

Declaration No. 2020–002 was in place required that FMCSA seek information on the number of motor carriers and drivers relying upon the emergency declaration in order to evaluate the need for additional extensions.

The extension issued on August 31, 2021, included a requirement for motor carriers to report, on a monthly basis, their reliance on the emergency declaration during operations. FMCSA established a website where motor carriers and drivers filled out fields for their USDOT number, the number of commercial motor vehicle trips that relied upon the emergency declaration in the preceding month (using a drop down menu), the commodities being transported (using a drop down menu), and a follow up for those listing more than one commodity to indicate which was transported the most (using a drop down menu). The November 29, 2021, extension continued the reporting requirement. OMB approved the reporting requirement on an emergency basis on August 30, 2021, and subsequently extended that emergency approval on February 14, 2022. That approval expires on August 31, 2022. FMCSA refined the burden estimates to reflect the average number of monthly submissions received from September 2021 to February 2022. The carrier is reporting for the previous month, therefore October 2021 submitted reports consist of data for the month of September, and March 2022 submitted reports consist of data for the month of February.

This resulted in a decrease in the number of reports estimated to be submitted each month, as the emergency ICR request used the total number of motor vehicles as a stand-in, and acknowledged that number was likely to be an overestimate.

Title: Acknowledgement of use of COVID–19 Emergency Declaration Relief.

OMB Control Number: 2126–0074.

Type of Request: Renewal of an approved emergency collection.

Respondents: Motor carriers and drivers that operate under the terms of the extended COVID–19 Emergency Declaration No. 2020–002.

Estimated Number of Respondents: 477 per month.

Estimated Time per Response: 15 minutes per response.

Expiration Date: The emergency approval expires on August 31, 2022.

Frequency of Response: Monthly.

Estimated Total Annual Burden: 1,431 hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1)

Whether the proposed collection is necessary for the performance of FMCSA's functions; (2) the accuracy of the estimated burden; (3) ways for FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information. The Agency will summarize or include your comments in the request for OMB's clearance of this ICR.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA–2006–24216]

Petition for Extension of Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on March 31, 2022, the Sacramento Regional Transit District (SRTD) petitioned the Federal Railroad Administration (FRA) for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR parts 222, Use of Locomotive Horns at Public Highway-Rail Grade Crossings; 229, Railroad Locomotive Safety Standards; and 234, Grade Crossing Safety. The relevant FRA Docket Number is FRA–2006–24216.

Specifically, SRTD requests a waiver extension from 49 CFR part 222; § 229.125, *Headlights and auxiliary lights*; and § 234.105(c)(3), *Activation failure*, for its rail fixed guideway public transit system that shares limited connections in corridors with Union Pacific Railroad (UP). The relief from part 222 would apply to 17 highway-rail grade crossings SRTD shares with UP on SRTD's Gold Line. The relief from § 229.125 and § 234.105(c)(3) would apply to all crossings SRTD shares with UP on the SRTD Blue and Gold lines. STRD adds that, in August 2022, it will be receiving 28 of 76 new low-floor light rail vehicles from Siemens Mobility Inc., to replace its fleet of Siemens vehicles. SRTD states that it believes the waiver extension is consistent with railroad safety.

[Docket Number FRA–2022–0028]

Petition for Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that in a letter dated September 17, 2021, the Lake County Division of Transportation (LCDOT) petitioned the

Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR 222.9, *Definitions*. FRA assigned the petition Docket Number FRA–2022–0028.

Specifically, LCDOT requests relief from the § 222.9 definition of “non-traversable curb,” which states that “[n]on-traversable curbs are used at locations where highway speeds do not exceed 40 miles per hour [(mph)] and are at least six inches high.” LCDOT seeks to maintain the current highway speed of 45 mph at Aptakisic Road and Midlothian Road,¹ two crossings with non-traversable curbs, instead of reducing the speed to 40 mph. In support of its petition, LCDOT references a speed study of the corridor and guidance from the American Association of State Highway and Transportation Officials.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

¹ In its petition, LCDOT discusses five grade crossings within the Lake County, IL, Quiet Zone (THR–000481), but it only requests relief for Aptakisic Road and Midlothian Road. LCDOT states the 40-mph speed restriction is not applicable to the other three crossings due to the installation of Mountable Median Pylons.
