Actions Regarding the Commission’s Policy on Price Index Formation and Transparency, and Indices Referenced in Natural Gas and Electric Tariffs

Docket No. PL20–3–000

(Issued April 21, 2022)

DANLY, Commissioner, *concurring*:

1. I concur with today’s order¹ adopting the revisions that the Commission proposed in December 2020 to its *Policy Statement on Natural Gas and Electric Price Indices*.² As part of its charge to ensure just and reasonable rates,³ the Commission should take actions that enhance the liquidity and transparency of the price indices that are used in jurisdictional tariffs.

2. I write separately to suggest that the Commission might have acted otherwise on its parallel proposal to codify its *Safe Harbor Policy for Data Providers to Price Index Developers* in Docket No. RM20–7–000 (Proposed Rule).⁴ Doubtless, there are good reasons for the Commission to decline to act at this time.⁵ However, the Commission offers none.

3. Initially, the Commission had found that “[b]ased on industry comments during and after the technical conference, we believe that incorporation of the Safe Harbor Policy into the Commission’s regulations will provide greater certainty to market participants and will lead to increased voluntary reporting to price index developers.”⁶ All but one entity⁷ commenting on the Proposed Rule agreed.⁸ Though entitled to decline to take action, it would have been preferable for the Commission to have cited specific evidence and to have explained why it is now deterred from acting within our jurisdiction on a proposal that it had initially believed would improve the indices.

For these reasons, I respectfully concur.

James P. Danly,
Commissioner.

[Docket No. CP22-166-000]

Tennessee Gas Pipeline Company, L.L.C.; Notice of Request Under Blanket Authorization and Establishing Intervention and Protest Deadline

Take notice that on April 13, 2022, Tennessee Gas Pipeline Company, L.L.C. (Tennessee), 1001 Louisiana Street, Houston, Texas 77002, filed in the above referenced docket a prior notice pursuant to sections 157.205, 157.208, and 157.210 of the Commission's regulations under the Natural Gas Act (NGA) and its blanket certificate issued in Docket No. CP82-413-000 requesting authorization to install one new CAT 3616, gas driven, 5,000 horsepower reciprocating compressor package and associated piping, valves, and ancillary equipment at its existing Compressor Station 409 located in Hidalgo County, Texas (Compressor Station 409 Project). Tennessee states that the project will increase the north to south firm transportation capacity on Tennessee's system in Zone 0 by 69,500 dekatherms per day (Dth/d). Tennessee states that the change in capacity will enable Tennessee to extend the existing primary firm transportation path of Mex Gas Supply, S.L., a non-affiliated Tennessee shipper, to the Agua Dulce, Texas area. Also, the project will enable Tennessee to offer an additional 7,500 Dth/d of unsubscribed incremental firm capacity between the Agua Dulce, Texas area and the Mexico border. Tennessee estimates the cost of the Compressor Station 409 Project to be approximately \$23.2 million, all as more fully set forth in the request which is on file with the Commission and open to public inspection.
