**SUPPLEMENTARY INFORMATION:** DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

Section 236(a)(2)(D) of the Trade Act of 1974, as amended (Act), requires the Secretary to establish procedures for the distribution of funds remaining after the initial distribution under Section 236(a)(2)(B)(i). Section 241 of the Trade Act of 1974, as amended, requires the Secretary of Labor to certify to the Secretary of the Treasury amounts necessary for each cooperating state to provide services and make payments under the Act. As such, states may request reserve funds to cover the costs of training, job search allowances and relocation allowances, employment and case management services, and state administration of these benefits before DOL issues the final distribution of state allocations. Reserve funds are distributed to states in accordance with

20 CFR 618.920 on an as-needed basis in response to requests to provide monies to those states that experience large, unexpected layoffs, or otherwise have financial needs that are not met by their initial allocation. These funds are requested using the Form ETA-9117. Section 236(a)(2)(D) of the Trade Act of 1974, as amended, authorizes this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1205-0275.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submission of responses).

have practical utility; (2) if the information will be processed and used in a timely manner; (3) the accuracy of the agency's estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (4) ways to enhance the quality, utility and clarity of the information collection; and (5) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

**SUPPLEMENTARY INFORMATION:** Section 408(a) of the Employee Retirement Income Security Act of 1974 (ERISA) gives the Secretary of Labor the authority to “grant a conditional or unconditional exemption of any fiduciary or transaction, or class of fiduciaries or transactions, from all or part of the restrictions imposed by sections 406 and 407(a).” In order to grant an exemption under section 408, the Department must determine that the exemption is: (1) Administratively feasible; (2) in the interests of the plan and its participants and beneficiaries; and, (3) protective of the rights of the participants and beneficiaries of such plan. The three prohibited transaction class exemptions (PTEs) included in this ICR, (1) PTE 76-1, (2) PTE 77-10, and (3) PTE 78-6, exempt certain types of transactions commonly entered into by “multiemployer” plans from certain of the prohibitions contained in sections 406(a) and 407(a) of ERISA. The Department determined that, in the absence of these exemptions, the affected plans would not be able to operate efficiently or to enter into routine types of transactions necessary for their operations. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on December 13, 2021 (86 FR 70866).

This information collection is subject to the PRA. See 5 CFR 1320.5(a) and 1320.6.

### SUPPLEMENTARY INFORMATION:

#### I. Abstract

The NASA Contractor Financial Management Reporting System is the basic financial medium for contractor reporting of estimated and incurred costs, providing essential data for projecting costs and hours to ensure that contractor performance is realistically planned and supported by dollar and labor resources. The data provided by these reports is an integral part of the Agency's accrual accounting and cost-based budgeting system. Respondents are reimbursed for associated cost to provide the information, per their negotiated contract price and associated terms of the contract. There are no “total capital and start-up” or “total operation and maintenance and purchase of services” costs associated since NASA policy requires that data reported is generated from the contractors' existing system. The contractors' internal management system shall be relied upon to the maximum extent possible.
