegranates; tropical and subtropical, small fruit, edible peel subgroup 23A. Contact: RD.

2. EPA Registration Number: 7969– 311. Docket ID number: EPA-HQ-OPP-2022-0234. Applicant: BASF Corporation, 26 Davis Drive, P.O. Box 13528, Research Triangle Park, NC 27709-3528. Active ingredient: Fluxapyroxad and Pyraclostrobin. *Product type:* Fungicide. *Proposed use:* Coffee, green bean; stevia, dried leaves; and stevia, fresh leaves. Contact: RD.

3. EPA Registration Number: 7969-312. Docket ID number: EPA-HQ-OPP-2022-0234. Applicant: BASF Corporation, 26 Davis Drive, P.O. Box 13528, Research Triangle Park, NC 27709-3528. Active ingredient: Fluxapyroxad. *Product type:* Fungicide. Proposed use: Coffee, green bean; stevia, dried leaves; and stevia, fresh leaves. Contact: RD.

4. EPA File Symbol: 7969–UIO. Docket ID number: EPA-HQ-OPP-2022-0348. Applicant: BASF Corporation, 26 Davis Dr., Research Triangle, NC, 27709. Active ingredient: Broflanilide. Product type: Insecticide. Proposed Use: Corn seed treatment. Contact: RD.

5. EPA Registration Numbers: 86174-3 and 86174-4. Docket ID number: EPA-HQ-OPP-2022-0305. Applicant: SAN Agrow Holding GmbH, Industriestrasse 21, Herzogenburg 3130, Austria (c/o SciReg, Inc., 12733 Director's Loop, Woodbridge, VA 22192). Active ingredients: Aureobasidium pullulans strain DSM 14940 and Aureobasidium pullulans strain DSM 14941. Product type: Fungicide. Proposed use: Aerial application for numerous crops (e.g., legume, pome fruit, stone fruit, and ornamentals) in agricultural settings. Contact: BPPD.

6. EPA Registration Number: 91746-2. Docket ID number: EPA-HQ-OPP-2022-0324. Applicant: Belchim Crop Protection US Corporation, 2751

Centreville Road, Suite 100, Wilmington, Delaware 19808. Active *ingredient:* Pyridate. *Product type:* Herbicide. Proposed use: Turfgrass and fallow. Contact: RD.

Authority: 7 U.S.C. 136 et seq.

Dated: April 15, 2022.

Delores Barber,

Director, Information Technology and Resources Management Division, Office of Program Support.

Notice of Availability of Draft NPDES General Permits for Dewatering and **Remediation Activity Discharges in** Massachusetts and New Hampshire, Federal Facilities in Vermont, and Indian Country in Connecticut and **Rhode Island: The Dewatering and Remediation General Permit**

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Availability of DRAFT NPDES General Permits MAG910000, NHG910000, VTG910000, CTG910000, and RIG910000.

SUMMARY: The Director of the Water Division, U.S. Environmental Protection Agency—Region 1 (EPA), is providing a notice of availability of draft National Pollutant Discharge Elimination System (NPDES) general permits for discharges from sites engaged in certain dewatering and remediation activities to certain waters in the Commonwealth of Massachusetts and the State of New Hampshire, sites in Connecticut and Rhode Island located on Indian Country lands, and federal facilities in Vermont. The draft NPDES general permits establish electronic Notice of Intent (NOI), Change Notice of Intent (CNOI), and Notice of Termination (NOT) requirements, discharge limitations and requirements, standard and special conditions, and best management practice (BMP) requirements for sites that discharge 1.0 million gallons per day or less. These general permits replace the Dewatering General Permit (DGP) that expired on April 24, 2020, and the Remediation General Permit (RGP) that expires on April 8, 2022. The Draft General Permit is available on EPA Region 1's website. The fact sheet for the draft general permit sets forth principal facts and the significant factual, legal, methodological, and policy questions considered in the

development of the draft general permit and is also available at this website. **DATES:** Comment on the draft general permits must be received on or before May 26, 2022.

