

these financial records. The employees and contractors must have access to NFC to perform their duties.

The Forest Service uses an electronic form FS-6500-214, Financial Information Security Request Form, to apply to NFC for access for a specific employee or contractor. Due to program management decisions and budget constraints, it has been determined that contractors will need to complete and submit the form.

The contractor and the Forest Service systems provide the information necessary to complete form FS-6500-214. The contractor verifies completion of two courses within the last year: Privacy Act Basics and IT (Information Technology) Security. The contractor then enters their short name assigned by the Forest Service. Using the short name, the screen is populated with information that the contractor can change if incorrect. The information includes: Name, work email, work telephone number, and job title. The contractor checks the box for a non-federal employee and provides the expiration date of the contract. The contractor then selects the databases and actions needed. Based on the database(s) selected, the contractor provides additional information regarding the financial systems, work location, access scope, etc. Once the form is submitted to the client security officer, a one-page agreement automatically prints, which the contractor and client security officer sign. The agreement is a certification statement that acknowledges the contractor's recognition of the sensitive nature of the information and agrees to use the information only for authorized purposes. The information collected is shared with those managing or overseeing the financial systems used by the Forest Service, this includes auditors.

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

Title II, Section 203(o) of the United States-Panama Trade Promotion Agreement Implementation Act (the "Act") [Pub. L. 112–43] implements the commercial availability provision provided for in Article 3.25 of the United States-Panama Trade Promotion Agreement (the "Agreement"). The Agreement entered into force on October 31, 2012. Subject to the rules of origin in Annex 4.1 of the Agreement, pursuant to the textile provisions of the Agreement, fabric, yarn, and fiber produced in Panama or the United States and traded between the two countries are entitled to duty-free tariff treatment. Annex 3.25 of the Agreement also lists specific fabrics, yarns, and fibers that the two countries agreed are not available in commercial quantities in a timely manner from producers in Panama or the United States. The items listed in Annex 3.25 are commercially unavailable fabrics, yarns, and fibers. Articles containing these items are entitled to duty-free or preferential treatment despite containing inputs not produced in Panama or the United States.

The list of commercially unavailable fabrics, yarns, and fibers may be changed pursuant to the commercial

availability provision in Chapter 3, Article 3.25, Paragraphs 4–6 of the Agreement. Under this provision, interested entities from Panama or the United States have the right to request that a specific fabric, yarn, or fiber be added to, or removed from, the list of commercially unavailable fabrics, yarns, and fibers in Annex 3.25 of the Agreement.

Pursuant to Chapter 3, Article 3.25, paragraph 6 of the Agreement, which requires that the President publish procedures for parties to exercise the right to make these requests, Section 203(o)(4) of the Act authorizes the President to establish procedures to modify the list of fabrics, yarns, or fibers not available in commercial quantities in a timely manner in either the United States or Panama as set out in Annex 3.25 of the Agreement. The President delegated the responsibility for publishing the procedures and administering commercial availability requests to the Committee for the Implementation of Textile Agreements ("CITA"), which issues procedures and acts on requests through the U.S. Department of Commerce, Office of Textiles and Apparel ("OTEXA") (See Proclamation No. 8894, 77 FR 66507, November 5, 2012).

The intent of the U.S.-Panama TPA Commercial Availability Procedures is to foster the use of U.S. and regional products by implementing procedures that allow products to be placed on or removed from a product list, on a timely basis, and in a manner that is consistent with normal business practice. The procedures are intended to facilitate the transmission of requests; allow the market to indicate the availability of the supply of products that are the subject of requests; make available promptly, to interested entities and the public, information regarding the requests for products and offers received for those products; ensure wide participation by interested entities and parties; allow for careful review and consideration of information provided to substantiate requests and responses; and provide timely public dissemination of information used by CITA in making commercial availability determinations.

CITA must collect certain information about fabric, yarn, or fiber technical specifications and the production capabilities of Panamanian and U.S. textile producers to determine whether certain fabrics, yarns, or fibers are available in commercial quantities in a timely manner in the United States or Panama, subject to Section 203(o) of the Act.