ADDRESSES: Comments on the draft DRGP shall be submitted by one of the following methods: (1) Email: *little.shauna@epa.gov;* or (2) Hard Copy: U.S. EPA Region 1, Attn: Shauna Little, 5 Post Office Square, Suite 100, Mail Code OEP06–4, Boston, MA 02109– 3912. Due to the COVID–19 National Emergency, if comments are submitted in hard copy form, please also email a copy to the EPA contact above.

FOR FURTHER INFORMATION CONTACT: Additional information concerning the draft general permits may be obtained between the hours of 9 a.m. and 5 p.m. Monday through Friday, excluding holidays, from Shauna Little, U.S. EPA Region 1, 5 Post Office Square, Suite 100, Mail Code 06-4, Boston, MA 02109-3912; telephone: 617-918-1989; email: *little.shauna@epa.gov.* Following U.S. Centers for Disease Control and Prevention (CDC) and U.S. Office of Personnel Management (OPM) guidance and specific state guidelines impacting our regional offices, EPA's workforce has been directed to telework to help prevent transmission of the coronavirus. While in this workforce telework status, there are practical limitations on the ability of Agency personnel to allow the public to review the administrative record in person at the EPA Boston office. However, any electronically available documents that are part of the administrative record can be requested from the EPA contact above.

SUPPLEMENTARY INFORMATION:

General Information: EPA is proposing to reissue two general permits for discharges from sites engaged in four types of dewatering and remediation activities: (1) Site remediation; (2) Site dewatering; (3) Infrastructure dewatering/remediation; and (4) Material dewatering for four types of wastewaters: (1) Groundwater; (2) Stormwater; (3) Potable water; and (4) Surface water. While the draft general permits were two distinct permits, because of the similarities in both activities and wastewaters, EPA has combined them together in a single document and has provided a single fact sheet. This document refers to the draft general "permit" in the singular. The draft general permit includes effluent limitations and requirements based on technology-based considerations, best professional judgment (BPJ), and water quality considerations. The effluent limits established in the draft general permit assure that the surface water

quality standards of the receiving water(s) are attained and/or maintained. The permit also contains BMP requirements in order to ensure EPA has the information necessary to ensure compliance and to ensure discharges meet water quality standards.

Obtaining Authorization: To obtain authorization to discharge, operators must submit a complete and accurate NOI containing the information described in the draft general permit using EPA's NPDES eReporting Tool (NeT) to electronically prepare and submit the e-NOI for coverage under the DRGP, unless an operator requests and receives a waiver from EPA Region 1. Operators with existing discharges must submit a NOI within 90 days of the effective date of the final general permit. Operators with new discharges must submit a NOI at least 30 days prior to initiating discharges and following the effective date of the final general permit. The effective date of the final general permit will be specified in the **Federal Register** publication of the Notice of Availability of the final permit. Operators must meet the eligibility requirements of the general permit prior to submission of a NOI. An operator will be authorized to discharge under the general permit upon receipt of written notice from EPA. EPA will authorize the discharge 30 days following submission of a NOI, unless additional information is requested, which will place the 30 day period on hold. If an operator is required to apply for an alternative permit or an individual permit, EPA will inform the operator in writing.

Other Legal Requirements: Endangered Species Act (ESA): In accordance with the ESA, EPA has updated the provisions and necessary actions and documentation related to potential impacts to endangered species from sites seeking coverage under the draft general permit. Concurrently with the public notice of the draft general permit, EPA will initiate an informal consultation with the National Oceanic and Atmospheric Administration, National Marine Fisheries Service (NOAA Fisheries) under ESA section 7, through the submission of a letter and biological assessment (BA) summarizing the results of EPA's assessment of the potential effects to endangered and threatened species and their critical habitats under NOAA Fisheries jurisdiction as a result of EPA's issuance of the draft general permit. In this document, EPA has made a preliminary determination that the proposed issuance of the draft general permit is not likely to adversely affect the shortnose sturgeon, Atlantic sturgeon, or designated critical habitat for Atlantic

sturgeon, as well as coastal protected whales and sea turtles. EPA will request that NOAA Fisheries review this submittal and inform EPA whether it concurs with this preliminary finding.

In addition, EPA has concluded that the DRGP is consistent with activities analyzed in the USFWS January 5, 2016, Programmatic Biological Opinion (PBO) regarding the threatened northern longeared bat.

Essential Fish Habitat (EFH): Under the 1996 Amendments (PL 104-267) to the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq. (1998)), EPA is required to consult with NOAA Fisheries if EPA's actions or proposed actions that it funds, permits or undertakes "may adversely impact any essential fish habitat." 16 U.S.C. 1855(b). EPA has determined that the permit action may adversely affect the EFH of designated species. The draft general permit has been conditioned to minimize any impacts that reduce the quality and/or quantity of EFH. Additional mitigation is not warranted under Section 305(b)(2) of the Magnuson-Stevens Act. Concurrent with the public notice of the draft general permit, EPA will initiate consultation with NOAA Fisheries by providing this determination for their review. National Historic Preservation Act (NHPA): Activities which adversely affect properties listed or eligible for listing in the National Registry of Historic Places under the NHPA are not authorized to discharge under the draft general permit. Operators must review all reasonable information to ensure that activities are not subject to this limitation on coverage and provide certification in the NOI submitted to EPA.

Coastal Zone Management Act (CZMA): The CZMA, 16 U.S.C. 1451 et seq., and its implementing regulations (15 CFR part 930) require a determination that any federally licensed activity affecting the coastal zone with an approved Coastal Zone Management Program (CZMP) is consistent with the CZMA. Concurrent with the public notice of the draft general permit, EPA will request that the Executive Office of Environmental Affairs, MA CZM, provide a consistency concurrence that the proposed draft general permit is consistent with the MA CZMPs.

Authority: This action is being taken under the Clean Water Act, 33 U.S.C. 1251 *et seq.*

Forty-First Update of the Federal Agency Hazardous Waste Compliance Docket

AGENCY: Environmental Protection Agency (EPA). **ACTION:** Notice.

SUMMARY: Since 1988, the Environmental Protection Agency (EPA) has maintained a Federal Agency Hazardous Waste Compliance Docket ("Docket") under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLA requires EPA to establish a Docket that contains certain information reported to EPA by Federal facilities that manage hazardous waste or from which a reportable quantity of hazardous substances has been released. This notice identifies the Federal facilities not previously listed on the Docket and identifies Federal facilities reported to EPA since the last update on October 27, 2021. In addition to the list of additions to the Docket, this notice includes a section with revisions of the previous Docket list and a section of Federal facilities that are to be deleted from the Docket. Thus, the revisions in this update include eleven additions, zero deletions, and zero corrections to the Docket since the previous update. DATES: This list is current as of April 5, 2022.

FOR FURTHER INFORMATION CONTACT: Electronic versions of the Docket and more information on its implementation can be obtained at http://www.epa.gov/ fedfac/federal-agency-hazardous-waste*compliance-docket* by clicking on the link for Cleanups at Federal Facilities or by contacting Jonathan Tso (Tso.Jonathan@epa.gov), Federal Agency Hazardous Waste Compliance Docket Coordinator, Federal Facilities Restoration and Reuse Office. Additional information on the Docket and a complete list of Docket sites can be obtained at: https://www.epa.gov/ fedfac/federal-agency-hazardous-wastecompliance-docket-1.

SUPPLEMENTARY INFORMATION:

Table of Contents

- 1.0 Introduction
- 2.0 Regional Docket Coordinators
- 3.0 Revisions of the Previous Docket
- 4.0 Process for Compiling the Updated Docket
- 5.0 Facilities Not Included
- 6.0 Facility NPL Status Reporting, Including NFRAP Status
- 7.0 Information Contained on Docket Listing

1.0 Introduction

Section 120(c) of CERCLA, 42 U.S.C. 9620(c), as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA), requires EPA to establish the Federal Agency Hazardous Waste Compliance Docket. The Docket contains information on Federal facilities that manage hazardous waste and such information is submitted by Federal agencies to EPA under sections 3005, 3010, and 3016 of the Resource Conservation and Recovery Act (RCRA), 42 U.S.C. 6925, 6930, and 6937. Additionally, the Docket contains information on Federal facilities with a reportable quantity of hazardous substances that has been released and such information is submitted by Federal agencies to EPA under section 103 of CERCLA, 42 U.S.C. 9603. Specifically, RCRA section 3005 establishes a permitting system for certain hazardous waste treatment, storage, and disposal (TSD) facilities; RCRA section 3010 requires waste generators, transporters and TSD facilities to notify EPA of their hazardous waste activities; and RCRA section 3016 requires Federal agencies to submit biennially to EPA an inventory of their Federal hazardous waste facilities. CERCLA section 103(a) requires the owner or operator of a vessel or onshore or offshore facility to notify the National Response Center (NRC) of any spill or other release of a hazardous substance that equals or exceeds a reportable quantity (RO), as defined by CERCLA section 101. Additionally, CERCLA section 103(c) requires facilities that have "stored, treated, or disposed of" hazardous wastes and where there is "known, suspected, or likely releases" of hazardous substances to report their activities to EPA.

CERCLA section 120(d) requires EPA to take steps to assure that a Preliminary Assessment (PA) be completed for those sites identified in the Docket and that the evaluation and listing of sites with a PA be completed within a reasonable time frame. The PA is designed to provide information for EPA to consider when evaluating the site for potential response action or inclusion on the National Priorities List (NPL).

The Docket serves three major purposes: (1) To identify all Federal facilities that must be evaluated to determine whether they pose a threat to human health and the environment sufficient to warrant inclusion on the National Priorities List (NPL); (2) to compile and maintain the information submitted to EPA on such facilities under the provisions listed in section 120(c) of CERCLA; and (3) to provide a mechanism to make the information available to the public. Previous Docket updates are available at https:// www.epa.gov/fedfac/previous-federalagency-hazardous-waste-compliancedocket-updates.

This notice provides some background information on the Docket. Additional information on the Docket requirements and implementation are found in the Docket Reference Manual, Federal Agency Hazardous Waste Compliance Docket found at http:// www.epa.gov/fedfac/docket-referencemanual-federal-agency-hazardouswaste-compliance-docket-interim-final or obtained by calling the Regional Docket Coordinators listed below. This notice also provides changes to the list of sites included on the Docket in three areas: (1) Additions, (2) Deletions, and (3) Corrections. Specifically, additions are newly identified Federal facilities that have been reported to EPA since the last update and now are included on the Docket; the deletions section lists Federal facilities that EPA is deleting from the Docket.¹ The information submitted to EPA on each Federal facility is maintained in the Docket repository located in the EPA Regional office of the Region in which the Federal facility is located; for a description of the information required under those provisions, see 53 FR 4280 (February 12, 1988). Each repository contains the documents submitted to EPA under the reporting provisions and correspondence relevant to the reporting provisions for each Federal facility.

In prior updates, information was also provided regarding No Further Remedial Action Planned (NFRAP) status changes. However, information on NFRAP and NPL status is no longer being provided separately in the Docket update as it is now available at: http:// www.epa.gov/fedfacts/federal-facilitycleanup-sites-searchable-list or by contacting the EPA HQ Docket Coordinator at the address provided in the FOR FURTHER INFORMATION CONTACT section of this notice.

 $^{^{1}\,\}text{See}$ Section 3.2 for the criteria for being deleted from the Docket.
